COURSE DESCRIPTION:  
A. Prerequisite: Admission into the MEd Curriculum and Instruction concentration in Transformative Teaching program; completion of the EDUC 663 Culturally Relevant Pedagogy Course and the EDUC 665 Teacher Inquiry in Practice I Course.  
B. Provides a structured opportunity to transform curricula, design assessments and demonstrate the cumulative knowledge and practices of the entire TT program, with an emphasis on policy applications and sustainability.  

DELIVERY METHOD:  
This course will be delivered online (76% or more) using both synchronous and asynchronous formats via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available by January 18.  

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.  

TECHNICAL REQUIREMENTS:  
To participate in this course, students will need to satisfy the following technical requirements:  
• High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).  
• Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.  
• Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.  
• Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.  
• The following software plug-ins for PCs and Macs, respectively, are available for free download:
EXPECTATIONS:

● **Course Participation:** Active and consistent participation in the course as described in the individual course syllabus is extremely important for online courses. Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions. The completion of all readings assigned for the course is assumed. Online courses will, at a minimum, have weekly requirements for student participation that can be documented by any or all of the following methods:
  ➢ Submission/completion of assignments as specified by the professors
  ➢ Communication with the professors
  ➢ Active, meaningful, and respectful communication with peers

Expect to log in to this course **at least 3 times a week** to read announcements, participate in the discussions, and work on course materials. Students must also regularly check their GMU email for communications from the instructors. Remember, this course is **not** self-paced. There are **specific deadlines and due dates** listed in the **CLASS SCHEDULE** section of this syllabus to which you are expected to adhere. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

● **Written Assignments:** All formal written assignments will be evaluated for content and presentation. (Formal assignments do not include Blackboard discussions, class/course feedback, in-class reflections or journaling) The American Psychological Association, Sixth Edition (APA) style guide should be followed for formal written assignments. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Portions of the APA manual appear at the Style Manuals link on the Mason library web guide at [http://library.gmu.edu/resources/edu/](http://library.gmu.edu/resources/edu/). Students may consult the Writing Center for additional writing support. Students will do the following:
  ➢ Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
  ➢ Develop points coherently, definitively, and thoroughly.
  ➢ Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
  ➢ Use correct capitalization, punctuation, spelling, and grammar.

● **Sessions:** Because our online courses do not have a “fixed” meeting day, our session will generally **start** on Wednesday and **finish** on Tuesday. Synchronous meetings will be arranged as needed.

● **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students are expected to seek assistance if they are struggling with technical components of the course.

● **Technical Issues:** Students should expect that they could experience some technical difficulties at some point in the semester and should, therefore, budget their time accordingly.
● **Mentoring/Advising:** If you would like to schedule a one-on-one meeting to discuss course requirements, content or other course-related issues, and you are unable to come to the Mason campus, we can meet via telephone or web conference. Send an email to your instructors to schedule your one-on-one session and include your preferred meeting method and suggested dates/times.

● **Netiquette:** Our goal is to be collaborative, not combative. Experience shows that even an innocent remark in the online environment can be misconstrued. We suggest that you always re-read your responses carefully before you post them to encourage others from taking them as personal attacks. **Be positive in your approach to others and diplomatic with your words.** We will do the same. Remember, you are not competing with each other but sharing information and learning from one another as well as from the instructors.

**LEARNER OBJECTIVES:**

This course is designed to enable students to:

1. Name, reflect and act on the connections among their research experiences in the TT program, their teaching practice and policy issues.
