✦ Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s):  
None

Co-requisite(s):  
None

Course Description  
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculum. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies; cognitive strategies in study skills; attention and memory; and peer-mediated instruction. Note: Field experience required.

Advising Contact Information  
Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All
other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

**Advising Tip**
Did you know there are scholarship opportunities for graduate students in CEHD? For more information, visit https://cehd.gmu.edu/students/funding/scholarships.

**Course Delivery Method**
Learning activities include the following:
1. Class lecture and discussion (synchronous online)
2. Application activities
3. Video and other media supports
4. Research and presentation activities
5. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using synchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on September 17 at 4:30 pm.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

**Technical Requirements**
To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see: Browser support (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

To get a list of supported operation systems on different devices see: Tested devices and operating systems (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
• The following software plug-ins for PCs and Macs, respectively, are available for free download:
  o Adobe Acrobat Reader (https://get.adobe.com/reader/)
  o Apple Quick Time Player (www.apple.com/quicktime/download/)

Expectations

• Course Week:
  Our course week will begin on the day that our synchronous meetings take place (Thursday) as indicated on the Schedule of Classes.

• Log-in Frequency:
  Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 1 time per week. In addition, students must log-in for all scheduled online synchronous meetings.

• Participation:
  Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:
  Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

• Technical Issues:
  Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

• Workload:
  Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

• Instructor Support:
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

• Netiquette:
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. Be positive in your approach with others and
diplomatic in selecting your words. Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

**Learner Outcomes**

Upon completion of this course, teacher candidates/students will be able to:

1. Describe elementary level intervention research and the associated issues in intervention research as applied to individuals with mild disabilities.
2. Identify and describe elementary level evidence-based curriculum and strategies for teaching reading, language arts, math, science, social studies, and social skills for individuals with mild disabilities.
3. Identify and describe elementary level evidence-based cognitive strategies in self-regulation and metacognition, study skills, attention, memory, and motivation for individuals with mild disabilities.
4. Identify and describe elementary level evidence-based strategies for peer mediation, including peer tutoring and cooperative learning, for individuals with mild disabilities.
5. Develop and plan curriculum instruction inclusive of effective evidence-based strategies that correspond with the Virginia Standards of Learning.
6. Implement an evidence-based strategy in one of the following areas: reading, language arts, math, science, social studies, mediation, peer tutoring, or cooperative learning.

**Professional Standards**

(Council for Exceptional Children (CEC), Interstate Teacher Assessment and Support Consortium (InTASC). Upon completion of this course, students will have met the following professional standards: CEC Standard 2: Learning environments (InTASC 3) & CEC Standard 5: Instructional planning and strategies (InTASC 7,8).

This course contains at least one Common Assessment developed by the College of Education and Human Development to assess our candidates' performance on nationally accepted standards for beginning teachers (InTASC) and our programs' performance on national accreditation standards (CAEP).

**Evidence-Based Practices**

This course will incorporate the evidence-based practices (EBPs) relevant to elementary curriculum learning strategies, constructing effective lessons, designing instructional procedures. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for teacher candidates/students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.
Required Texts

Recommended Texts

Additional Readings
Peer-Reviewed Journal Readings
You will be accessing peer-reviewed journal articles as part of the Strategy Instruction Assignment. These articles will vary depending on individual student interests and assignment ideas.

Online Reading
Throughout the semester, we will be using several websites to support and enhance the information we are gaining from the course text. It is a good idea to save these sites as “Favorites” for your use in this class, as well as professional reference. Some of the sites (among others) we will use are:

- http://www.pen.k12.va.us/VDOE/Superintendent/Sols/home.shtml Virginia SOL website
- http://reading.uoregon.edu/big_ideas/index.php “Five Big Areas of Reading”
- http://www.teachingld.org/ld_resources/alerts/default.htm#mnemonic Discusses Mnemonic Instruction

Course Performance Evaluation
Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

VIA Performance-Based Assessment Submission Requirement
It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA.
For EDSE 628, the required PBA is (NO ASSESSMENT REQUIRED FOR THIS COURSE). Please check to verify your ability to upload items to VIA before the PBA due date.

**Assignments and/or Examinations**

**Performance-based Assessment**
(VIA submission required)

NA

**College Wide Common Assessment**
(VIA submission required)
NA

**Performance-based Common Assignments**
(No VIA submission required)

**Strategy Instruction Assignment – due 11-19-2020**
The Strategy Instruction Assignment (SIA) is the Common Assignment for EDSE 628 across all sections of the course. The project is started, conducted, and completed during the current semester. The EDSE 628 candidate designs and implements instruction, collects data, analyzes results, and makes recommendations for further instruction. The project is presented in a paper (parameters set by the professor).

