University Catalog Course Description

Develops, implements, and evaluates treatment plans using therapeutic modalities and rehabilitation interventions in the treatment of lower extremity injuries and conditions through an evidence-based approach.

Course Overview

The therapeutic intervention will be taught in the Athletic Training Clinical Simulation Laboratory. The focus of this course is to develop the cognitive and psychomotor competencies necessary for the safe, effective, and evidenced-based application of therapeutic modalities in a physically active patient population.

Course Delivery Method

This course will be delivered using a face-to-face and hybrid approach to integrate technology into instruction as well as intervention methods.

Learner Outcomes or Objectives

The course is designed to enable students to do the following:

1. Review the healing process and incorporate therapeutic interventions suitable to each phase;
2. Develop rehabilitative plans specific to lower extremity injuries;
3. Define short and long-term rehabilitative goals appropriate for specific lower extremity injuries;
4. Select appropriate therapeutic interventions for lower extremity injuries;
5. Explain therapeutic exercises used for specific lower extremity injuries;
6. Identify return-to-sport criteria and testing for each joint injury in the lower extremity;
7. Evaluate abnormal gait patterns.

Professional Standards

The course meets Commission on Accreditation of Athletic Training Education (CAATE) competencies and proficiencies in one or more of the following content areas: evidence-based practice, prevention and health promotion, clinical examination and diagnosis, acute care of injury and illness, therapeutic interventions, psychosocial strategies and referral, healthcare administration, professional development and responsibility.

Required Texts

1. Prentice, W. (2015). *Rehabilitation Techniques: For Sports Medicine and Athletic Training* (6th ed.). Slack Incorporated.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor

This course will be graded on a point system, with a total of 1000 possible points. Students will be evaluated on content standards (knowledge gained) and psychomotor competency performance (demonstration of the skill content). Content standards and psychomotor skills will be assessed via practical skill demonstrations (Competency Evaluations) and a comprehensive practical examination. Class participation will be assessed through completion of daily class activities.

Class Participation – You are expected to communicate, participate, and perform assessments with multiple partners under the direction of clinical instructors. You are expected to be dressed appropriately for each laboratory session.

Competency Laboratory Examinations – You will be expected to perform 1 or more intervention techniques during testing. You will be given an allotted amount of time to perform the necessary and applicable therapeutic interventions. Instructors will provide any necessary materials or equipment for testing. You will be expected to demonstrate your practical knowledge of the clinical techniques reviewed.

Comprehensive Practical Examination – The final examination will be cumulative, and any material covered in class is open for testing.

Attendance

Students are expected to be on time, attend all class meetings, and be prepared for in class assignments and projects. Excused absences include the following: illness (must bring a receipt or note from a doctor), family death, athletic/academic event (contact instructor in advance), and others at the discretion of the instructor. For known upcoming absences, students must contact the instructor at least **one** week in advance to the missed class to make up work. In the case of illness or some other unforeseen absence, the student must contact the instructor via e-mail or telephone the same day of the absence. At the next attended class meeting the student will discuss material that is to be completed with the instructor. *Students will have one week from the excused absence to complete any missed assignments.* It is the student's obligation to pursue any make-up work.

Technology Use During Class

As per GMU policy, all sound emitting technology is required to be turned off during the lecture and laboratory class meeting times. Additionally, no laptop computers or tablets will be permitted for use during class time; the exceptions are for use during presentations/projects, and technology deemed as necessary by the Office of Disability Services. Students utilizing various technology devices during class will be asked to leave class and will not be permitted to complete course work or receive any points for assignments that day.

E-Mail Correspondence

Only messages that originate from a George Mason University address will be accepted; thus your e-mail address must end in gmU.edu. The instructor will not read e-mail messages not originating from a GMU account. Also, when corresponding with any professional at GMU or off campus via e-mail, use the following, appropriate professional format; any e-mail not using this format will be returned to the students for revision before a response will be issued:
