College of Education and Human Development
Early Childhood Education for Diverse Learners

ECED 504.600 Engaging Families of Diverse Young Learners
3 Credits, Summer 2020
05/18/2020 – 08/08/2020, Fully Online

Faculty

Name: Robert Gundling, EdD
Office Hours: By Appointment
Office Location: Thompson Hall 1200, Fairfax Campus
Office Phone: 703-993-3844
Email Address: rgundlin@gmu.edu

Prerequisites/Corequisites

None

University Catalog Course Description

Focuses on strategies for developing culturally appropriate family professional partnerships to benefit children, including children from diverse cultural and linguistic backgrounds and children with special needs. Explores theories and research supporting a family-centered approach, including family and professional rights and responsibilities, especially in the special education process.

Course Delivery Method

This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on May 18, 2020.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers
To get a list of supported operation systems on different devices see

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday, and finish on Sunday. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 4 times per week.
- Participation: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content, or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider

them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Discuss theories and research supporting family engagement and a family-centered approach to the education of diverse young children.
2. Discuss the role of cultural and familial contexts in attitudes, beliefs, values, and child rearing practices.
3. Analyze personal values, beliefs, and cultural biases that influence their work with families.
4. Identify underlying standards of professionalism and ethical standards, principles, and ways to work with families, including examining methods of improving communication between schools and families, especially regarding social and instructional needs of children.
5. Describe strategies that support and assist families to identify their priorities, resources, and concerns for their children, including children with special needs.
6. Create tailored opportunities for collaborating with families in the ongoing education of children, especially in terms of increasing family engagement in student learning at home and in school, particularly among families from diverse racial, ethnic, cultural, religious, linguistic, and socioeconomic backgrounds and with children with special needs, including children who are gifted.
7. Identify how families experience substance abuse, trauma—including child abuse and neglect—and other adverse childhood experiences, and family disruptions.
8. Utilize family systems theory to describe and understand family dynamics.
9. Identify specific components of IDEA that support family voices in the special education process.
10. Adopt a strengths-based, problem-solving perspective when analyzing dilemmas related to family engagement.
11. Discuss the theories and techniques of family-centered intervention, including issues related to families from diverse racial, ethnic cultural, religious, linguistic, and socioeconomic backgrounds and multicultural education.
12. Reflect critically about what is being discussed and learned in class, form and state an opinion, and provide coherent points to support or illustrate their perspective.
13. Complete study in child abuse and neglect recognition and intervention in accordance with curriculum guidelines developed by the Virginia Board of Education in consultation with the Virginia Department of Social Services.
14. Exhibit standards of professionalism, ethical standards, and personal integrity with children, families, and professionals in the field and in interactions with classmates, the instructor, and others.
15. Use writing as an instructional and assessment tool to generate, gather, plan, organize, and to communicate for a variety of purposes; integrate correct written conventions (i.e., grammar, usage, mechanics, and spelling); and format using current APA style.

Professional Standards – Virginia Professional Studies Competencies, Virginia Early Childhood Special Education Endorsement Competencies, Virginia Early/Primary Education PreK-3 EPK3 Endorsement Competencies, Interstate Teacher Assessment and Support Consortium (InTASC) Standards, Council of Exceptional Children (CEC) and Division of Early Childhood (DEC) Standards, and National Association for the Education of Young Children (NAEYC) Standards

Upon completion of this course, students will have met the following professional standards:

Virginia Professional Studies Competencies

Human Growth and Development (Birth Through Adolescence)

Curriculum and Instruction

Virginia Early Childhood Special Education Endorsement Competencies

Family-Centered Intervention

Interstate Teacher Assessment and Support Consortium (InTASC) Standard Elements

InTASC 1k The teacher values the input and contributions of families, colleagues, and other professionals in understanding and supporting each learner's development.

InTASC 2m The teacher respects learners as individuals with differing personal and family backgrounds and various skills, abilities, perspectives, talents, and interests.

National Association for the Education of Young Children (NAEYC) Standard Elements

NAEYC 2a Knowing about and understanding diverse family and community characteristics

NAEYC 2b Supporting and engaging families and community through respectful, reciprocal relationships

Required Texts

American Psychological Association. (2020). *Publication manual of the American Psychological Association* (7th ed.). Washington, DC: Author. ISBN: 9781433832178

Grant, K. B., & Ray, J. A. (2019). *Home, school, and community collaboration: Culturally responsive family engagement* (4th ed.). Washington, DC: Sage. ISBN: 9781506365732

Koralek, D. (2007). *Spotlight on young children and families*. Washington D.C.: National Association for the Education of Young Children. ISBN: 9781928896425

Additional course readings listed on the class schedule are posted in Blackboard.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard (Bb), Tk20, hard copy).

