University Catalog Course Description

Examines complexity of language acquisition and literacy development of diverse young learners. Emphasizes language acquisition, reading, and writing in prekindergarten and kindergarten contexts. Focuses on evidence-based assessment and instructional practices that promote prekindergarten and kindergarten children's language and literacy development. Explores social, cultural, affective, cognitive, and educational factors that play a role in language acquisition and literacy learning. Notes: Field experience required. Offered by Graduate School of Education. May not be repeated for credit.

Course Delivery Method

This course will be delivered using a lecture and discussion format.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Use strength-based language to discuss factors (e.g., social, cultural, linguistic, family, socioeconomic, affective, cognitive, and educational) that play a role in monolingual and multilingual language acquisition and literacy learning (reading and writing) in children with varied abilities and from diverse cultural, linguistic, and socioeconomic backgrounds.
2. Describe the nature of language acquisition and its relationship to speech and language and literacy (reading and writing) development for children who speak English and dual or multilingual learners, including typical developmental stages of language acquisition and communication and the development of linguistic competence in the areas of phonetics, semantics, syntax, morphology, phonology, and pragmatics (i.e., use of language to get needs and wants met and use of functional communication for social interaction).
3. Identify and discuss (a) specific language-based conditions, such as dyslexia, dysgraphia, dyscalculia, and auditory processing disorders; (b) at-risk learning-related issues due to

attention deficit disorders; (c) the effects of disabling and at-risk conditions on young children; and (d) intervention methods to promote speech and language development and literacy (reading and writing) development in children with varied abilities and from diverse cultural, linguistic, and socioeconomic backgrounds.

4. Identify the special education identification process of students at risk of learning disabilities, including pre-referral, referral, evaluation, and eligibility in federal and state regulations, as specified in the Individuals with Disabilities Education Act (IDEA) and Regulations Governing Programs for Children with Disabilities in Virginia, as it relates to disability categories such as specific learning disabilities and speech and language impairment.
5. Identify and discuss formal and informal assessment as screening, diagnostic, and progress monitoring measures for (a) oral language; (b) reading, including phonemic awareness and other phonological awareness, letter recognition, decoding, fluency, vocabulary, reading levels, and comprehension; and (c) writing.
6. Discuss ways to use assessment data, including diagnostic and progress monitoring data, to inform instruction for acceleration, intervention, remediation, and differentiation.
7. Design, evaluate, and modify language- and literacy-rich environments and classroom management and behavior guidance strategies that maintain a positive learning environment; respond to each child's individual strengths and needs, and promote diverse young children's interest and engagement in language acquisition, reading, and writing.
8. Explain the importance of play-based learning in prekindergarten and kindergarten children's language and literacy development and describe ways to promote language and literacy development during conversation and play.
9. Identify and describe effective, evidence-based, culturally responsive assessment and instructional strategies and materials, including differentiated instruction and the use of technologies, to promote diverse young children's development in the following areas:
 - Oral Language (speaking and listening)
 - phonological awareness skills
 - learning of standard English by speakers of other languages and dialects
 - Reading
 - phonemic and other phonological awareness (e.g., phonemes, syllables, and rhyming),
 - concepts of print
 - phonics (e.g., sound and symbol relationships, syllables, phonemes morphemes, word analysis, and decoding skills)
 - structure of the English language (e.g., syntax)
 - fluency
 - vocabulary and concept development
 - listening and reading comprehension across content areas (e.g., fiction and nonfiction text predicting, retelling, summarizing, and making connections with and beyond the text)
 - Writing
 - writing cohesively for a variety of purposes and in a variety of modes (e.g., narrative, descriptive, persuasive, and explanative)
 - composing
 - written expression
 - usage and mechanics

- spelling (e.g., stages of development, generalization of spelling study to writing, systematic spelling instruction, and purposes and limitations of invented spelling)
 - handwriting
 - writing processes (e.g., planning, drafting, revising, editing, and publishing)
 - Creative Thinking and Expression
 - storytelling, drama, choral and oral reading, and imaginative writing
 - Appreciation of Text
 - fiction and nonfiction
 - Independent Reading
 - selecting fiction and nonfiction texts of appropriate yet engaging topics and reading levels
 - Visual Literacy
 - viewing, interpreting, analyzing, and representing information and concepts in visual form with or without the spoken or written word
 - Use of Technology
 - using technology for process and product work with reading and writing, to communicate, and to learn
10. Plan, implement, and reflect on evidence-based, culturally responsive assessment and instruction that (a) recognizes the reciprocal nature of reading and writing; (b) promotes oral language (speaking and listening), reading, and writing; and (c) uses knowledge of how standards provide the core for teaching English in prekindergarten and kindergarten to support children’s achievement of the Virginia Standards of Learning in English and Virginia’s Foundation Blocks for Early Learning: Comprehensive Standards for Four-Year-Olds.

Professional Standards – Interstate Teacher Assessment and Support Consortium (InTASC), Council of Exceptional Children (CEC), and National Association for the Education of Young Children (NAEYC)

Upon completion of this course, students will have met the following professional standards:
 N/A - Students will work toward meeting InTASC, CEC, and NAEYC standards.

- **Assignments and/or Examinations**

Field Experience (20 points)

This course requires a minimum of 15 hours field experience in an early childhood education classroom (PreK or Kindergarten). To initiate this assignment, students will visit <https://cehd.gmu.edu/endorse/ferf> and complete the online “Field Experience Request Form.” On the form students will be asked to indicate how their placement will be arranged. For the Spring 2019 term, students have two options for fulfilling their field placement requirement.

