

**College of Education and Human Development
Division of Special Education and disAbility Research**

Summer 2019
EDSE 627 B01: Assessment
CRN: 41343, 3 – Credits

Instructor: Dr. Frederick Brigham	Meeting Dates: 6/3/2019 – 7/27/2019
Phone: 703 993 1667	Meeting Day(s): Tuesday, Thursday
E-Mail: fbrigham@gmu.edu	Meeting Time(s): 4:30 pm – 7:10 pm
Office Hours: by arrangement	Meeting Location: Fairfax, KH 15
Office Location: Finley Hall 202	Other Phone: N/A

****Note:** This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s): None
Co-requisite(s): None

Course Description

Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions. Offered by Graduate School of Education. May not be repeated for credit.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

Advising Tip

Do you need to apply for internship? Students completing special education teacher licensure programs apply ahead of time for internships so supervisors, and sites if needed, can be arranged. Check your program plan or talk with your advisor if you are unsure when you should be applying for internship.

Course Delivery Method

Learning activities include the following:

1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Provide the definition of assessment and the purposes and assumptions regarding assessment of exceptional children.
2. Compare and contrast the terms assessment and testing.
3. Describe relevant ethical standards, litigation, and legislation related to assessment.
4. Describe the characteristics of norm-referenced, criterion-referenced, curriculum-based and informal teacher-made tests, their similarities and differences, and their respective roles in the assessment process.
5. Demonstrate knowledge of basic measurement concepts and evaluate the psychometric properties of individual tests.
6. Create graphic displays of data in appropriate formats including: stem and leaf plot, scatterplot, and line graph using a computer spreadsheet.
7. Calculate descriptive statistics using a computer spreadsheet.
8. Interpret test results, generate appropriate educational goals and objectives based upon these results, and report test results in a professional written format.
9. Select, administer, and score of a variety of educational tests.
10. Use assessment information in making eligibility, program, and placement decisions for individuals with exceptional learning needs, including those from culturally and/or linguistically diverse backgrounds. § Write assessment reports of academic achievement tests.
11. Conduct curriculum-based assessments to guide instructional decision-making. § Explain the benefits and limits of different forms of assessment (e.g., individual, norm-referenced assessment vs. continuous progress measures).
12. Explain the benefits and limits of different forms of data collected for assessment (e.g., standard scores vs. grade equivalents).
13. Score and interpret behavior observation protocols from time sampling, event recording, and interval recording procedures.
14. Describe the procedures and purposes of Response to Intervention (RTI).
15. Critique assessment and instructional accommodations relative to specific learning characteristics.

Professional Standards

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Students with Disabilities who Access the General Curriculum K-12. This program complies with the standards for teacher licensure established by

the Council for Exceptional Children (CEC), the major special education professional organization, as well as those established by the Interstate Teacher Assessment and Support consortium (InTASC). The standards addressed in this class include CEC Standard 4: Assessment (InTASC 6) & CEC Standard 5: Instructional Planning and Strategies (InTASC 7,8).

This course contains at least one Common Assessment developed by the College of Education and Human Development to assess our candidates' performance on nationally accepted standards for beginning teachers (InTASC) and our programs' performance on national accreditation standards (CAEP).

Required Textbooks

Overton, T. (2016). *Assessing learners with special needs: An applied approach* (Eighth ed.). Upper Saddle River, New Jersey: Pearson Education.

Recommended Textbooks

American Psychological Association. (2010). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author.

Required Resources

You will need to have access to GMU email account, GMU Blackboard site, a **computer** with **Adobe Acrobat Reader**, a **word processor** and a **spreadsheet**. You will also need to be able to view videos that are posted on the class Blackboard site. If you can view other forms of video on your device, you should be fine with those. I will post my notes in both Acrobat and PowerPoint formats. Additionally, I will provide instruction for *Microsoft Excel*. Excel is on most computers in schools and the university. Other spreadsheets such as Apple's *Numbers* will work but can be *far* more difficult to use for more advanced computations.

Additional Readings

Additional readings will be posted on the class website.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Tk20 Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

For EDSE 627, the required PBA is Curriculum-Based Measurement Project. Please check to verify your ability to upload items to Tk20 before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment (Tk20 submission required)

N/A.

College Wide Common Assessment (TK20 submission required)

N/A.

Performance-based Common Assignments (No Tk20 submission required)

N/A.

Other Assignments

These things do not go to Tk20, however, they must go to Blackboard.

- Spreadsheet
- CBM proposal
- Standardized test report one (Dava Kaplan)
- Standardized test report two (Charley Horst)
- CBM Project Summary

Course Policies and Expectations

Attendance/Participation

Part of the responsibility that professional educators assume is punctual and active performance of their duties. Such behavior is expected in this class as well as in the performance of the duties of being a professional educator. I take attendance in each meeting to document who is present, on-time, present and late, as well as absent. I do not award points nor do I impose penalties for absence, or tardiness. *However*, you miss class or come late at your own risk.

