George Mason University  
College of Education and Human Development  
Educational Psychology  

EDEP 820 (DL1) Teaching, Learning, and Cognition  
3 credits, Fall 2020  
Tuesday 4:30pm-7:10pm, Online

Faculty  
Name: Michelle M. Buehl, PhD  
Office hours: Mondays 4:00pm-5:00pm; by appointment  
Office location: West Room 2101 (virtual meetings preferred)  
Office phone: (703) 993-9175  
Email address: mbuehl@gmu.edu

Course Description  
Focuses on foundational educational psychology theories including cognitive, social, and constructivist themes and their implications for improving instructional practices and learning at all developmental levels and content areas. Prerequisite(s): EDUC 800 and EDRS 810 or instructor permission.

Course Delivery Method  
This course will be delivered online (76% or more) using a synchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on Tuesday, August 25, 2020.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements  
To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see:  
  https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers  
To get a list of supported operation systems on different devices see:  
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.

- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
  - Adobe Acrobat Reader: https://get.adobe.com/reader/

**Expectations**

- **Course Week:** Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 2 times per week. In addition, students must log-in for all scheduled online synchronous meetings.

- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

- **Technical Issues:** Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- **Workload:** Please be aware that this course is **not** self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- **Instructor Support:** Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:** The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
• **Accommodations:** Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

**Learner Outcomes**
This course is designed to enable students to:
1. compare and contrast theories of learning and cognition
2. formulate practical bridges between research theories and classroom practice
3. integrate and synthesize research findings on teaching and learning
4. develop an awareness of belief systems that impede or enhance the teaching-learning process
5. display knowledge of the relationship between psychological inquiry and educational practices
6. develop an understanding of knowledge construction, learning pedagogy, and responsible professional practice in the contexts of education
7. develop and reinforce their critical thinking, oral, and writing skills
8. understand how students’ cognitive, social, and emotional development affects instruction

**Relationship to Program Goals and Professional Organization**
Upon completion of this course, students will have met the following Educational Psychology Program standards:

**Standard 1: Knowledge of Cognition, Motivation, and Development.** Candidates will demonstrate an understanding of principles and theories of learning, cognition, motivation, and development as they apply to a wide variety of contemporary learning contexts.

**Standard 2: Application of Cognition, Motivation, and Development Knowledge.** Candidates will use their knowledge, skills, and dispositions to apply principles and theories of learning, cognition, motivation, and development to analyze and develop instruction in applied settings.

**Standard 3: Knowledge of Educational Research and Assessment.** Candidates will demonstrate an understanding of the basic concepts, principles, techniques, approaches, and ethical issues involved in educational research.

**Standard 4: Analysis, Critique, and Evaluation of Educational Research.** Candidates will use their knowledge of quantitative and qualitative research methodology to critically read and evaluate quantitative and qualitative research articles.

**Standard 6: Communication and Dissemination of Educational Research.** Candidates will demonstrated critical thinking, oral presentation, technological, and writing skills as they are used in the profession. These include: a. Knowledge and use of APA style, b. Oral presentations, c. Poster presentations, d. Article abstracts, e. Research proposals, f. Literature reviews, and g. Technological skills.

**American Psychological Association Learner Centered Principles:**
- Principle 1: The Nature of Learning Process
- Principle 2: Goals of the Learning Process
- Principle 3: Construction of Knowledge
- Principle 4: Strategic Thinking
- Principle 5: Thinking about Thinking
- Principle 6: Context of Learning
- Principle 7: Motivational and Emotional Influences on Learning
- Principle 8: Intrinsic Motivation to Learn
- Principle 9: Effects of Motivation on Effort
- Principle 10: Self-Regulation in Learning
- Principle 11: Social Influences on Learning
- Principle 13: Learning and Diversity

For more information please see:
Required Texts (available electronically through GMU library)

Additional journal articles and book chapters will be made available electronically through the library E-Reserves system.

