Division of Special Education and disAbility Research**

Summer 2019

EDSE 544 645: Adapted Instructional Methods and Transition for Secondary Learners

CRN: 42609, 3 – Credits

Instructor: Dr. Katherine Bradley Black	Meeting Dates: 5/21/2019 – 7/23/2019
Phone: 703.244-7742	Meeting Day(s): Tuesday
E-Mail: kblack4@gmu.edu	Meeting Time(s): 4:30 pm – 9 pm
Office Hours: by appointment	Meeting Location: Off Campus
Office Location: off campus	Other Phone: N/A

****Note:** This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s): None

Co-requisite(s): None

Course Description

Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities. Offered by Graduate School of Education. May not be repeated for credit.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress through your program. Mason M.Ed. and Certificate teacher candidates/students should contact the Special Education Advising Office at (703) 993-3670 for assistance. All other teacher candidates/students should refer to their faculty advisor.

Advising Tip

Are you completing a teacher licensure or non-licensure certificate program in addition to a Master's degree? Students can submit a Graduate Secondary Certificate Application (<http://registrar.gmu.edu/wp-content/uploads/GSCA.pdf>) to their advisor when they are ready to add a certificate. Talk to your advisor if you have any questions about the program/s you are completing.

Course Delivery Method

Learning activities include the following:

1. Class lecture and discussion (face to face and online)
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Identify, describe, and design alternate assessments for secondary learners with disabilities to demonstrate learning outcomes and postsecondary interests and aptitudes;
2. Demonstrate an understanding of evidence-based strategies for facilitating transition into the community, workplace, and postsecondary environments;
3. Demonstrate how to implement cognitive strategies in self-regulation, study skills, attention, memory, motivation, and self-determination;
4. Demonstrate knowledge of the federal and Virginia laws, Standards of Learning, and agencies that require and provide for transition, vocational, and rehabilitation services for students with disabilities at the secondary school level (middle & high school);
5. Identify the role and responsibilities of the Individual Education Plan (IEP) teams as they strive to incorporate transition requirements into the IEP and principles of person-centered planning;
6. Identify organizations, services, networks, and the variety of state and local agencies that maximize the interagency effort involved in the transition process for students with disabilities.

Professional Standards

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Special Education: Students with Disabilities who Access the General Curriculum K-12. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization, as well as those established by the Interstate Teacher Assessment and Support consortium (InTASC). The standards addressed in this class include CEC Standard 1: Learner development and individual learning differences (InTASC 1,2); CEC Standard 2: Learning environments (InTASC 3); CEC Standard 3: Curricular content knowledge (InTASC 4,5); CEC Standard 4: Assessment (InTASC 6); CEC Standard 5: Instructional planning and strategies (InTASC 7,8) & CEC Standard 7: Collaboration (InTASC 10).

Evidence-Based Practices

This course will incorporate the evidence-based practices (EBPs) relevant to self-determination, facilitating transitions, alternative assessments, and social skills. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for teacher candidates/students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.

IRIS Center Modules (<https://iris.peabody.vanderbilt.edu/>)

- Evidence-Based Practices (Part 1): Identifying and Selecting Practice or Program
- Evidence-Based Practices (Part 2): Implementing a Practice or Program with Fidelity
- Evidence-Based Practices (Part 3): Evaluating Learner Outcomes with Fidelity

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

Tk20 Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to Tk20 (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course.

A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to Tk20.

For EDSE 544, the required PBA is Transition Plan with Assistive Technology. Please check to verify your ability to upload items to Tk20 before the PBA due date.

Assignments and/or Examinations

Performance-based Assessment (Tk20 submission required)

The purpose of this assessment is to have candidates demonstrate knowledge of the individualized planning process required for the development of a transition plan for secondary students with mild to moderate exceptional learning needs. Candidates will demonstrate understanding of the components of the transition plan. Based upon case information provided, candidates will construct a transition plan that is legally sufficient and educationally appropriate for the described student. Candidates will use curricular resources and evidence-based practices to demonstrate their ability to plan appropriately for the student with mild to moderate exceptional learning needs.

Directions: In this assignment/project, you will demonstrate your ability to develop a Transition Plan for a hypothetical secondary student with a mild to moderate exceptional learning need. You will be presented with **one case study and one Transition Plan document** (both found on Blackboard). Using the information in your selected case study, you will write a transition plan that thoroughly and appropriately addresses the needs of the student in the case scenario and integrates at least one form of assistive technology which increases the student's ability to access the general curriculum and work towards his or her transition goals.

