

**George Mason  
University  
College of Education and Human  
Development  
Educational Psychology  
Program**

EDEP 653, Section DL1: Culture and  
Intelligence  
3 Credits, Spring  
2021  
Wednesdays 4:30 – 7:10 p.m., online

**Faculty**

Name: Anthony E. Kelly  
Office Hours: Before class and by appointment, preferred contact is email  
Office Location: Thompson Hall, 2402 Fairfax  
Office Phone: 703 993 9713  
Email Address: [akelly1@gmu.edu](mailto:akelly1@gmu.edu)

**COVID 19 Procedures: Spring 2021**

Students, please be aware of and follow all policies and procedures for Mason's Safe Return to Campus: <https://www2.gmu.edu/Safe-Return-Campus>

**Prerequisites/Corequisites:** None

**University Catalog Course Description**

Explores different theoretical perspectives on intelligence as they relate to individual and cultural differences. Examines issues related to heritability and measures of intelligence, and intelligence in the cultural context.

**Course Overview**

EDEP 653 promotes a comprehensive view of definitions and theories of intelligence by taking a global and multi-cultural perspective. The focus will be on each student approaching the issue of assessing or measuring intelligence from a personal design perspective.

Non canonical (i.e., non Anglo-US) perspectives, and recent findings from a range of sciences emphasize dimensions that consider more personal, situated and cultural aspects including theories of creativity, wisdom and happiness. The course also explores the educational implications of theories of intelligence.

### **Course Delivery Method**

The classes involve research, use of professional web sites, discussions, peer review, email with the instructor and classmates, readings, writing reflections, and other assignments. GMU's Blackboard course framework will be used regularly throughout the course. Your GMU email address is required for the course instructor and must be active by the first week of class. Please inform me of any accessibility problems the first day of class. Please note that because you have much to learn from each other, and because learning and teaching are often a collaborative effort, you will frequently work in groups. This will give you a chance to share ideas, be exposed to a range of perspectives and experiences, and support each other as you continue to develop your teaching and researching skills.

Students are encouraged to independently study topics from the list here, (or other topics with instructor approval). Among the **list** of topics to consider are: creativity, problem solving, "multiple intelligences", wisdom, successful intelligence with classroom implications, "collective IQ," self-regulation, attentional processes, non-Western views of intelligence, diversity issues, and the role of emotions in defining intelligence. During the semester, 10 topics will be actively discussed in class sessions as part of "deep dives" – more substantive explorations of each topic. As time allows, class sessions may include creative problem solving tasks assigned by the instructor.

This course will be delivered online using a synchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (BB) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course is structured around readings, reflections on readings, class projects, technology activities, and writing assignments. This course will be taught using lectures, discussions, and, as technology allows, small group activities. Discussions will be held using BB.

**Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.**

### *Technical Requirements*

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:  
[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#supported-browsers](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

To get a list of supported operation systems on different devices see:

[https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#tested-devices-and-operating-systems](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
  - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
  - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
  - Apple Quick Time Player: [www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

### *Expectations*

- Course Week: Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- Log-in Frequency:  
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week. In addition, students must log-in for all scheduled online synchronous meetings.
- Participation:  
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:  
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:  
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:  
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:

Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

## **Learner Outcomes or Objectives**

This course is designed to enable students to do the following:

1. Students will be able to develop an understanding of the educational implications of theories and research on intelligence as they relate to culture
2. Students will be able to understand the historical context of research on cultural differences in intelligence
3. Students will be able develop a basic understanding of alternative methods and intelligence as they relate to culture
4. Students will be able to discuss the educational challenges associated with assessment on intelligence
5. Students will be able to understand factors associated with cultural differences in intelligence
6. Students will become familiar with misconceptions about cultural group differences in intelligence
7. Students will be able to develop and reinforce their critical thinking, problem solving, oral and writing skills

## **Program and Professional Standards**

Upon completion of this course, students will have met the following program standards:

***Standard 1: Knowledge of Cognition, Motivation, and Development.*** Candidates will demonstrate an understanding of principles and theories of learning, cognition, motivation, and development as they apply to a wide variety of contemporary learning contexts.

**Standard 2: Application of Cognition, Motivation, and Development Knowledge.** Candidates will use their knowledge, skills, and dispositions to apply principles and theories of learning, cognition, motivation, and development to analyze and develop instruction in applied settings.

