Prerequisites/Corequisites
None

University Catalog Course Description
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses.

Course Delivery Method
This course will be delivered online (76% or more) using format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on Monday, June 4, 2019.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.
Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see: https://help.blackboard.com/Learn/Student/Getting_STARTED/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see: https://help.blackboard.com/Learn/Student/Getting_STARTED/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.

- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
  - Adobe Acrobat Reader: https://get.adobe.com/reader/

Expectations

- **Course Week:** Because asynchronous courses do not have a “fixed” meeting day, our week will start on Tuesday, and finish the following Tuesday. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.

  **Participation:** Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

- **Technical Issues:**
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- **Workload:**
  Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines and due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- **Instructor Support:**
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:**
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:**
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

**Learner Outcomes or Objectives**

This course is designed to enable students to do the following:

1. Develop a personal philosophy and broad awareness of leisure
2. Describe major ideas, institutions, and forces that influence leisure in contemporary society
3. Gain a full, in-depth understanding of the ties between leisure and challenges of the future.
4. Understand the concept of the leisure profession and professional organizations, and the responsibilities of professionals in leisure and human services

**Professional Standards for Council on Accreditation for Parks, Recreation, Tourism and Related Professions (COAPRT)**

Upon completion of this course, students will have met the following professional standards:

7.01: Students graduating from the program shall demonstrate the following entry-level knowledge:
   a) the nature and scope of the relevant park, recreation, tourism or related professions and their associated industries; b) techniques and processes used by professionals and workers in these industries; and c) the foundation of the profession in history, science and philosophy.
Required Texts

Tuesdays with Morrie.  Mitch Albom.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

A.  Activity Participation and Economic Log (40 points):

Each of you will monitor and analyze a week’s worth of your recreation and leisure activities and their expenses. This project must include logging and charting your behavior, as well as documenting a brief analysis of your experience. Prior to the analysis, a chart provided by the instructors must be filled in.

Focus of Paper:

- Amount of time spent and money spent in recreation activities – this will be done in a chart format
- Your thoughts and reactions to your participation in activities and spending
- Connection between your activity involvement and spending to issues and concepts discussed in class or any relevant issues that you have read about or discussed with people outside of class.
- Personal views and opinion

B.  Article Readings (20 points per paper)

You will be asked to read articles relating to the topic for the week. You must submit a paper summary for each assignment (see modules).

Due Date: Weekly

C.  Final (40 points)

The Buried Life In-Class Presentation

Each student participates in a leisure activity that she has never done before. Each student will make a ten-minute presentation (power-point) regarding their experiences. Students will include the following in their presentations:

- Why you chose the leisure activity
• How activity was planned
• What the experience was like
• Relate topics and discussion from class and other class material to experience
• Provide video or pictures from the experiences in your presentation

D. Discussion Board Assignments (160 points) – 20 points per week

Class participation is an important expectation of this course. Students are expected to offer comments, questions, and replies to the discussion question that have been posed for each module as well as to classmate postings. Students are expected to actively participate in each module's discussion each week throughout the semester. The faculty role is as an observer and facilitator. I will be reading all messages and I will participate in the discussion as appropriate. Students may work ahead on the discussion boards but posting on past week's boards will not allow for stimulating discussions with your classmates.

Last revised: May 2019
Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see https://catalog.gmu.edu/policies/honor-code-system/ ).

- Students must follow the university policy for Responsible Use of Computing (see http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see http://ods.gmu.edu/).

- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to http://coursessupport.gmu.edu/.

- For information on student support resources on campus, see https://ctfe.gmu.edu/teaching/student-support-resources-on-campus
For additional information on the College of Education and Human Development, please visit our website [https://cehd.gmu.edu/students/](https://cehd.gmu.edu/students/).

Assessment Rubric(s)

A. Activity Participation and Economic Log
   Assignment Rubric:
   Activity Analysis Reaction Paper (content and reflection) - 15 points
   Activity Analysis Reaction Paper (format/writing style) – 5 points
   Activity Analysis Reaction Paper (utilization of classroom/reading assignments) – 5 points
   Economic Log – 5 points
   Activity Summary Log – 5 points
   Daily Summary Log – 5 points

B. Article Readings
   Assignment Rubric for Each Assignment:
   Reaction Paper (content and reflection) - 15 points
   Reaction Paper (format/writing style) – 5 points

C. Final
   The Buried Life In-Class Presentation
   Assignment Rubric:
   Presentation Content (logic, focus on topic) - 20 points
   Presentation Format /Visual Organization (vocabulary, flow, writing style)- 20 points

D. Discussion Board Assignments
   Assignment Rubric Each Night:
   Quality of Comments/ Relevance of Contribution to topic under discussion - 5 points
   Community Responses (Responds to Peers) – 10 points
   Critical Thinking (rich in content, full of thought, insight, and analysis) – 5 points
