University Catalog Course Description

Emphasizes safety, liability, and risk. Covers current law and liability issues for administrators of RHT facilities and programs.

Course Overview

This course examines the issue of personal injury liability in a variety of contexts related to Recreation, Health, and Tourism, including recreation and parks, sports, events, and physical education administration. Case reports and articles will be used to illustrate general legal principles which determine recreational injury liability in a variety of contexts. Negligence liability will be defined through general legal principles, including reasonableness, foreseeability, and standard of care.

In addition to lifeguard and aquatics liability, this course will examine sport injury liability for coaches, participants, and spectators. The course will also examine the validity and enforceability of waivers and releases in sports and recreation. This overview of program supervision liability in sports and recreation will be complemented by an examination of general legal principles governing landowner liability for grounds and facilities used in sports and recreational activities. In addition to recreation injury liability, this course will also review several civil rights issues which impact significantly upon sport and recreation administration.

Course Delivery Method

This course will be delivered online (76% or more) using asynchronous format via the Blackboard learning management system (LMS) housed in the MyMason portal.

Individual exam questions on each exam are randomly selected by Blackboard from question sets in the PRLS 460 question database. As a result, while testing a student's understanding of a similar principle in each question, no two exams are identical.

All PRLS 460 exams are open book, but you are limited to primary course materials and video lectures posted to the PRLS 460 Blackboard site, as well as your own notes prepared prior to the exam. The use of any other study aids, memoranda, books, data, or other information during PRLS 460 exam is prohibited.

Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

Students are expected to exhibit professional behaviors and dispositions at all times.

Blackboard provides extensive data on each exam to determine any irregularities on individual exams and identify patterns which may indicate collusion among students on PRLS 460 exams that may warrant further investigation pursuant to the Honor Code. Moreover, any irregularities could artificially inflate and skew the scores on individual exams and questions which might produce an adverse effect on the course curve to the detriment of individual students and the class as a whole.

Accordingly, you are reminded that the Honor Code is in effect for all exams in PRLS 460 on Blackboard. Further, to clarify and reiterate, no collaboration or group participation whatsoever is permissible during PRLS 460 examinations.

Further, you are not to discuss the exam with any other student during or after the time which the exam is accessible. Providing or reproducing any information to another student about any questions on a PRLS 460 exam would constitute cheating within the context of the Honor Code, i.e., unauthorized use of study aids, memoranda, books, data, or other information.