**Standard 3: Knowledge of Educational Research and Assessment.** Candidates will demonstrate an understanding of the basic concepts, principles, techniques, approaches, and ethical issues involved in educational research.

**Standard 4: Analysis, Critique, and Evaluation of Educational Research.** Candidates will use their knowledge of quantitative and qualitative research methodology to critically read and evaluate quantitative and qualitative research articles.

**Standard 6: Communication and Dissemination of Educational Research.** Candidates will demonstrate critical thinking, oral presentation, technological, and writing skills as they are used in the profession. These include: a. Knowledge and use of APA style, b. Oral presentations, c. Article abstracts, d. Research proposals, e. Literature reviews, and f. Technological skills.

### **APA Standards**

The program goals are consistent with the following Learner-centered psychological principles (APA Division 15) outlined by the American Psychological Association Presidential Task Force in Education.

Upon completion of this course, students will have met the following professional standards:

1. Principle 1: The Nature of Learning Process
2. Principle 2: Goals of the Learning Process
3. Principle 3: Construction of Knowledge
4. Principle 4: Strategic Thinking
5. Principle 5: Thinking about Thinking
6. Principle 6: Context of Learning
7. Principle 10: Developmental Influences on Learning
8. Principle 11: Social Influences on Learning
9. Principle 12: Individual Differences on Learning
10. Principle 13: Learning and Diversity

**Additional Sources: Course materials available on Blackboard**

## Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, soft copy, hard copy).

**All written assignments should be posted through the assignment folder on Blackboard.**

**1. Article Critiques:** Students will critique and evaluate two articles that examine various aspects of culture and intelligence. One should be a quantitative treatment, and the other a qualitative (or mixed methods) treatment. You may choose from the articles supporting the various themes, those assigned in class (or substitute others with approval). Three pages for each article, single-spaced. The first critique is due week 7. Feedback will be given after submitting the first critique. The other critique is due week 11; see Blackboard for upload links. Critique papers must adhere to the APA Publication Manual Guidelines.

### **2. Individual Research Paper:**

Each student will write a comprehensive literature review and considered analysis examining how one of the themes in the course illuminates different cultural definitions of intelligence. Among the list of topics (discussed during class) to consider are: creativity, problem solving, “multiple intelligences”, wisdom, successful intelligence with classroom implications, “collective IQ,” self-regulation, attentional processes, non-Western views of intelligence, diversity issues, and the role of emotions in defining intelligence. Students may frame their analysis of the construct of intelligence from the perspective of one or more theories of learning, such as sociocultural or situated cognition or other theory of learning. The paper should be double-spaced, with standard margins, and use 12-point font. All research papers must adhere to the APA Publication Manual Guidelines.

Each paper should have an abstract, an introduction, main body, and a summary/conclusion section.

In order to allow students sufficient space to cite relevant literature, express their own ideas cogently and to critique the concepts of intelligence, papers should be at a minimum 10 pages, double-spaced, not including references or abstract; the maximum is 20 pages, double-spaced, not including references or abstract.

### **3. Group slides and group presentation on students’ perspective on intelligence.**

In discussion with the instructor, students will form groups to present on the topic agreed with the instructor. Based on the reading and other sources (e.g., examples of cultural practices sourced from the Internet or otherwise) the group will prepare a presentation, which should use the following sections: (1) the perspective taken on definitions and theories of intelligence; (2) the influence(s) of this definitions on theories of intelligence; (3) current research in the topic; (4) a description of how intelligence might be measured (or not) from this perspective; (5) what the implications are for theorizing about intelligence, and (6) any implications for teaching or learning. Time will be allowed for questions and answers, and there will be opportunity for class discussion following each presentation.

**4. Library and Communication Skills:** Each student will demonstrate proficiency in using library informational skills to identify relevant research and scholars; correspond with selected scholars who are active funded researchers; and use Zotero to manage their papers and prepare manuscripts.

**5. Class Participation:** Because of the importance of lecture, discussion, and online participation in the total learning experience, students are encouraged to both attend and participate during in person classes and any online activities regularly. Attendance, punctuality, preparation, and active contribution to small and large group efforts are essential. These elements of behavior will reflect the professional attitude implied in the course goals. If students miss a class, they must notify the instructor (preferably in advance) and are responsible for completing all assignments and readings for the next class.