Option 1:

- Students may arrange their own field experience if they are a full-time contracted school system employee and are able to complete their field experience at their workplace.

Option 2:

- Students may request placement in a prekindergarten or kindergarten general education or special education setting through the field placement office <https://cehd.gmu.edu/endorse/ferf>.
- The field placement office will arrange placement for students in a specific school with a specific teacher.

Documenting the Field Experience (5 points)

- Students will upload the *Field Experience Placement Approval Form*. In this form, they will provide a statement confirming that they have completed the online “Field Experience

Request form” and they will provide information to the instructor about where and how they will complete the field experience (1 point).

- Upon completion of their field experience hours, students will provide documentation of their experience (4 points).
 - If they completed the field experience within their own setting (requires instructor approval), they will upload the *On-the-Job Placement Documentation Form* to Blackboard. This form requires verification from the assistant principal or principal on site.
 - If they attended a field placement other than where they work, they will upload the *Field Experience Documentation Form* to Blackboard. This form requires verification from the mentoring teacher on site.

Field Experience Reflection (15 points). Students will write a four- to five-page reflection based on their field experience. Students will discuss the following:

- Process for selecting developmentally appropriate materials and instructional experiences for culturally and linguistically diverse children in the classroom;
- Accommodations and modifications made to the lesson plans based upon the individual and unique needs of the students in the field placement (e.g., ability, special needs, culture, linguistic, etc.);
- What they learned about developing language and literacy in culturally and linguistically diverse young children through their (a) observations and interactions in the classroom and (b) development and implementation of the reading and writing experience lesson plan; and
- Suggestions to improve language and literacy development in the classroom for culturally and linguistically diverse young children.

Interactive Reading and Writing Experiences Plan (50 points)

Students will plan and conduct an interactive reading and writing experience for culturally and linguistically diverse prekindergarten or kindergarten children in their field experience placement. They will include the following parts in the lesson plan:

- **Phase 1 (5pts):** Plan a read aloud experience by evaluating three potential books to read aloud using the evaluation form described in class. Use the evaluation checklist in Morrow, et al (2016, p.42) to describe each book. Select one book to read to a group of culturally and linguistically diverse prekindergarten or kindergarten children and write a rationale for the selection of this book.
- **Phase 2 (10pts):** Write a read aloud lesson plan using the lesson plan template provided by the instructor (see BB).
- **Phase 3 (10pts):** Plan and describe at least two extension activities that extend the read aloud and respond to the cultural and linguistic diversity of the children, including at least one play-based learning activity and one writing experience. Include how creative thinking and expression was promoted. Describe each extension activity in two to three well-developed paragraphs.
- **Phase 4 (10pts):** Support instructional decisions (i.e., rationale for the book selection, the lesson plan activities, and the extension activities) by citing class readings, handouts, resources, and discussions and including a reference list of the sources formatted in APA style. This should be a three- to five-page well-developed rationale.
- **Phase 5 (5pts):** Design and describe how learning will be assessed. Include any templates

that are designed and describe how they will be utilized during and after the lesson in two to three-well developed paragraphs.

- **Phase 6 (5pts):** Implement the lesson with the selected field experience children who are culturally and linguistically diverse.
- **Phase 7 (5pts):** Provide a two- to three-paragraph reflection on the implementation of the above lesson plan. Note how the lesson was implemented, changes made during the lesson and why, achievement of stated objectives by the students, and suggested revisions to improve the lesson for future implementation. Reflect on working with culturally and linguistically diverse young children.

Students will cite current research from the course textbooks, class discussions and handouts, and/or other relevant peer-reviewed sources to support the information they provide for each Part of the Interactive Reading and Writing Experiences. They will use in-text citations and include a reference list per APA style guidelines.

Dyslexia Module (5 points)

Students will complete the Dyslexia Module/Training required by the VDOE (see link below) and will submit the certificate of completion to Blackboard.

For the Dyslexia Module/Training: Effective July 1, 2017, every person seeking initial licensure or renewal of a license shall complete awareness training, provided by VDOE, on the indicators of dyslexia, as that term is defined by the board pursuant to regulations, and the evidence-based interventions and accommodations for dyslexia.

<http://www.doe.virginia.gov/teaching/licensure/dyslexia-module/story.html>.

- **Other Requirements**

Attendance and Participation (25 points)

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class and online activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students use laptops and personal devices for instructional purposes only.
- Students complete readings and prepare for class activities prior to class as evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class and online learning experiences as evidenced by (a) participating in all activities, (b) engaging in small- and large-group discussions, (c) completing written work related to the activities, and (d) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.
- Students display professional dispositions at all times while interacting with the instructor and other students.
- Students complete participation activities across the semester that complement the scheduled course topic. Instructors will periodically collect artifacts from the activities. Students in

attendance and who actively engage in the learning experience will receive credit for their efforts. Graded participation activities are not announced and are implemented at the discretion of the instructor.

Written Assignments

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Sixth Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library website at <http://infoguides.gmu.edu/content.php?pid=39979>. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.
5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

• **Grading**

A+ = 98 – 100 A = 93 – 97 A- = 90 – 92 B+ = 87 – 89 B = 83 – 86 B- = 80 – 82
C+ = 77 – 79 C = 73 – 76 C- = 70 – 72 D = 60 – 69 F = < 60

Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD undergraduate students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students seeking Virginia initial teaching licensure must earn a B- or better in all licensure coursework.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursesupport.gmu.edu/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>.