Strongly Recommended Text

Optional Text

Course Organization and Assignments
This course is designed to promote an understanding of topics central to educational psychology. Each week students will construct an evolving concept map, write a weekly journal reflection, and engage in a discussion of chapters from the *APA Educational Psychology Handbook*. In addition to reading the material indicated in the course schedule, each student will be responsible for preparation related to one chapter, assigned by the professor. For the assigned chapter students are expected to post two thought questions for others to think about while reading the chapter. Additionally, each student is expected to complete a set of activities commensurate with his or her academic level and career goals.

Course Performance Evaluation
Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard).

- Course Assignments
  
  **Class Participation (10%)**
  Each student is expected to come to class on time and participate in class discussions and activities. Assigned readings are to be completed before class. Attendance, punctuality, preparation, and active contribution to small and large group activities are essential. These elements of behavior reflect the professional attitude implied in the course goals. In the event a student misses a class, the professor should be notified, preferably in advance, and the student is responsible for any assignments and materials passed out or discussed that day. The student is also responsible for posting a substantive reaction to the assigned readings on the relevant Blackboard discussion form (See rubric for participation in Appendix A).
Additionally, each student will be assigned one Handbook chapter. As part of class participation, for the assigned chapter students are expected to post two thought questions for others to think about while reading the chapter. Students are expected to email this information to the professor by Tuesday two weeks before the scheduled date for the topic/reading (and revise if necessary) and to post the information for all students to Blackboard by Tuesday at 4:30pm the week before the scheduled date for the topic/reading.

As a form of participation, students may also post substantive comments or questions to the Blackboard discussion boards. This is not a substitute for class participation. However, it does offer another means for students to interact with each other and the course content.

Weekly Journal (10%)
A weekly journal reflection is designed to help student reflect on the previous class and integrate the reading in preparation for active class discussion, and to give students the opportunity to reflect on their own research and/or applied interests and their identity as a scholar. To this end, I am looking for these journal entries to address reflections from the previous class and to address one or two questions or points in relation to the readings/course content for the upcoming class; they may be theoretical, conceptual, empirical, or measurement-design related, or a suggestion for future research. Students are also encouraged to reflect on their own professional development and scholarly identity.

Weekly journal reflections should be approximately 2 pages (not including citations) in APA format (double spaced, with 1-inch margins, 12 point font). They are due by 8pm the Sunday before class. (This will allow me time to read them and organize them before our class meeting). Students may skip one date of their choice. Weekly journal reflections should be submitted via Blackboard.

Journal reflections should be clearly written, be succinct and make appropriate use of citations. I will score each entry on a scale of 0-2. Late submissions will be read but will receive a score of 0. Students will receive a 0 if nothing is submitted.

Concept Maps (25%)
Throughout the semester, students will construct an evolving concept map of the central concepts, constructs, and theorists from the readings. The map will provide a representation of each student’s developing understanding of educational psychology. Students will be provided with a list of terms that are required to be included in their maps for the first 9 class sessions. Terms will be posted on Blackboard at least one week before the assigned reading. Students may add additional terms as necessary. For subsequent sessions (class sessions 10-14), students are to add to their maps as they see appropriate based on their reading for class and their final paper topics (i.e., at least one term from each session). Students are encouraged to have their maps accessible during class. The concept maps will be evaluated at three points in the semester. At the final submission, students will also submit a brief reflection on their concept map and their current understanding of teaching, learning, and cognition in relation to their research interests and/or teaching practice.

