### **COURSE DESCRIPTION**

EDUC/EPLP 722 course is designed to examine sheltered instruction and focus on preparing teachers to teach content effectively to English learners while developing the students' language ability. The course will emphasize academic literacy, developing academic vocabulary aligned with core content curriculum, reading development and comprehension, ESL methodologies, progress monitoring of students and explicit training on how to co-teach. Examples of instructional tools appropriate for different grade-level divisions and the subjects of science, social studies, math, and language arts will be provided.

### **COURSE OBJECTIVES**

Students completing EDUC 2016.10.22280 EDPD-501-6F1/EPLP 722 will be able to:

- Make instructional decisions about how to apply sheltered instruction strategies into classroom lessons.
- Recognize the difference between a content objective and a language objective in order to clarify how ELLs are supported academically and linguistically.
- Identify the importance of a standards-based UBD model so that we can compare and contrast the benefits of a lesson before and after following backwards planning.
- Analyze different models of Co-teaching and discuss their potential effectiveness within our own collaborative settings.
- Explore WIDA ELD standards and Can-Do Descriptors and how they support ELs' language development and academic achievement at the same time.
- Implement ELD standards through the use of MPIs into lessons.
- Analyze linguistic & cultural backgrounds to incorporate students' home language usage in the classroom.
- Understand that there are different language demands (language tasks and functions) and therefore multiple opportunities in different content areas to provide regular opportunities to practice and apply new language and content knowledge in English.
- Know a variety of research-based differentiation strategies, reflecting on which strategies would work best with PWCS EL's profiles (EL types, ELP levels, learning styles) and tell why.
- Select instructional strategies to scaffold texts, assignments, & activities for the range of ELs' proficiency levels.
- Understand that collaboration is necessary between content teachers, special educators, and ESOL teachers.
- Analyze information about the service provisions for dually identified students.

- Define and discuss how ‘cooperative learning’ aligns to the theory of Vygotsky's social interaction and SIOP's component of verbal interaction in order to gain a sense of why cooperative learning is necessary for second language acquisition.
- Extend our understanding of the need to focus on all tiers of vocabulary for ELs and know how to apply our knowledge to authentic text.
- Explore culturally responsive reading strategies and discuss their potential effectiveness with ELs.
- Determine and apply the types of writing (i.e. text types) required for core content areas.
- Use the WIDA writing rubrics to formatively evaluate authentic samples of ELs' writing that are representative of grade-level clusters and text types to determine students' levels of proficiency.
- Categorize supplementary materials in order to support content and language objectives and the four language domains: reading, writing, listening and speaking.

This course is designed for both general educators who want to improve their teaching skills for working with EL students and for ESOL teachers desiring to refresh their knowledge and skills to better meet the needs of the growing EL population in Prince William County Public Schools.

This is a graduate-level course. Please plan on 2-3 hours per week for reading and 2-3 hours per week for written assignments.