_Due to COVID-19 restrictions, alternatives to this assignment will be presented the first night of class and described in the directions folder._

The focus of the project is teaching a student with mild disabilities who accesses the general education curriculum how to use a strategy for academic learning. The goal is for the student to use the strategy independently, though this might not be achieved during the course of the semester. The chosen strategy must be a research-validated approach or evidence-based practice for mastering knowledge or skills in elementary level reading, language arts (including oral language expression, writing, and spelling), mathematics, science, or social studies. This may include strategies for vocabulary development or memory or metacognition as specifically applied to mastering content in reading, language arts, mathematics, science, or social studies. In all cases, the strategy must be one appropriate for use with students working at the elementary level, even though the student subject may be a secondary student.

*Specific instructions and the rubric will be given in the directions folder that will be uploaded to Blackboard on the first night of class.*

**Field Experience Requirement**
A field experience is a part of this course. A field experience includes a variety of early and ongoing field-based opportunities in which candidates may observe,
assist, and/or tutor. Field experiences may occur in off-campus settings, such as schools (CAEP, 2016).

Students must be able to perform the essential functions of the practicum site assigned with or without an accommodation. Contact Disability Services (ods@gmu.edu) for questions related to accommodations.

*Please note that due to barriers with accessing field experience placements in Fall 2020 as a result of COVID-19, there will be changes to the field experience process in this course. Students will be notified well in advance with changes and provided with alternative options. Check your Mason email regularly for important information regarding your field experience.

**Other Assignments**

**Weekly Class Activities – due weekly**
Each student will complete weekly class activities demonstrating an understanding and knowledge of the key topics for the class session. An average of 2 weekly class activities will be required to be submitted on blackboard for each class session.

*More information for this assignment will be detailed during the first class session.*

**IRIS Module: SRSD – Using Learning Strategies to Enhance Student Learning – due 9-30-2020**
Each student will complete the IRIS Module on the SRSD model of strategy instruction for students with disabilities. Each student will be required to respond to a series of questions pertaining to the information in the module. The intent of the assignment is to acquire a working knowledge of how to teach instructional strategies and/or evidence-based practices to students with disabilities.

*More information for this assignment will be detailed during the first class session.*

**Lesson Plan A (Language Arts/Math) – due 10-28-2020**
Each student will prepare a lesson plan (Language Arts or math) that follows the Active Teaching model demonstrated in class, incorporating at least one instruction strategy presented in class. In addition, additional components for effective teaching reviewed in class should be included. When developing the lesson plan, follow the template presented in class and posted on Blackboard.

*More information for this assignment will be detailed during the first class session.*

**Lesson Plan B (Social Studies/Science) – due 11-4-2020**
Each student will prepare a lesson plan (Social Studies or Math) that follows the Active Teaching model demonstrated in class, incorporating at least one
instruction strategy presented in class. In addition, additional components for effective teaching reviewed in class should be included. When developing the lesson plan, follow the template presented in class and posted on Blackboard. 

More information for this assignment will be detailed during the first class session.

**Instructional Strategies Collection – due 11-11-2020**

One of the goals of the course is for students to learn and understand the components of instructional strategies that can be used across the content areas (reading, writing, math, science, and social studies). A second goal is for students to be able to take the learned strategies and apply them with their own students in their own setting. With this in mind, each student will choose one strategy from the Vaughn and Bos text for each content area (reading, math, writing, social studies, and science). The student will be required to describe the instructional strategy in a variety of ways.

More information for this assignment will be detailed during the first class session.

**Course Policies and Expectations**

**Attendance/Participation**

Class attendance and participation are essential to this course. A mandatory synchronous class session will be held each week on Thursday night from 4:30-6:30. Attendance points are earned for each week’s online coursework to give a student experience with and course credit for engaging in key activities that educational evaluators participate in on a regular basis. A student is expected to attend each synchronous online meeting and complete all assigned weekly work for weekly class attendance and participation credit.

**Late Work**

All assignments should be submitted on or before the assigned due date.

Course evaluation and final grades will be calculated based on each individual student’s average percentage point score of all assignments. Late assignments will be accepted RARELY, and must have prior approval from the professor. If not approved, then point deduction will be applied in the following manner:

- 5% point deduction – up to 1 week late
- 10% point deduction – 2 weeks late
- 25% point deduction – 3 weeks late
- 50% point deduction – more than 3 weeks late

**Grading Scale**

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>94-100%</td>
</tr>
<tr>

</table>

McElwee – EDSE 628 659 DL2: Fall 2020 8
B+ = 87-89%
B  = 80-86%
C+ = 77-79%
C  = 70-76%
F  = 69% and below

*Note: The George Mason University Honor Code will be strictly enforced. See Academic Integrity Site (https://oai.gmu.edu/) and Honor Code and System (https://catalog.gmu.edu/policies/honor-code-system/). Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own new, original work for this course or with proper citations.

**Assignment Descriptions and Criteria for Evaluation**

Course grades are calculated by averaging all grades earned on assignments. The student can use the following self-monitoring chart to track your performance throughout the course.

