Admission to the CNDV program; EDCD 601.

University Catalog Course Description

Prepares students to become informed about psychological and educational tests and assessment procedures that are used and applied in a counseling context.

Course Overview

The course will cover basic psychometric properties of tests, methods of gathering and interpreting data, the development and use of assessment tools, resources for learning about tests, and how to choose, administer, and interpret individual and group tests within a culturally appropriate framework.

Course Delivery Method

This course is designed to expose students to a wide range of assessment types and approaches. A variety of reading material and experiential activities will be provided during this course. Students should come to class prepared to actively participate in class discussion and activities. Class activities will include lecture, small group work, role play, computer lab work, library instruction, and videos. Each student will choose a specific assessment tool as a focus for exploration during the semester, and also complete a minimum of three additional assessments provided in class.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Demonstrate an understanding of historical perspectives concerning the nature and meaning of assessment.
2. Demonstrate an understanding of basic concepts of standardized and non-standardized testing and other assessment techniques including norm-referenced and criterion-referenced assessment, environmental assessment, performance assessment, individual and group tests and inventory methods, behavioral observations, and computer-managed and computer-assisted methods.
3. Demonstrate an understanding of statistical concepts, including scales of measurement, measures of central tendency, indices of variability, shapes and types of distributions, and correlations.
4. Demonstrate an understanding of reliability (i.e., theory of measurement error, models of reliability, and the use of reliability information).

5. Demonstrate an understanding of validity (i.e., evidence of validity, types of validity, and the relationship between reliability and validity).
6. Demonstrate an understanding of age, gender, sexual orientation, ethnicity, language, disability, culture, spirituality, and other factors related to the assessment and evaluation of individuals, groups, and specific populations.
7. Demonstrate an understanding of strategies for selecting, administering, and interpreting assessment and evaluation instruments and techniques in counseling.
8. Demonstrate an understanding of general principles and methods of case conceptualization, assessment, and/or diagnoses of mental and emotional status; and ethical and legal considerations.

Professional Standards (CACREP)

This course is a prerequisite for the career counseling class in the C & D Master's Program. In addition, this course adheres to the CACREP (Council for Accreditation of Counseling and Related Educational Programs) standards regarding assessment as follows: CACREP-Section II.K.g: An understanding of individual and group approaches to assessment and evaluation.

Required Texts

Diagnostic and Statistical Manual of Mental Disorders, 5th Edition: DSM-5 5th Edition
by [American Psychiatric Association](#) (Author)

Other Readings will be provided.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy). Late assignments will not be accepted unless prior arrangements are made with the instructor, subject to approval by the instructor. **All assignments must be submitted on Blackboard unless otherwise specified by the instructor**

- **Assignments and/or Examinations**

Self-analysis and Report Writing (30 points): Students will complete a personality assessment (16PF) and a wellness assessment (WEL-5) as a part of the course requirements. Students will be expected to integrate the results of the assessments and develop a comprehensive assessment report. The report should be between 5-6 pages in length, 12 pt. font, double-spaced, and adhere to the *Publication Manual of the APA, 6th Edition*. Further instructions will be given in class.

Adolescent or Adult Intake Assessment (30 points): Students will role play and complete a diagnostic interview with mental status exam. The assessment interview is to be videotaped and the report is to be a **maximum of 6 pages** in length, 12 pt. font, double-spaced, and adhere to the *Publication Manual of the APA, 6th Edition*. Further instructions will be given in class.

Group Presentation of Standardized Assessment (30 pts): Identify a population (i.e., child, adolescent, adult, or geriatric) and an area of assessment that is of interest to you (i.e., achievement, behavior, pathology, education, intelligence, personality, etc.). Using GMU library resources, the *Mental Measurement Yearbook* (2014) and/or The Buros Center for Testing website (<http://www.unl.edu/buros/>), identify possible assessment instruments in that area. Groups will choose one standardized assessment instrument of interest to research, evaluate, and present.

The presentation should include the title, author, publisher, and purpose of the instrument, as well as its strengths and limitations. You are to use the research from scholarly resources (including at least two peer-reviewed articles), test manuals, *Mental Measurement Yearbook*, *Tests in Print*, AARC website (<http://aarc-counseling.org/test-reviews>) and other publications. Further instructions will be available on Blackboard.

- **Other Requirements**

Class participation (10 points): Class participation is both encouraged and expected. Class discussion and exercises will be held on a regular basis and engagement will significantly enhance your learning experience. Please alert the instructor if you will be missing class or significantly late. **Attendance at the first class is mandatory.** Only one unexcused absence is permitted, and excessive missed time may impact your grade. Unless there is an emergency, it is expected that all cell phones will be turned off during class time. Laptops should be used for note-taking or class-related purposes only. Please do not check email, Facebook, etc. during class out of courtesy for your instructor and fellow students. In general, my grading of class participation is determined as follows:

- **10:** Attends all classes, arrives on-time, and actively participates in most classes
- **9:** Attends all classes, arrives on-time, and moderately participates in most classes OR misses one class (unexcused), arrives on-time, and actively participates in most classes
- **8:** Misses one class, arrives on-time, and moderately participates in most classes
- **7:** Misses one class and/or several times late to class and/or low participation in most classes
- **6-below:** Misses one class and/or chronic lateness and/or minimal participation in most classes

- **Grading**

- **Grading Policies**

Grading Scale:

A	=	97-100
A-	=	94- 96
B+	=	91- 93
B	=	87- 90
B-	=	84-86
C	=	80-83
F	=	79 and below

EDCD 604 is a graded course. Included in the assignments is the requirement that the following must be met to receive a passing grade:

- Completion of all assignments of acceptable quality, turned in by date due.
- Attendance at all classes. More than one unexcused absence will result in course failure and lateness to class will affect your participation grade.
- Active classroom participation including discussion of reading materials, providing and

accepting constructive feedback and suggestions for and from classmates and instructor is expected.

Grading also will be based primarily upon the significance, thoroughness, accuracy, relatedness, logic and degree to which points made are effectively supported. Papers receiving the highest numerical grade will be outstanding in each area. Grammar and style will be taken into account when they detract from the presentation or understanding of the professional arguments made. As noted above points/grade will be deducted from assignments that do not follow APA guidelines and/or exceed the page limit.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.