As you write the transition plan, you will:

- Complete a thorough review of the case study facts
- Complete all components of the transition planning forms, using specific instructions provided by the instructor
- *Infuse appropriate augmentative and assistive communication or assistive technology strategies into the transition goals and short-term objectives.*

PART 1: Present Levels of Performance

- **Transition Assessment Information:**

Interests, strengths/capabilities, and career goals (include training, education, employment, and where appropriate independent living)

- Consider the information presented in the vignette as well as any assessment data (formal or informal) and present levels of performance as you develop these statements.

- Consider the impact of the student’s academic and social abilities, attitudes, interests, and values on instruction and career development.

PART 2 & 3: Transition Plan & Rationale

Measurable Postsecondary Goals:

- Write *one measurable postsecondary goal* for each domain: **employment, education/training, and independent living skills**. Base each goal on the information from the vignette and peer-reviewed research. Each goal is a specific statement of what the student wants to achieve after high school written as an “I will” statement. These goals should be based on the student’s interests, preferences, and strengths.
- Select and adapt instructional strategies and materials according to the characteristics of the student with exceptional learning needs and integrate evidence-based practices (from a minimum of **TWO** peer-reviewed journal articles) that have been validated to promote successful transitions for the specific characteristics of the learner and setting.
 - What appropriate augmentative and assistive communication or assistive technology would help the student reach their post-secondary goals?
 - How could that technology be integrated into the instruction in a natural and meaningful way?
- **Ensure that *each* postsecondary goal is based on an age appropriate transition assessment** (functional vocational evaluations, state assessments, or other more informal methods like daily living skills checklists and interest inventories and that you consider the principles of normalization and concept of least restrictive environment when making decisions about post-secondary outcomes.

Short-Term Transition Objectives:

- Write *one* short-term objective or benchmark for each of the following: **employment, education/training, and independent living skills**. Integrate evidence-based practices that have been validated for the specific characteristics of the learner and setting.
- At least **TWO** of your objectives must contain a form of appropriate augmentative/assistive communication or assistive technology as a component.
- You may want to consider the following questions:
 - ✦ What specific models, theories, philosophies, and research methods, which form the basis for special education practice, can be utilized?
 - ✦ What culturally, linguistically, and gender responsive instructional content, resources and strategies can be implemented?
 - ✦ What appropriate augmentative and assistive communication or assistive technology would help the student reach their post-secondary

goals? How could that technology be integrated into the instruction in a natural and meaningful way?

- ✦ What evaluation measures (indicators of progress toward meeting the goal) will be implemented intermittently during the year?
- ✦ What strategies can be used to integrate student initiated learning experiences into the instruction in order to maximize opportunities to increase self-determination?

School and Post-Secondary Services:

- Identify a minimum of **two post-secondary resources** that would be helpful for your student (e.g. Woodrow Wilson Training Center, ARC, Community Services Board).
- Identify a minimum of **one in-school employment preparation option** (e.g. Academies in Fairfax County Public Schools, Monroe Center in Loudoun County Public Schools, Davis Center, Pulley Center, WAT, OAT).

Rationale:

- In addition to identifying goals, objectives, activities, and services, you are required to write a **DETAILED** analysis within the Transition Plan document (i.e., the righthand column labeled “Rationale”) which outlines a comprehensive, longitudinal individualized program for your secondary student, including:
 - A justification for the services selected. Relate the level of support to the needs of the student. Why are these services necessary for the student? Ensure that the rationale takes the continuum of placement and services available for students with exceptional learning needs as well as the legal, judicial and educational systems to assist students with exceptional learning needs into consideration. ○ Do you recommend a job coach? Enclave? Any other special support?
 - A detailed explanation of what skills, experiences, activities, opportunities and connections the student needs in order to reach their post-secondary goals and the “action plan” to reach them.
 - A detailed explanation of resources, techniques, and recommendations for educational, community, vocational, and post-school adult living experiences which should be used to transition the student with exceptional learning needs out of school and into the postsecondary environment. This should include an explanation of the selected forms of appropriate augmentative and assistive communication or assistive technology which would benefit the student and a discussion of how these technology skills can be introduced and taught.
 - Articulate how you would review this document with the learner and how you would help the student understand how things change when they are no longer covered by IDEA.

***NOTE:** All materials for this assignment will be posted on Blackboard for your reference.

College Wide Common Assessment (TK20 submission required)

See assessment #1

Performance-based Common Assignments (No Tk20 submission required)

Visit a transition resource either in the community or within the school system and describe the services available to youth with disabilities. Your write-up should include services, accommodations, population(s) served, description of the agency/office, and your questions for staff. Your “lens” for this visit should be, *“What opportunities exist for youth with mild disabilities through this avenue during and/or after high school?”* Include copies of materials available at the center, agency, or office. You will need to make an appointment.