Assignments	Due Dates	Points
Attendance & Participation <ul style="list-style-type: none"> • Weekly Discussion Board Posts & Critical Reflections • Attendance & Participation Self-Evaluation • Professional Dispositions Self-Evaluation 	Ongoing	35

Family Story Presentation (in class)		5
Statement of Philosophy (Draft to Peer)		
Statement of Philosophy (Final)		15
TOTAL		100

CONTENT MODULES – 6 MODULES TOTAL

This course will utilize 6 content modules (1,2,3a,3b,4,5). Following a traditional classroom model, each module contains several “in class” lectures, discussions, and activities that are based on your readings and also include information gleaned from other sources. Specifically, all the relevant course material will be available in course readings, lessons and workshops. Course readings should be done at the start of each module before completing any lessons or workshops. Course readings for each week are noted on the course calendar in the syllabus and are available within each module. Lessons within each module will provide students with additional information in the format of notes, videos, and powerpoints. These should be reviewed before beginning the related workshops. Workshops within each module contain the activities to be completed for each module. These activities and their due dates are noted on the syllabus. It is critical for students to review all content on each module in a timely manner.

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

- **Assignments and/or Examinations**

Attendance and Participation (Weekly Discussion Board Post & Critical Reflection Activities) (35 points) (5 points for Module 0 introduction + 5 points per module)

Students will critically reflect in the course discussion board for each module on the course material. Their post is due by 11:59PM on the due date. Students are asked to participate in these “class discussions” by addressing the initial prompt and responding to classmates’ posts. Students will be graded based on their level of participation with critical thought in these discussions. Students will ensure that they create a thread (**thread should be named with the student’s name**) and provide comments on at least three classmates’ posts in order to receive full points. Comments on peers’ posts are due two days after due date of original post by 11:59PM.

Evaluation of Weekly Discussion & Critical Reflection Activities: To build a rich learning community through group discussions, the following areas will be assessed for EACH module discussion board post: **1) promptness and initiative (1 point); 2) quality of individual work in terms of relevance and contribution to the learning community (2.5 points); and 3) quality of critical reflection on peers’ posts (1.5 point). Initial discussion board post must be a minimum of 300 words** in length, be thoughtful and relevant, and include original and/or critical thought.

Students might consider the following in their initial posts:

- How is your perspective regarding families and working with families is shifting and changing?
- What assumptions or biases (that you hold) are emerging?
- How are you thinking in new ways regarding working with families from diverse backgrounds? How will you use the knowledge and experiences you are gaining in this course as you work in a classroom with young diverse learners and their families?
- How do the readings relate to your own family experiences and/or the experiences of the families you work with each day?

Keep these same expectations in mind for critically reflecting on other students’ posts.

Comments on other students’ posts should be at least 100 words. Comments on others’ posts must be posted within 2 days of the due date of the original post.

Spotlight on Young Children and Families Discussion (10 points)

Small groups of students will be responsible for leading a discussion about an assigned chapter from the *Spotlight on Young Children and Families* text. Students are expected to lead a discussion (students may NOT use PowerPoint and should not just summarize the reading) and include strategies for how to integrate the content into an ECSE classroom as part of the discussion. These strategies should demonstrate at least three of the following: ways to improve communication between schools and families; instructional practices that are sensitive to culturally and linguistically diverse learners and informed by families; ways of communicating with families regarding the social and instructional needs of children; ways of increasing family engagement in student learning in home and school. *A sign-up sheet will be provided on the first night of class.*

Engaging Families Home Visit Project (done virtually due to COVID-19) (30 points)

Students will focus on developing culturally appropriate family professional engagement to benefit children, including children from diverse cultural and linguistic backgrounds and children with special needs, including children who are gifted and talented and children with disabilities. Students will support and engage families through respectful, reciprocal relationships by conducting a home visit, including an interview with at least one of the primary caregivers, **and a family observation during a family event with a family of a child (birth – third grade) whose family is marginalized by U.S. society based on the following: race, ethnicity, immigrant status, family structure, socioeconomic status, sexuality, child or parent’s ability status or religion and whose perspective on early childhood education and parenting is likely to be different from their own.** Students will apply their knowledge and understanding of diverse family characteristics through their observations and interaction with the family during the home visit. Throughout the assignment, students will critically consider for their home visit families: methods of improving communication with their home visit families’ schools; ways of increasing family engagement in student learning in home and school; how schools might improve communication with families regarding social and instructional needs of children; and how they consider their developing instructional practices to be sensitive culturally and linguistically diverse learners, particularly as a result of this project.