Article Critique (10%)
Each student will prepare a critique of an empirical article assigned in the syllabus (indicated in the schedule with +). The critique should focus primarily on the identified peer-reviewed article but also address how it relates to the assigned readings or other class content. Critiques are due on the day the reading is scheduled and should be posted to Blackboard by noon Tuesday. The last scheduled empirical article is November 10th. Article Critique guidelines and rubric are provided in Appendix B.
**Final Paper and Poster (25% Paper; 10% Poster Presentation; 35% Total)**

Each student will write a literature review that focuses on an educational psychology topic, containing the following sections:

1. Introduction and overview of the topic
2. Discussion of the literature (with appropriate subheadings)
3. Limitations, conclusions, and implications

Final papers will be submitted as a final term paper, and will be presented in a poster session at the end of the semester. Final papers must adhere to the APA Publication Manual Guidelines and will be evaluated using the rubrics presented in Appendix C.

As a means to provide support for each student’s final paper, students are expected to turn in final paper components based on the following tentative timeline:

- Paper format and topic: Sept 25th
- Brief summaries of 5 empirical articles to be included in final paper: Oct 13th
- Initial outline: Oct 30th
- Five pages of final paper: Nov 13th
- Poster contents: Nov 30th (9am)
- Class poster session: Dec 1st
- Final paper: Dec 15th (9am)

**Student-Selected Course Activity (10%)**

Each student is to select an additional activity commensurate with their academic level and career goals. Suggested student selected-activities are listed below. Alternative activities can be suggested and negotiated with the professor. For Research and Foundational Knowledge Competencies, students are encouraged to collaborate with one other student in the class. In this event, both students should submit a brief reflection of the collaborative process as part of the assignment. Students should indicate their student-selected course activity to the instructor by October 6th.

**Research Competencies**

- Write a second article critique

**Foundational Knowledge Competencies** (see rubric in Appendix D)

- Read and present on an original work by a theorist not read before (e.g., James, Piaget)*
- Read and present on an unassigned chapter from the *APA Educational Psychology Handbook* (2012) or the *Handbook of Educational Psychology* (2015)*
- Read and present on a chapter from *Educational Psychology: A Century of Contributions* *

*Students should communicate with the instructor about how to share selected competencies with the class.
### Other Requirements
All students are expected to complete at least one Professional Competency throughout the course of the semester.

#### Professional Competencies
- Prepare your academic vita
- Join a professional organization that you are not currently a member of (post selection on Blackboard with brief discussion of why the organization was selected and how it relates to your professional goals)
- Communicate with a distinguished researcher in your interest area that you do not already know (also not at GMU)*
- Read and present on a book related to academic writing or success in graduate school. *

### Grading
Each student’s final grade for this class will be based on the following:

- A+ = 98 – 100%
- A = 93 – 97.99%
- A- = 90 – 92.99%
- B+ = 88 – 89.99%
- B = 83 – 87.99%
- B- = 80 – 82.99%
- C = 70 – 79.99%
- F < 70%
Professional Dispositions
See https://cehd.gmu.edu/students/policies-procedures/

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: http://cehd.gmu.edu/values/.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see https://catalog.gmu.edu/policies/honor-code-system/).
  - Students must not give or receive unauthorized assistance.
  - Plagiarism is also a violation of the honor code. Please note that:
    - “Plagiarism encompasses the following:
      1. Presenting as one's own the words, the work, or the opinions of someone else without proper acknowledgment.
      2. Borrowing the sequence of ideas, the arrangement of material, or the pattern of thought of someone else without proper acknowledgment.”
      (from Mason Honor Code online at http://mason.gmu.edu/~montecin/plagiarism.htm)
    - Paraphrasing involves taking someone else’s ideas and putting them in your own words. When you paraphrase, you need to cite the source.
    - When material is copied word for word from a source, it is a direct quotation. You must use quotation marks (or block indent the text) and cite the source.
    - Electronic tools (e.g., SafeAssign) may be used to detect plagiarism if necessary.
    - Plagiarism and other forms of academic misconduct are treated seriously and may result in disciplinary actions.

- Students must follow the university policy for Responsible Use of Computing (see https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).

- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.

- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see https://ds.gmu.edu/).

- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.
Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or https://cehd.gmu.edu/aero/tk20. Questions or concerns regarding use of Blackboard should be directed to https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/.

