## Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

- **Assignments and/or Examinations**

### Research Proposal

Students will select a research topic of interest and complete the three components of a research proposal: introduction, literature review, and methods sections. An annotated bibliography will be used to begin the development of the proposal and introduce students to literature on their topic of interest. Students will present their completed research proposal at the end of the course. Research topics are expected to reflect student interests and an aspect of the C&D program mission, which emphasizes social justice, multiculturalism, advocacy, leadership, and internationalism in counseling.

### Annotated Bibliography

The annotated bibliography is a one of the first steps in the research process. The purpose is to become familiar with literature related to your topic of interest. In this assignment, you will develop skills in locating appropriate articles, as well as summarizing and evaluating

the content. Using your database search skills (and assistance as necessary) you will locate five research articles from peer-review (scholarly) journals. Review each article and write an annotation for each (between 150 and 170 words each, not including the citation). Following the article citation, each annotation should include a summary of the content *and* an evaluation of the article's usefulness and rigor. Include the total word count for the annotation at the end of each annotation. You must adhere to APA (6<sup>th</sup> ed.) guidelines.

### Introduction and Review of the Literature

The *introduction* component of a research paper introduces the reader to your research issue. The purpose of the introduction is to provide a clear and concise overview of your research study including: the research issue/problem in counseling, a rationale for examining this research issue, and the purpose of your study. The introduction should be one page. The *review of the literature* will allow you to integrate the knowledge developed from your annotated bibliography to more fully understand your research topic. The literature review should conclude with a restatement of your purpose and your research question(s). The literature review should be four pages. In addition to the one-page introduction and four-page review of the literature, you will include a title page and reference page(s). You must adhere to APA (6<sup>th</sup> ed.) guidelines.

### Methods Section

In this section, you will describe the research methods that you will use to address your research question. You will apply course material and additional readings as necessary. This section should allow other researchers to replicate your study. The methods section should be between two and three pages (not including title and reference pages). You must adhere to APA (6<sup>th</sup> ed.) guidelines.

### APA Style Quiz

To ensure understanding and retention of APA style, students will be given an APA style quiz. The quiz can be taken twice.

### Reading Quizzes

To ensure understanding of readings on research, students will be given 3 open-book quizzes that can be taken twice.

### Participation

Students in Counseling & Development courses are expected to demonstrate a high level of participation consistent with graduate-level education. Students are expected to: be on time and present for the duration of the class; demonstrate engagement (ask questions, share thoughts); be respectful and attentive; demonstrate preparedness for each class meeting; and demonstrate completion of online tasks. This component includes reflection activities, such as discussion board postings, written reflections, and peer reviews.