## Grading

Library and Communication Skills	10 points
Article Critiques (2)	20 points total (10 points each)
Individual Research Paper	30 points
Group Work	20 points for integrated slide <u>content</u> 10 points for <u>presentation</u>
In Class/Online Assignments, Participation, and Attendance	10 points
Total	100 points

## Grading Scale

A+ = 98 – 100

B = 83 – 87

A = 93 – 97

B- = 80 – 82

A- = 90 – 92

C = 70 – 79

B+ = 88 – 89

All written assignments must be typed and must follow APA format. Grading on written work will take into account the following factors: quality of written work, knowledge of content area, and adherence to requirements of assignment. As a graduate student, it is expected that all of your work will be turned in on the assigned dates. A late assignment is subject to a penalty of 5% of the award for every day that it is overdue.

## Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

## Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

## GMU Policies and Resources for Students

### *Policies*

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/> ).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu/>).
- **Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.**

### *Campus Resources*

- Support for submission of assignments to Tk20 should be directed to [tk20help@gmu.edu](mailto:tk20help@gmu.edu) or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

### Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing [titleix@gmu.edu](mailto:titleix@gmu.edu).

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.

Date	Class Activity	
	Readings/activities	Assignments
<b>Session 1</b> <b>Jan. 27</b>	Introduction to course, description of syllabus; an exploration of students’ beliefs about intelligence with detail about the cultural background that supports these beliefs or assumptions. Introduction to selected themes for the course.	Review Blackboard readings for each topic (by folder).
<b>Session 2</b> <b>Feb. 3</b>	Introduction to selected themes for the course: creativity, problem solving, “multiple intelligences”, wisdom. successful intelligence, “collective IQ,” self-regulation, attentional processes, non-Western views of intelligence, diversity issues, and the role of emotions in defining intelligence (or other topic agreed with the instructor). (Extended class and small group discussion). Initial team-formation. Early discussion of roles within each group.	<b>Group and individual discussion and selection of student topics.</b> Review Blackboard readings for each topic (by folder).
<b>Session 3</b> <b>Feb 10</b>	<i>Deep dive 1.</i> Developing a language for analysis and description. Problem solving strategies: Polya. Group and individual discussions about how findings about attentional capacity may influence how you think about your view of intelligence, how the concept is developed and how it could impact assessments of intelligence.	Discussion of student topics/papers

	See papers on attentional capacity on Blackboard.	
<b>Session 4</b> <b>Feb 17</b>	<i>Deep dive 2.</i> Review of key papers on the importance of <b>Sternberg’s idea of successful intelligence with classroom implications</b> for theorizing about theories of intelligence. Group and individual discussions about how findings about how the ideas about successful intelligence may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence.	Discussion of student topics/papers
<b>Session 5</b> <b>Feb. 24</b>	<i>Deep dive 3.</i> Review of key papers on the importance of “ <b>multiple intelligences</b> ” for theorizing about theories of intelligence. Group and individual discussions about how findings about “multiple intelligences” may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence. See papers on “multiple intelligences” on Blackboard.	Discussion of student topics/papers
<b>Session 6</b> <b>Mar. 3</b>	<i>Deep dive 4.</i> Review of key papers on the importance of <b>creativity</b> for theorizing about theories of intelligence. Group and individual discussions about how findings about creative capacity may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence.	<b>First review (author analysis) due by next week; (upload to BBoard)</b>
<b>Session 7</b> <b>March 10</b>	<i>Deep dive 5.</i> Review of key papers on the importance of “ <b>collective IQ</b> ” for creativity decision-making, and problem solving.  Group and individual discussions about how findings about collective IQ may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence. See papers on “collective IQ” on Blackboard.	Upload <b>First review (author analysis) due midnight</b>  Discussion of student topics and papers
<b>Session 8</b> <b>March 17</b>	<i>Deep dive 6.</i> Review of key papers on the importance of <b>wisdom</b> for theorizing about theories of intelligence. Group and individual discussions about how findings about how the ideas about wisdom may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence. See papers on wisdom studies on Blackboard.	Discussion of student topics and papers