- For information on student support resources on campus, see https://ctfe.gmu.edu/teaching/student-support-resources-on-campus

Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:
As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website https://cehd.gmu.edu/students/.

Additional Class Policies

Paper Format
All papers submitted should adhere to the following guidelines:
- 1 inch margins on all sides, double-spaced, 12-point Times New Roman font (or other font accepted in APA style manual).
- Separate title page including the following: title, name, date, professor, course number.
- Formatted in APA style and proofread for spelling, grammar, and clarity errors.

Late Assignments
Assignments are due as indicated in the syllabus/schedule and are to be posted on Blackboard. Late assignments will be marked down by half a letter grade for each day the assignment is late, unless otherwise indicated in the syllabus (i.e., late journal entries will be read but scored as a 0).

Electronic Device Use in Class
During class time, please refrain from checking email or conducting related activities on the computer, cell phone or other electronic device that are not directly related to the class session.

Class Environment
Help to foster a positive learning environment by respecting the opinions and contributions of others. Also, cell phones should be turned off or put on silent mode so as to not affect the learning of those around you.

Appendix A

Attendance & Participation Rubric (10%)

Student participation is imperative to student learning and a successful class. The following rubric outlines how student participation scores will be determined in this course. All students are expected to demonstrate specific characteristics and actions throughout the semester. The quality and quantity of these actions will determine the points assigned for participation.

Students are expected to:

a. Be punctual, present (in mind and body), and well prepared for class.

b. Participate fully in class activities and assignments – take an active part in small and large group discussions (without dominating the conversations) and pay attention to class lectures.

c. Make insightful comments, which are informed by required readings and demonstrate reflection on those readings. Specifically, students should come to class with questions, comments, and thoughts on the current readings.

d. Treat class activities, group discussions, and class discussions as important components of the course, showing respect for fellow classmates and the course material.

Each of these criteria will be assessed on a 5-point scale.

5 = Student consistently demonstrated the criterion throughout the semester.
4 = Student frequently demonstrated the criterion throughout the semester.
3 = Student intermittently demonstrated the criterion throughout the semester.
2 = Student rarely demonstrated the criterion throughout the semester.
1 = Student did not demonstrate the criterion throughout the semester.

Your participation grade will be calculated as the sum of points for each criterion.

Appendix B

Article Critique Guidelines and Rubric (10%)

Each student is required to prepare one critique of an empirical peer-reviewed article related to their assigned handbook chapter. Critiques are due the day the handbook chapter is scheduled in the syllabus and should be posted on Blackboard.

Content

**Empirical Article**
1. The problem
2. The methodology (e.g., participants, measures, procedures, research design)
3. The findings/results
4. The authors’ conclusion(s) (include implications or applications)
5. Your analysis and critique of the article (e.g., discuss the strengths and weaknesses of the methods, analyses, and conclusions)
6. Your perspective on the implications for research and or practice

Format

The abstract should
- Include a cover page
- Be 3-6 pages (excluding cover and reference page), typed, double-spaced, and in APA format
- Include reference information on a separate sheet (APA format)
### ARTICLE ABSTRACT RUBRIC

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Outstanding (3)</th>
<th>Competent (2)</th>
<th>Minimal (1)</th>
<th>Unsatisfactory (0)</th>
</tr>
</thead>
</table>
| **Summary**
*Summarize important aspects of article*
| Provides a clear and complete summary of the article including all necessary components. | Summary of the article is mostly complete but lacks some components, clarity, or understanding. | Summary of the article is somewhat incomplete and/or unclear with multiple misunderstandings. | Summary of the article is absent. |
| **Analysis**
*Analyze and critique specific aspects of article (e.g., theory, methods, analysis, discussion)* | Gives a complete analysis of the article, relating specific examples to justify critique. | Analysis may be somewhat limited or includes few examples to justify critique. | Analysis is limited and/or lacks examples to justify critique. | Gives no analysis of study and lacks examples to justify critique. |
| **Implications**
*Discuss implications for the article for research or practice*
| Relates article to personal situation and or course content with clear implications for practice and research. | Implications for practice and research are somewhat general, lacking connection, or in need of elaboration. | Implications are general, lack specific connection to practice and/or research, and/or are inappropriate. | Draws no implications for practice or research. |