Part 1: Diverse Family & Community Characteristics Memo 1 (10 points): Memo 1 should include the following four sections.

1. **Rationale for Selecting Family:** Students will describe the family they selected and will include responses to the following: (a) a rationale for why they chose this family, (b) an explanation of the ways they think the families’ experiences are different from their own, (c) what they have observed about how society views the child and family (either based on race, ethnicity, family structure, sexual orientation, religion, etc.), and (d) an honest attempt to identify and describe any assumptions they have about this family.
2. **Introducing themselves:** Students will find a way to determine and communicate the common ground between themselves and the family they selected (e.g., gender, work, education, experiences, etc.) as these help with initial introductions. They will describe the introduction and the process they will use to introduce themselves to the family.
3. **Questions to assist in learning about the child:** Students will develop a set of questions that they will use to help them learn more about the child in terms of the child’s likes, dislikes, interests, and experiences.
4. **Questions to assist in learning about the parents and family:** Students will develop a set of questions to ask during the home visit to begin to understand the parents’ goals for themselves as well as their children, including goals that reflect the linguistic and ability diversity of the child. They will use the following questions to guide them: How did this family come to be in this place where you have met them? What do you need to understand about their experiences in order to understand them? What is their perspective about their child or children, including the child’s or children’s linguistic and/or ability diversity? These questions should also help students begin to learn more about the family’s everyday

experiences as well as prior experiences that might be insightful as they begin to work with them.

- **Memo 1: Students will write a 3- to 4-page memo that addresses the above four points.**

Part 2: Understanding, Supporting and Engaging Families Memo 2 (20 points): Memo 2 should include critical reflections on the following events (*see below for key components of this memo).

1. **Meeting (virtually) with the Family:** Students will informally interview the parents or guardians. In this interview, students should attempt to learn as much as possible through *meaningful* exchanges. Students should challenge themselves to understand the family's views of struggles they may have, how they make sense of the world, and how the parents' and families' realities of the world are different from their own. They should also challenge themselves to learn more about the family's perspectives on the child's diversity, including linguistic and ability diversity.

Students will consider the amount of time they have and the ease with which they will be able to engage persons of another culture. First, students will arrange to spend time with the family member(s) via Zoom, WebEx, or another video conferencing tool. The focus should be to engage respectfully with the family member on his or her own terms and turf (if possible), rather than conducting a formal interview. Students will meet with the parent in a relaxed framework.

Students will challenge themselves to hear the voices/values of others on their own terms. This will be difficult and may be uncomfortable. Students must consider how they can get to know other people and their culture on their own terms. It is recommended that students "ask, ask, ask." They should ask the family for clarification or meaning when something is confusing or feels very different to them. Students should reflect on their own culture, experiences, and stories as they learn about their family's stories. At the end of this informal meeting, students will ask the family if they might be able to join them at a family event (e.g., birthday party, family gathering).

2. **Observation (virtual) at a Family Event:** Students will virtually conduct an observation of the child at a family event (e.g., birthday party, family gathering, family dinner, etc.). It can be a routine event or a special event. They must spend at least an hour with the family. During this event, students will engage the family in an informal conversation to find out about the meanings of their actions, describing and making meaning of their learning experience with the family.