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Total % Points Possible</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attendance/Participation (10 pts. per class)</td>
<td>100</td>

</tr>
</tbody>
</table>

Total = ___________% (Average of all grades)

**Common course assignment**
Professional Dispositions
Students are expected to exhibit professional behaviors and dispositions at all times. See Policies and Procedures (https://cehd.gmu.edu/students/policies-procedures/). Students are expected to exhibit professional behaviors and dispositions at all times. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least two points in each student’s program – a self-evaluation at the start of their program, and a university supervisor’s evaluation during internship. In special education licensure programs, the self-evaluation is an online survey distributed via email upon program entry for graduate students and within initial courses (EDSE 241, EDSE 361, and EDSE 311) for undergraduate students. When dispositions are assessed, it is important that for areas where a positive disposition is ‘occasionally evident’ or ‘rarely evident,’ the student takes steps to grow as an educator. See https://cehd.gmu.edu/epo/candidate-dispositions.

Class Schedule
*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See Core Values (http://cehd.gmu.edu/values/).

GMU Policies and Resources for Students
Policies
- Students must adhere to the guidelines of the Mason Honor Code. See Honor Code and System (https://catalog.gmu.edu/policies/honor-code-system/).
- Students must follow the university policy for Responsible Use of Computing. See Responsible Use of Computing (http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See Disability Services (https://ds.gmu.edu/).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources
- Support for submission of assignments to VIA should be directed to VIA Help support@watermarkinsights.com. Questions or concerns regarding use of Blackboard should be directed to Blackboard Instructional Technology Support for Students (https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/).

Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:
- As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX
Coordinator by calling 703-993-8730, or emailing the Title IX Coordinator (titleix@gmu.edu).

• For information on student support resources on campus, see Student Support Resources on Campus (https://ctfe.gmu.edu/teaching/student-support-resources-on-campus).

• For additional information on the College of Education and Human Development, please visit our website College of Education and Human Development (http://cehd.gmu.edu/).

<tr>
<td><strong>The Strategy</strong></td>
<td></td>
<td>20</td>
</tr>
<tr>
<td>Describes the strategy selected for the project.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Brief summary of Research Article project is based on</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Introduces the specific strategy by name (states the full name and then, if relevant, provides the acronym or common name).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Explains the strategy’s specific purpose and/or intended outcomes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Provides a rationale for why the strategy is appropriate for this particular student subject.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• States conditions and materials needed to successfully teach the strategy, including tips for implementation and possible accommodations for using this strategy with different student populations (e.g., age; disability; cultural background; interests).</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Lists the specific, detailed steps of the strategy (not the SRSD model). These steps are presented in a numbered sequence that acts as a task scaffold for someone who wishes to be guided, step-by-step, through using the strategy.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>SRSD Lesson Guide</td>
<td>Provides the <strong>completed SRSD Lesson Guide</strong> in table format. Details how each step of the SRSD model was followed to implement the project, from pre-assessment (3 probes prior to instruction) through instruction and post assessment (administered at the conclusion of the study). The left column lists the SRSD step and the corresponding right column notes the actions taken by the EDSE 628 candidate to carry out with the K-12 student subject that SRSD step. The detail in the right column resembles a modified lesson plan with the <strong>discrete instructional actions in a numbered list</strong>. There are at least 5 (and approximately up to 10) dated entries in the lesson guide for SRSD during which the student subject <strong>applies the steps of the strategy</strong> while receiving appropriate levels of teacher support (guided practice through independent use). If possible, post instruction data is collected.</td>

</table>
| Results | **Describes the findings.**  
- Includes an appropriate curriculum based measurement (CBM) graph of data (or alternative, as per consultation with the professor) and any accompanying charts, tables, and figures.  
- Evaluates the effectiveness, including:  
  - The efficacy/effects of strategy use on student mastery of the content  
  - How these results compared to expectations based on the research  
  - Consideration of influencing factors (e.g., student prior knowledge; level of instructional materials; suitability of the number of sessions implemented over the time frame for the course project; the continuity of instruction, such as interruptions due to student absences). | 10 |
| Recommendations | Make **recommendations** for next steps for instruction for the student (e.g., additional uses of the strategy; next instructional steps; changes to accommodations for this student when using the strategy; possible additional strategies to support mastery in the area of instructional focus). | 5 |
| Reflection | **Reflects** on the professional knowledge, expertise, and insight gained from the strategy instruction assignment experience. | 5 |
| Ref. & Append. (I & J) | Attaches a **reference list** in APA format and relevant appendices (e.g., a copy of an instructional tool/aid used/created for implementation; samples/evidence of student work that show application of the strategy). | 5 |
| Writing Clarity | The paper: is written with clarity, precision, and engagement; uses sequence and flow that are logical and aid understanding; reflects graduate school level conception and execution; uses current APA format throughout the paper and in the reference list. If these qualities consistently are not in evidence, points are deducted based on the degree of non-compliance. | 5 |
