Other reminders:

**Plagiarism Statement:** Plagiarism means using the exact words, opinions, or factual information from another person without giving that person credit. Writers give credit through accepted documentation styles, such as parenthetical citation, footnotes, or endnotes; a simple listing of books and articles is not sufficient. Plagiarism is the equivalent of intellectual robbery and cannot be tolerated in an academic setting (Statement of English Department at George Mason University).

**Plagiarism and the Internet:** Copyright rules also apply to users of the Internet who cite from Internet sources. Information and graphics accessed electronically must also be cited, giving credit to the sources. This material includes but is not limited to e-mail (don’t cite or forward someone else’s e-mail without permission), newsgroup material, information from Web sites, including graphics. Even if you give credit, you must get permission from the original source to put any graphic that you did not create on your web page. Shareware graphics are not free. Freeware clipart is available for you to freely use. If the material does not say "free," assume it is not. Putting someone else’s Internet material on your web page is stealing intellectual property. Making links to a site is, at this time, okay, but getting permission is strongly advised, since many Web sites have their own requirements for linking to their material.

**Academic Integrity & Inclusivity:** This course embodies the perspective that we all have differing perspectives and ideas and we each deserve the opportunity to share our thoughts. Therefore, we will conduct our discussions with respect for those
differences, meaning we each have the freedom to express our ideas, but we should also do so keeping in mind that our colleagues deserve to hear differing thoughts in a respectful manner, i.e. we may disagree without being disagreeable. http://integrity.gmu.edu/

**Other Concerns**: If you have concerns or issues relating to the content or conduct of the class, please talk with me directly. As a matter of policy, I do not respond to anonymous e-mails.

**Grading**

Grading Scale
A+ = 100 percent A
= 95 - 99 percent A-
= 90 - 94 percent B+
= 87 - 89 percent B
B = 83 - 86 percent B-
= 80 - 82 percent C
C = 75 - 79 percent
F = 0 - 74 percent

Consistent with expectations of a master’s level course in the Educational Leadership program, grading is based on student performance on written assignments, as well as on participation in various class activities, not on the effort you put into the assignments. The assignments constructed for this course reflect a mix of skills associated with the application of leadership and organizational theory to educational contexts. Overall, written work will be assessed using the following broad criteria:

- Application of concepts reflected in class discussion and readings;
- Creativity and imagination;
- Organization and writing. A clear, concise, and well-organized paper will earn a better grade. Papers should be prepared using the format specified in the *Publication Manual of the American Psychological Association: Fifth Edition.*

Students’ grades are based on their proficiency with respect to the student outcomes stated above. Below are the basic percentages for the various kinds of work required for the class, but students should always bear in mind that grading is primarily a judgment about your performance. Grades are designed to indicate your success in completing the course, not the level of effort you put into it. The overall weights of the various performances are as follows:
Class participation - 20 points

Participation is evident in three ways:

1) Attendance: Students are expected to actively participate in class discussions, in group activities, and in serving as critical friends to other students. Students are expected to attend every class for its entirety. Emergencies sometimes arise, however. If you need to be absent from class, you are expected to notify me in advance by telephone or e-mail. If you miss more than one class, you will lose participation points. If you come to class more than 30 minutes late or leave more than 30 minutes early, you will lose participation points. If you are absent for an oral activity or presentation, you will not receive credit for that activity.

2) Learning activities and reflection: An important component of any leader’s learning involves balancing action and reflection. As such, we will engage in a variety of learning activities in class, including exercises, debates, oral presentations, and analyses of cases. You will be responsible for leading the discussion of one case from Kowalski.

Written assignments - 80 points

For this class, you will be asked to do a variety of written work. Papers are due as indicated on the class schedule that follows. Descriptions of the assignments follow.