Acceptable options for this assignment include a school career center, interview with a school or county transition coordinator, One-Stop Center, vocational evaluation site, Virginia Department of Rehabilitation Services office, local Community Services Board, Job Placement/Training program, and other suggestions from your professor.

Your write up **MUST** include a synthesis section that integrates the information from your site visit with professional literature on transition and career education.

NOTE: Please use the template provided on Blackboard to complete your paper. It may be helpful to write-up your questions ahead of time and have them available to submit with your paper. The length of this paper should range between **6-8 pages double-spaced** (not including references and appendices).

Other Assignments

ASSIGNMENT 3: Employability Skills Framework

Review the “Integrating Employability Skills: A Framework for Educators” PowerPoint located on the College and Career Readiness and Success web site

(<http://www.ccrscenter.org/implementation-tools/integrating-employability-skills>). The PowerPoint presentation is designed for a group presentation, so you’ll need to make modifications to the expectations while doing it alone. Make sure you review all the materials specified for each activity in the presentation.

Once you have completed the PowerPoint presentation, post your responses to the prompts below to the class Blackboard Discussion Board.

1. How does what you learned about Employability Skills increase your capacity to address the needs of students with disabilities?
2. To what extent do you experience personnel in your schools working together to highlight or address Employability Skills throughout the curriculum?
3. Having learned the importance of specific Employability Skills, when you think of the students on your caseload, or in your classes, (a) what do you find encouraging and (b) what concerns you?

ASSIGNMENT 4: IRIS Module Journals

Complete the three IRIS Center modules on the topic of Evidence-Based Practices and

Transition Services for students with disabilities.

[\(https://iris.peabody.vanderbilt.edu/\)](https://iris.peabody.vanderbilt.edu/)

- Evidence-Based Practices (Part 1): Identifying and Selecting Practice or Program
- Evidence-Based Practices (Part 2): Implementing a Practice or Program with Fidelity
- Evidence-Based Practices (Part 30: Evaluating Learner Outcomes with Fidelity

Write a paper, no longer than three pages, reflecting on what you learned about Evidence-Based Practices and Transition Services and how what you learned impacts how you think about your teaching practices. Questions to consider may include (not required):

- How does what you learned about Evidence-Based Practices impact your capacity to address transition services for students with disabilities?
- Are you currently implementing Evidence-Based Practices in your current day to day teaching practices?
- What changes can you make to your current practices to implement Evidence-Based Practices?
- What structures are in place in your current school setting to support you implementing Evidence-Based Practices? ○ What structures are in place in your current setting would you consider barriers to implementing Evidence-Based Practices?
- What else do you need to know/learn about Evidence-Based Practices?
- What are your next steps in applying what you have learned in this course to your teaching practices?

Summary of Course Requirements

	Assignment/Expectation	Total Points	Due Date
1	Transition Plan with AT	40	
2	Site Visit	20	
3	Integrating Employability Skills Discussion Board Assignment	20	
4	IRIS module journals	20	
5	Attendance & Participation	20	Throughout
Total Points		120	

Course Policies and Expectations

Attendance/Participation

Attendance/Participation Students are expected to (a) attend all classes during the course, (b) arrive on time, (c) stay for the duration of the class time and (d) complete all assignments. Attendance, timeliness, and professionally relevant, active participation are expected. Attendance and professional participation at all sessions is very important because all of the activities in class are planned in such a way that they cannot necessarily be recreated outside of the class session. More than one absence for any reason will result in the final grade dropping by 5 points.

Late Work

Late Work All assignments must be submitted on or before the assigned due date. In fairness to students who make the effort to submit work on time, 5% of the total assignment points will be deducted each day from your grade for late assignments.

Other Requirements

N/A

Grading Scale

95-100% = A

90-94% = A-

80-89% = B

70-79% = C

< 70% = F

***Note:** The George Mason University Honor Code will be strictly enforced. Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University

community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own or with proper citations (see <https://catalog.gmu.edu/policies/honor-code-system/>).

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least three points in each student’s program – a self-evaluation at the start of their program, an instructor’s evaluation in the middle of their program, and a university supervisor’s evaluation during internship. When dispositions are assessed, it is important that for areas where a positive disposition is ‘occasionally evident’ or ‘rarely evident,’ the student takes steps to grow as an educator. See <https://cehd.gmu.edu/epo/candidate-dispositions>. In special education licensure programs, the mid-point evaluation is completed by instructors in EDSE 628, EDSE 661, and EDSE 616, and the internship evaluation is completed by instructors in EDSE 783, EDSE 784, and EDSE 785.

Class Schedule

*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ods.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <http://coursessupport.gmu.edu/>.
- For information on student support resources on campus, see

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.