Much of the work in this class is dependent upon understanding the material from the previous classes. If you miss class, it is important that you read the assigned material and review the PowerPoint slides along with any other assigned materials before our next class meeting. I am available during office hours to assist you with questions but we do not have time, nor do I have the responsibility to teach individual make-up sessions to people who miss class. Further, missing class does not alter the due dates of assignments. Students in this class are all graduate students who are familiar with the expectations of college-level learning. This is probably the most demanding course in the licensure program, simply because there is so much unfamiliar material. Make your decisions about attending class according to this advice. It is, in the end, your career and your responsibility as a professional to choose wisely and accept responsibility for your choices.

Reasons for Absence Some students call or write to me to ask if it is alright to miss class. Please do not do that! The answer to "Is it alright to miss class?" is always no. I have not reserved one class meeting for an incredible burst of irrelevance that has nothing to do with anything related to

to the course! But, while it is not alright to miss class, it is sometimes necessary. All of the people enrolled in this class are professional educators or individuals who aspire to be a professional educator and they are adults. Therefore, if you need to miss class, I ask that you notify me by email so that I won't worry about what happened to you. It is not necessary to tell me why. I believe that asking me to judge the adequacy of your reason is demeaning to both of us. That said, if it becomes necessary for you miss a large portion of the class meetings, we should discuss the number of meetings, the impact of missing them, and devise a plan for dealing with whatever issue is forcing you into that decision.

Late Work

Online Submission of Student Work Required

All student work *must* be submitted through the **Blackboard** class website. Due dates are posted at the end of the syllabus and also on the blackboard site. On time submissions are required to be in the class Blackboard Assignment folder by the beginning of the class session on the due date.

Only submissions through the Blackboard Assignment folder will be accepted. **Assignments sent as email attachments will be deleted without opening them.** Assignments that are not in the Blackboard assignments folder at the appropriate time *are late*.

Ten percent of the available points for the assignment will be deducted for late submissions during the **first week after the due date.** After one week from the due date, assignments will be penalized **an additional 10% of the total available score for each week they are late.** Thus an assignment that is three weeks late is able to obtain only 70% of the points for the assignment regardless of the quality of the work. After three weeks, the assignment will no longer be accepted and a score of zero will be entered into the grade book for that assignment.

The point deduction will be made after the grading is complete. In the case of an assignment that earned 90 out of 100 points, the student grade would be a score of 60 (90-30). The points are deducted for each week at the time that the assignment was originally due.

The date that the assignment was loaded into the Blackboard Assignment folder will be the date of record. Partially completed or inadequate assignments loaded into the Blackboard Assignment folder will be the assignments of record for the student. Do not even think about loading a poor quality assignment on time and then asking to revise it later or trying to get me to allow a different assignment to be loaded because you loaded the wrong version.

Submitting an assignment late does not alter the due dates of the other assignments and prevents timely feedback regarding their work that may be of value in later assignments. Strive to keep up with the assignment schedule so that you will be able to have appropriate formative evaluation and feedback from your instructor across the semester. Some assignments appear in pairs. For paired assignments, your work in the first of the pairs is to serve as a model for the second assignment.

Submission by due date for final and last day of class is required for submissions to be considered for grading at all. Assignments and exams submitted after the due date for the exam will be assigned a grade of zero.

Grading Scale	
Assignment*	Points
1. In-class example and independent homework	40
2. Standardized test: guided report/interpretation (WJ-IV)	50
3. Standardized test: independent report/interpretation (WJ-IV & Behavior)	100
4. CBM proposal & Collaborative Team write-up	30
5. CBM project upload on <i>Assessment</i> slot and on <i>TK20 slot</i>	100
6. Debate Presentation (one pro, one con, & one evaluation)	30
7. Midterm Examination	50
8. Final examination	100
	Total
	500

*See previous discussion of penalties for late work.

Class Grading Scale

100--95% = A 94--90% = A- 89--80% = B 79--75% = C < 75% =F

Extra Credit Options

There are no options for extra credit assignments in this class. There are plenty of ways to earn credit so that you can pass by following the instructions on the required assignments.

File Names for Online Submission

You must include your name *in the file name* when you submit to Blackboard. I will deduct five points from each submission (nonrefundable) if your file downloads without your name in the title. Non-refundable means that even if you send the file early for feedback purposes, you lose the five points for the assignment if it does not contain your name ***in the file name***.

Blackboard will *not* add your name to your submission as is required for this class. It will label it on the server but when it downloads, only the name of the file *as it appears on your computer* will be transmitted. The name must be assigned to the file on your computer before you send it to Blackboard.

The format for the file name is:

<your *LAST name-assignment name*>

If I were submitting homework assignment 1 through the Dropbox, I would call it:

Brigham-Homework 1

Double Check! If the file name on your computer does not look like my example, it will not look like my example in Blackboard or when it downloads to my computer and you will lose points.

***Note:** The George Mason University Honor Code will be strictly enforced. Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual

responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own or with proper citations (see <https://catalog.gmu.edu/policies/honor-code-system/>).