### APA Style
*Use APA style and formatting*
<table>

Appendix D
Foundational Knowledge Presentation and Discussion
(Possible Student-Selected Competency, 10%)

EDEP 820

If students choose to read an original work, additional handbook chapter, or historic contributions chapter as one of their additional competencies, the content of the reading should be shared with the class. Students are expected to (1) read the selected work, (2) prepare a handout to distribute to the class, and (3) briefly share (i.e., approx 10 minutes) their thoughts on the chapter and its connection to the course. Students are strongly encouraged to collaborate on this assignment.

The handout should be well organized, easy to read, and contain the following information:

- Student’s name,
- Complete bibliographical information for work presented in APA format,
- Summary of relevant ideas and information presented.

With respect to formatting for the handout:

- A cover page is NOT necessary,
- Headings and subheadings are encouraged,
- Bullets may be used,
- Appropriate grammar and spelling should be used.

Recommended chapters from *Educational Psychology: A Century of Contributions*
Edited by Barry J. Zimmerman and Dale H. Schunk

The Founding Period: 1890 to 1920
William James
Alfred Binet
John Dewey
E. L. Thorndike
Lewis M. Terman
Maria Montessori

Educational Psychology in the Modern Era: 1960 to Present
Benjamin S. Bloom
N. L. Gage
Jerome Bruner
Albert Bandura
Ann L. Brown

The Rise to Prominence: 1920 to 1960
Lev Vygotsky
B. F. Skinner
Jean Piaget
Lee J. Cronbach
Robert Mills Gagne

Other potential researchers not included in the text:
Paul Pintrich
Jere Brophy
Michael Pressley

Additional chapters from *APA Educational Psychology Handbook* (2012) not assigned in the syllabus

Volume 1: Theories, Constructs, and Critical Issues
Part II. Theory and Research on Critical Topics: What We Know and Why It Matters
Chapter 7. Metacognition in Education  
Carey Dimmitt and Christine B. McCormick
Chapter 8. Knowledge and Knowing: The Journey From Philosophy and Psychology to Human Learning  
P. Karen Murphy, Patricia A. Alexander, and Krista R. Muis
John Sweller
Chapter 12. Working Memory, Learning, and Academic Achievement  
H. Lee Swanson and Tracy Packiam Alloway

Part III. Emerging Issues and Cutting-Edge Topics
Chapter 16. Resistance and Resiliency in a Color-Conscious Society: Implications for Learning and Teaching  
Margaret Beale Spencer, Davido Dupree, Brian Tinsley, Ebony O.McGee, Jennifer Hall, Suzanne G. Fegley, and Tyhesha Goss Elmore
Chapter 18. Genetics and Education: Toward a Genetically Sensitive Classroom  
Claire M. A. Haworth and Robert Plomin
Chapter 19. How Neuroscience Contributes to Our Understanding of Learning and Development in Typically Developing and Special-Needs Students  
James P. Byrnes

Volume 2: Individual Differences and Cultural and Contextual Factors
Part I. Individual Differences
Chapter 1. Academic Emotions  
Reinhard Pekrun and Elizabeth J. Stephens
Chapter 3. Learning Styles and Approaches to Learning  
Adrian Furnham
Chapter 4. Gifted and Talented Education: History, Issues, and Recommendations  
Donna Y. Ford
Chapter 6. Gender, Motivation, and Educational Attainment  
Judith L. Meece and Karyl J. S. Askew

