ECED 504.001/P01 Engaging Families of Diverse Young Learners
3 Credits, Spring 2018
Mondays/ 4:30 – 7:10 pm
Innovation Hall 131, Fairfax Campus

Faculty
Name: Colleen Vesely, PhD.
Office Hours: By Appointment
Office Location: Thompson Hall 1102, Fairfax Campus
Office Phone: 703-993-5346
Email Address: cvesley@gmu.edu

Prerequisites/Corequisites
None

University Catalog Course Description
Focuses on strategies for developing culturally appropriate family professional partnerships to benefit children, including children from diverse cultural and linguistic backgrounds and children with special needs. Explores theories and research supporting a family centered approach, including family and professional rights and responsibilities, especially in the special education process. Offered by Graduate School of Education. May not be repeated for credit.

Course Overview
Not Applicable

Course Delivery Method
This course will be delivered using a lecture and discussion format.

Learner Outcomes or Objectives
This course is designed to enable students to do the following:
1. Describe the historical, philosophical, and sociological foundations underlying the role, development and organization of public education in the United States.
2. Discuss the legal status of teachers and students, including federal and state laws and regulations, school as an organization/culture, and contemporary issues in education.
3. Discuss theories and research supporting a family-centered approach to early childhood education.
4. Discuss the role of cultural context in attitudes, beliefs, values, and child rearing practices.
5. Analyze personal values, beliefs, and cultural biases that influence their work with families.
6. Describe underlying principles and ways to work with families that are both effective and enabling.
7. Identify strategies that support and assist families to identify their priorities, resources, and concerns for their children, including children with special needs.
8. Create tailored opportunities for collaborating with families in the ongoing education of children, including children from diverse cultural and linguistic backgrounds and children with special needs.
9. Utilize family systems theory to describe and understand family perspectives.
10. Identify specific components of IDEA that support family voices in the special education process.
11. Adopt a strengths-based problem solving perspective when analyzing dilemmas related to partnering with families.
12. Demonstrate understanding of the theories and techniques of family-centered intervention, including issues related to families from diverse backgrounds and multicultural education.

**Professional Standards (Council of Exceptional Children and National Association for the Education of Young Children)**

Upon completion of this course, students will have met the following professional standards:

**NAEYC Standard Elements**

*NAEYC 2a Knowing about and understanding diverse family and community characteristics*
*NAEYC 2b Supporting and engaging families and community through respectful, reciprocal relationships*

**Required Texts**

See Additional Course Readings list following the Class Schedule.

**Course Performance Evaluation**

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Comments on draft to peer- 4/16  
Final – 4/23 | 25     |

**TOTAL**                                           | 100                                |        |

- **Assignments and/or Examinations**

**Spotlight on Young Children and Families Discussion (5 points)**  
Students, along with two or three of their peers, will be responsible for leading a discussion about an assigned chapter from the *Spotlight on Young Children and Families* text. Students are expected to lead a discussion (they may NOT use PowerPoint and should not just summarize the reading) and include one hands-on activity as part of the discussion. *A sign-up sheet will be provided on the first night of class.*

**Home Visit Project (25 points)**  
This is the Key Assessment 7 Home Visit Project that shows evidence of meeting CEC and NAEYC Standards. This assignment must be submitted on Blackboard. See the assessment description and scoring rubric attached.

**Online or App. Review Family Resource (10 points)**  
Students will investigate, identify, and share a resource (e.g. a family service, an individual or particular service provider, a handbook or other written material, a local event, etc.) that would be of great use to the family (or a similar family) they chose for the Home Visitation Project. Students will search for appropriate resources and create and upload to Blackboard a one-page handout describing the resource with all relevant elements and contact information. Students will post their family resource in the discussion board, and bring enough copies to class to share with their colleagues. Students will present on their resource for one to two minutes during class.
Family Story Presentation (5 points)
Students will present what they have learned from their family visits as a story. Each student presentation will be a total of 8 minutes, with five to six minutes for the presentation of the family story and 2 to 3 minutes for peer/instructor questions and discussion. The presentation should not sound like a clinical case presentation. Students should be creative with their story presentation and consider how they would like their own story to be told.

Statement of Philosophy for Working with Families and Communities (25 points)
Students will use their experiences with the children and families in their setting, any community connections they have made, as well as course content including readings and discussion to create a one- to two-page (single-spaced) statement of their philosophy for working with families and communities. This will include not only why they believe it is important to engage with families and communities as a teacher/practitioner but also the ways they believe are most effective for doing this. They will include academic, both research- and theory-based, literature as well as concrete examples from the readings. It is expected that experiential, empirical, and theoretical (research- and theory-based from course readings) knowledge will be used in this paper. All course readings should be cited appropriately.

- Other Requirements

Attendance and Participation (15 points)
Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class activities will be evaluated based on the following criteria:
• Students attend class, arrive on time, and stay for the entire class period.
• Students complete readings and prepare for class activities prior to class as is evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
• Students are actively involved in in-class and online learning experiences as is evidenced by (a) participating in all activities, (b) engaging in small- and large-group discussions, (c) completing written work related to the activities, and (d) supporting the participation and learning of classmates.
• Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.
• Professional dispositions are to be displayed at all times while interacting with the instructor and other students. Cell phones are not to be used during class. Laptops are to be used for instructional purposes only.

Written Assignments
All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library website at http://infoguides.gmu.edu/content.php?pid=39979. Students may consult the Writing Center for additional writing support.
Students will do the following:
1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.
5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

- Grading

A = 95-100   A- = 90-94   B+ = 87-89   B = 80-86   C = 70-79   F = <70
Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD undergraduate and graduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at http://catalog.gmu.edu. Those students enrolled in a CEHD Licensure Graduate Certificate program, however, must earn a B- or better in all licensure coursework. A degree-seeking graduate student will be dismissed after accumulating grades of F in two courses or 9 credits of unsatisfactory grades (C or F) in graduate courses. A 3.0 grade point average is required for completion of the graduate degree.

Professional Dispositions
Students are expected to exhibit professional behaviors and dispositions at all times. See https://cehd.gmu.edu/students/policies-procedures/.

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: [http://cehd.gmu.edu/values/](http://cehd.gmu.edu/values/).

GMU Policies and Resources for Students

Policies
- Students must adhere to the guidelines of the Mason Honor Code (see [https://catalog.gmu.edu/policies/honor-code-system/](https://catalog.gmu.edu/policies/honor-code-system/)).

- Students must follow the university policy for Responsible Use of Computing (see [http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/](http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/)).

- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see [http://ods.gmu.edu/](http://ods.gmu.edu/)).

- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources
- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or [https://cehd.gmu.edu/aero/tk20](https://cehd.gmu.edu/aero/tk20). Questions or concerns regarding use of Blackboard should be directed to [http://coursesupport.gmu.edu/](http://coursesupport.gmu.edu/).

- For information on student support resources on campus, see [https://ctfe.gmu.edu/teaching/student-support-resources-on-campus](https://ctfe.gmu.edu/teaching/student-support-resources-on-campus).

For additional information on the College of Education and Human Development, please visit our website: [https://cehd.gmu.edu/students/](https://cehd.gmu.edu/students/).