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student’s program – a self-evaluation at the start of their program, an instructor’s evaluation in the middle of their program, and a university supervisor’s evaluation during internship. When dispositions are assessed, it is important that for areas where a positive disposition is ‘occasionally evident’ or ‘rarely evident,’ the student takes steps to grow as an educator. See <https://cehd.gmu.edu/epo/candidate-dispositions>. In special education licensure programs, the mid-point evaluation is completed by instructors in EDSE 628, EDSE 661, and EDSE 616, and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785.

Class Schedule

*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

The full class schedule appears as an appendix at the end of this document.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the

time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).

- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.

Appendix

Assessment Rubric(s)

All rubrics for assignments are posted in the folders containing the assignment directions and needed material on the blackboard site. The assignments can be found under the heading, *Assignments*.

Appendix A
Tentative Course Schedule EDSE 627 647, Summer, 2019

Mtg	Date	Topic	Preparation
1	06/04	Introduction and Course Overview	Moreland 1995 (syllabus)
2	06/06	Legal, professional, and ethical requirements relative to assessment	Brigham, et al. (2017) Text, Chpts 1 & 2
3	06/11	Quantitative Measurement Concepts I Computers in assessment data management I*	Text, Chpt 3 Excel instructions on website.
4	06/13	Computers in assessment data management II* Quantitative Measurement Concepts II	Text, Chpt 4 Daub (1996) Fuchs & Fuchs (1986a)
5	06/18	CBM, RTI, Progress Monitoring	Text, Chpt 6 & 7 Espin (2000) Fuchs & Fuchs (1986b) Homework 1 due
6	06/20	Achievement Tests	Text, Chpts 5 & 8, Skim chpt 13
7	06/25	Achievement Tests Overview of the Woodcock-Johnson IV	In-class activity using tests CBM Proposal Due
8	06/27	Writing Assessment Reports	Test Report One Materials from Blackboard
9	07/02	Midterm On-line, open-book	
	07/04	No class meeting.	-----

10	07/09	Test accommodations	On-line CEC module Test Report 1 Due	
11	07/11	Intelligence and Adaptive Behavior	Text	Chpt 10
12	07/16	Behavior	Text	Chpt 9
13	07/18	Large scale and alternate assessments Classroom testing, grading, etc. Using Tables of Specification to track developing competence.	Thurlow (2001) Conderman (2010) Byrnes (2008)	ToS Activitiy
14	07/23	Using Tables of Specification to track developing competence.	ToS Activitiy	
15	07/25	CBM presentations Final Examination	Test Report 2 , CBM Report & Presentation Due Final^b Due 7/27¹ (6:00 PM)	

^b The final is comprehensive. One cannot answer questions regarding the second half of the class without mastering the material in the first half of the class.

¹ You may complete the final before the due date. The delay in the due date is to allow people to have ample time if they should need it. I could make this an in-class activity, but that focusses on quick retrieval rather than deep understanding, my goal for the class.

Appendix B Listing of On-line Resources

The instructions as well as scoring rubrics for these assignments are posted on the class website under the **ASSIGNMENTS** folder. Please consult the instructions for each assignment and bring them to class the night that we discuss the topics. Also, and this is important, make certain to have the topic and procedure for your CBM project approved before beginning the project.

It is unwise to begin work on Test Report 2 until you receive the feedback from Test Report 2.

CBM Project Requirements

Test Report One

Test Report Two

Appendix C

FORMATIVE AND SUMMATIVE GRADING OF ASSIGNMENTS IN THE COURSE

Two assignments in the course are given formative assessment and can be revised. The number of revision options and submissions that may be accepted appears in the table below. Unless the column for the number of revisions allowed is a value greater than one, the assignment will receive summative evaluation and only be submitted once.

Deadlines for Submission, Revision, and Resubmission

Unless prior arrangements are made with the instructor, only assignments that are submitted according to the schedule recorded in the syllabus may be revised. Late assignments will be scored only once, even if a revision option is provided for the assignment. Also, the last submission will be the recorded grade.

To be considered for a higher score, any revision must be received within two weeks of the date that it was returned to you through Blackboard. Revisions received after the two-week window has expired will be evaluated as time allows. Submissions after the two-week window has expired will *not* be considered for score alteration.

Appendix D
EDSE 627 Class Assignments

Assignment	Topic	Number of Submissions	Due Date
Spreadsheet	Descriptive Stats, Derived Scores	2	6/18
CBM Proposal	Monitoring of Academic Progress	3	6/25
Midterm	Content: Topics from weeks 1-5.	1	6/26
CEC Module	CEC Accommodations Module	∞	7/09
Test Report 1	Use data on the class website with in-class support	1	7/09
Test Report 2	Using data from class website	1	7/25
CBM Project	Monitoring of Academic Progress: Written Report Oral Presentation	1	7/25
Final	Web-based, open book (Individual effort, no collaboration with classmates or others)	1	7/27*

*** You can certainly complete this before the 26th. I just want you to have the time *if* you need it.**
