University Catalog Course Description
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

Course Overview
The course looks at global tourism from different aspects: that of the tourist, that of the tourism service providers, that of the government agencies that promote and regulate it, that of groups that promote tourism, that of researchers and observers, and that of others. Student presentations are meant to augment the formal presentations. Classes, reading assignments and student presentations, and often guest speakers, emphasize the different aspects of global tourism. As the course progresses students should be able to integrate these topics and see how the field of global tourism is broad and complex.

This course will be valuable to you only if you actively participate by reading, thinking, and joining in class discussions and activities. I strongly encourage your attendance in class, your participation in in-class activities and discussions, and the timely completion of homework and assignments. You are expected to attend all class sections, actively participate in class discussions, complete in-class exercises and fulfill all assignments. Assignments must be turned in at the beginning of class on the specified date due.

Course Delivery Method
Major topics will be given by lecture in the classroom. Homework assignments provide a basis, background and elaboration of subject material. Presentations by fellow students are intended to provide a reinforcement of the course topic discussed in class.
Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.

Expectations

- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least once a week.

- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

- **Technical Issues:** Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- **Workload:** Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- **Instructor Support:** Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:** The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. **Be positive in your approach with others and diplomatic in selecting your words.** Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:** Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.
Learner Outcomes or Objectives
This course stresses the interconnectedness, difference and diversity that are central to understanding and operating in a global society. At the completion of this course students should be able to:

1. Discuss the impact of tourism on the global economy and other peripheral areas (e.g. developing nations);
2. Analyze significant global tourism issues and demonstrate an awareness of how these issues are perceived and dealt with in different cultural and historical traditions;
3. Describe the ways in which tourism contributes to appreciation of cultural heritage and the international foundations of American society;
4. Discuss the social impacts of global tourism, including acculturation, religious tolerance, and political awareness;
5. Discuss the role of international tourism in promoting world peace;
6. Design an international travel itinerary that would allow a tourist to learn about another country; and
7. Visit other countries with an improved sense of host/guest relations and with greater appreciation for the opportunities to expand learning about the world cultures.

Professional Standards
Students are expected to exhibit professional behaviors and dispositions at all times.

Required Texts
No text is required for this course. Refer to Required Readings to determine which articles to read and WEB sites to visit for specific classes.

Course Performance Evaluation
Students are expected to submit all assignments on time in the manner outlined by the instructor.

Assignments and Examinations
This course will be graded on a point system, with a total of 100 possible points.