- **Memo 2: Students will write a 4- to 5-page memo describing what they learned during the informal interview with the family and at the family event.**

In relation to the informal interview, students will contrast the family's experiences with their own family experiences and critically examine their previous assumptions given new information and experiences. Students should consider and note the questions that elicited important information. In relation to the child observation at a formal event, students will describe what they saw/heard, the key activities that took place, and what these taught them

about the family. **Students should be sure to spend more time critically reflecting and thinking about these experiences rather than simply summarizing everything that happened. In relation to both the informal interview and observation, students should be sure to include the following: (a) what they learned about the family in these interactions (i.e., use a strengths-based perspective), (b) what they learned about themselves through coming to know this family (i.e., revisit previous assumptions), (c) what this experience might mean for the student as an educator particularly in terms of engaging diverse families through communication and instructional practices that are sensitive to culturally and linguistically diverse children and their families.**

Family Story Presentation (5 points)

Students will present what they have learned from their family visits as a story. Each student presentation will be a total of 8 minutes, with 5 to 6 minutes for the presentation of the family story and two to three minutes for peer/instructor questions and discussion. The presentation should not sound like a clinical case presentation. Students should be creative with their story presentation and consider how they would like their own story to be told from a strengths-based, problem-solving perspective. Students should include the following in their presentation: (a) their home visit family's story; (b) suggestions for improving communication and increasing this family's engagement with their child's school; and, (c) one way they would incorporate the family's culture and/or language into their instructional practices.

Statement of Philosophy for Working with Families and Communities (15 points)

Students will use their experiences with the children and families in their setting, any community connections they have made, as well as course content including readings and discussion to create a two- to four-page, double-spaced statement of their philosophy for working with families and communities. This will include not only why they believe it is important to engage with families and communities as a teacher/ practitioner but also the ways they believe are most effective for doing this. Specifically, students will include the following: developing family engagement in student learning in home and school; strategies for communicating with families, particularly regarding their children's social and instructional needs; and one way they would incorporate the family's culture and/or language into their instructional practices. Students will include academic, both research- and theory-based, literature as well as concrete examples from the readings. It is expected that experiential, empirical, and theoretical (research- and theory-based from course readings) knowledge will be used in this paper. All course readings should be cited appropriately according to APA format.

Child Abuse and Neglect Recognition and Training Module (5 points)

Students will complete an online module focused on child abuse recognition and intervention in accordance with curriculum guidelines developed by the Virginia Board of Education in consultation with the Virginia Department of Social Services.

- **Other Requirements**

Because active participation and engagement are imperative for optimal learning, preparation for and participation in in-class and online activities will be evaluated based on the following criteria:

- Students attend class, arrive on time, and stay for the entire class period.
- Students use laptops and personal devices for instructional purposes only.
- Students complete readings and prepare for class activities prior to class as evidenced by their ability to discuss and write about the concepts presented and examined in the texts as well as participate fully in related activities.
- Students are actively involved in in-class and online learning experiences as evidenced by (a) participating in all activities, (b) engaging in small- and large-group discussions, (c) completing written work related to the activities, and (d) supporting the participation and learning of classmates.
- Students show evidence of critical reflective thinking through in-class and online discussions, activities, and written reflections.
- Students display professional dispositions at all times while interacting with the instructor and other students.
- Students complete participation activities across the semester that complement the scheduled course topic. Instructors will periodically collect artifacts from the activities. Students in attendance and who actively engage in the learning experience will receive credit for their efforts. Graded participation activities are not announced and are implemented at the discretion of the instructor.
- Students submit attendance and participation self-evaluation.

Written Assignments

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Seventh Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.
5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

- **Grading**

A = 95-100 A- = 90-94 B+ = 87-89 B = 80-86 C = 70-79 F = < 70

Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students seeking Virginia initial teaching licensure must earn a B- or better in all graduate licensure coursework.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>.

Class Schedule

Date	Topics	Readings	Assignments [Discussion Board Post & Critical Reflection; Major Assignments/ Projects]
Module 0: Introductions to Course, Instructor, and Students			
May 11- May 18	Introduction to Course, Instructor, and Peers	Review Instructor Introduction Video Review and Respond to Student Introductions Review Syllabus and Course Requirements	Student Introduction (due 5/18)
Module 1: Intro to Families and Family Engagement			
May 18- May 24 (Week 1)	Intro to Families & Family Engagement Standards of Professionalism and Ethical Standards in Working with Families Defining Family Intro to Theories and Research for Understanding the Role of Families in Children's Development Using a Strengths-Based, Problem-Solving Approach	Grant & Ray, Chapter 2 Stewart (2007) <i>Who is Kin</i> Dreby & Adkins (2012) <i>The Strength of Family Ties: How US Migration Shapes Children's Ideas of Family</i> Wheatley <i>Willing to be Disturbed</i> View: <i>The Danger of a Single Story</i> (posted in Bb)	Telling My Family Story (due: 5/24) Send email to instructor regarding family for home visit project (due: 5/24)

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ds.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>.

Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking: As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.