Part II. Instructional Influences on Motivation, Engagement, Conceptual Change, and Moral Development
Chapter 10. Moral and Character Education  
Marvin W. Berkowitz
Additional chapters from *Handbook of Educational Psychology, 3rd Edition* (2015) not assigned in the syllabus

**Part I. Psychological Inquiry in Education**
Chapter 1. Philosophical Perspectives on Mind, Nature, and Educational Psychology  
*Eric Bredo*
Chapter 4. The Prospects and Limitations of Latent Variable Models in Educational Psychology  
*Benjamin Nagengast and Ulrich Trautwein*

**Part II. Functional Processes for Learning**
Chapter 5. Learning as Coordination: Cognitive Psychology and Education  
*Daniel L. Schwartz and Robert Goldstone*
Chapter 6. Emotions and Emotion Regulation in Academic Settings  
*Monique Boekaerts and Reinhard Pekrun*
Chapter 7. Motivation  
*Lisa Linnenbrink-Garcia and Erika A. Patall*
Chapter 8. Volition  
*Gabriele Oettingen, Jana Schrage, and Peter M. Gollwitzer*

**Part III. Learner Readiness and Development**
Chapter 9. Human Cognitive Abilities: Their Organization, Development, and Use  
*Patrick C. Kyllonen*
Chapter 10. Cognition and Cognitive Disabilities  
*H. Lee Swanson*
Chapter 11. Personal Capability Beliefs  
*Ellen L. Usher*
Chapter 13. Beyond the Shadow: The Role of Personality and Temperament in Learning  
*Arthur E. Poropat*
*Na’Ilah Suad Nasir, Stephanie J. Rowley, and William Perez*
Chapter 15. Language Development  
*Alison L. Bailey, Anna Osipova, and Kimberly Reynolds Kelly*
Chapter 16. Character Education, Moral Education, and Moral-Character Education  
*Cary J. Roseth*

**Part IV. Building Knowledge and Subject Matter Expertise**
Chapter 17. Literacy for Schooling: Two-Tiered Scaffolding for Learning and Teaching  
*Ian A. G. Wilkinson and Janet S. Gaffney*
Chapter 18. Warm Change about Hot Topics: The Role of Motivation and Emotion in Attitude and Conceptual Change about Controversial Science Topics  
*Gale M. Sinatra and Viviane Seyranian*
Chapter 19. Toward an Educational Psychology of Mathematics Education  
*Jon R. Star and Bethany Rittle-Johnson*
Chapter 20. Functional Scientific Literacy: Seeing the Science within the Words and Across the Web  
*Iris Tabak*
Chapter 21. Studying Historical Understanding  
*Chauncey Monte-Sano and Abby Reisman*
Chapter 22. Civic Education  
*Mario Carretero, Helen Haste, and Angela Bermudez*

**Part V. The Learning and Task Environment**
Chapter 23. Sociocultural Perspectives on Literacy and Learning  
*David O’Brien and Theresa Rogers*
Chapter 24. Learning Environments In and Out of School  
*Brigid Barron and Philip Bell*
Chapter 25. Networked Learning  
*Gary Natriello*
Chapter 26. Collaborative Learning  
*Cindy E. Hmelo-Silver and Clark A. Chinn*
Chapter 27. Black and Hispanic Students: Cultural Differences within the Context of Education  
*Donna Y. Ford*
Chapter 28. Dialogic Instruction: A New Frontier  
*Sherice N. Clarke, Lauren B. Resnick, and Carolyn Penstein Rosé*
Chapter 30. Being a Teacher: Efficacy, Emotions, and Interpersonal Relationships in the Classroom  
*Lynley H. Anderman and Robert M. Klassen*

Students are *encouraged* to identify and suggest other sources and assignments for Research and Foundational Knowledge Competencies. For Research and Foundational Knowledge Competencies, students are also *encouraged* to collaborate with *one* other student in the class. In this event, both students should submit a brief reflection of the collaborative process as part of the assignment.