<b>Session 9</b> <b>March 24</b>	<p><i>Deep dive 7.</i> Review of key papers on the importance of <b>emotional intelligence</b> for theorizing about theories of intelligence.</p> <p>Group and individual discussions about how findings about how the ideas about emotional intelligence may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence. See papers on “emotional intelligence” on Blackboard.</p>	<p>Discussion of student topics and papers</p> <p>Second article; <b>qualitative</b> (upload to BBoard).</p>
<b>Session 10</b> <b>March 31</b>	<p><i>Deep dive 8.</i></p> <p>Review of key papers on the importance of <b>definitions of intelligence from different cultures</b> for theorizing about theories of intelligence.</p> <p>Group and individual discussions about how findings about how the ideas about non-Western views of intelligence may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence.</p> <p>See papers on non-Western views on intelligence on Blackboard.</p>	<p>Discussion of student topics and papers</p>
<b>Session 11</b> <b>April 7</b>	<p><i>Deep dive 9.</i></p> <p>Review of key papers on the importance of <b>diversity, especially different ethnic and historical perspectives</b> for theorizing about theories of intelligence.</p> <p>Group and individual discussions about how findings about how the ideas about non-dominant cultural views of intelligence may impact your view of intelligence, how the concept is developed and how it could impact assessments of intelligence.</p> <p>See papers on diversity and historical perspectives on Blackboard.</p>	<p>Discussion of student topics and papers.</p>
<b>Session 12</b> <b>April 14</b>	<p><i>Deep dive 10.</i></p> <p>Review of Thinking Fast, Thinking Slow by Kahnemann..</p> <p>Working with groups on final presentations; individual papers.</p>	<p>Discussion of student topics and papers</p> <p>Third article; <b>quantitative</b> (upload to BBoard)</p>
<b>Session 13</b> <b>April 21</b>	<p><i>Working with groups on final presentations. Sign up for time slots.</i></p>	
<b>Session 14</b> <b>April 28</b>	<p><b>Student Presentations and Reports:</b> Class discussions; questions and answers.</p>	

<b>Exam Week</b>	<b>Student Presentations and Reports:</b> Class discussions; questions and answers.	Final research paper due May 12..
<b>May 3</b>	Final Research Paper Due May 12.  Final group presentation slides with all student names due via Blackboard by midnight, May 9. Let me know if you have questions.	Upload to BBoard Subject: "EDEP 653 Spring 2021"

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

### **LIBRARY and COMMUNICATIONS SKILL ASSIGNMENT (10 points)**

**Tool use:** Word, Zotero, NSF award search, PsycInfo, email communication.

Students will be given an assignment to identify a researcher who has received external funding for their research and scholarship. They will then contact the PI(s) via email and request recent publications/preprints. They will also use search tools to find research articles appropriate to their topics, including work by the corresponding PI if appropriate. Students will use Zotero throughout the semester to manage their library searches, including storing and preparing manuscripts for the assigned article critiques and paper. The tasks, assigned in class and recorded in BB will earn students up to 10 points. The rubric will be described in detail in the class.

**ASSESSMENT RUBRIC FOR ARTICLE CRITIQUES (10 points per article \* 2 = 20 pts.)**  
**Select one qualitative and one quantitative article.**

<b>Criteria</b>	<b>Excellent</b>	<b>Adequate</b>	<b>Needs Significant Changes</b>
APA Style	No significant errors (1)	Contains some significant errors in style (.5)	Paper does not adhere to APA-Style format (0)
Abstract	Conveys clearly and sequentially the content of paper (2)	Gives a general overview of paper topic, but no sequential elaboration of contents (1)	Key information is not included in the summary, or abstract does not provide a clear representation of paper contents (0)
Discussion of the studies	Clearly analyzes study design, assumptions, claims, quality of evidence, and conclusions. Analyzes studies as part of a specified framework on culture and intelligence (4)	Documents study design, assumptions, claims, type of evidence, and lists conclusions. Fails to analyze the studies' claims within a specified framework on culture and intelligence (3)	Primarily repeats material in the studies without analysis, critique or interpretation (0-2)
Writing	Paper flows coherently, language is concise, thesis and discussion are well-structured, purpose of the paper is evident (3)	Paper conveys the main points of the topic (2)	Errors in style format make it difficult to appreciate the content of this paper (0-1)

**ASSESSMENT RUBRIC FOR INDIVIDUAL PAPER [30 points]**

<b>Criteria</b>	<b>Excellent</b>	<b>Adequate</b>	<b>Needs Significant Changes</b>
Peer Reviewed Research	Contains analysis of multiple pertinent empirical studies (2)	Contains analysis of a small number empirical studies, some of which are not related to the topic (1)	General discussion that fails to analyze an adequate literature review (0)
APA Style	No significant errors (1)	Contains some significant errors in style (.5)	Paper does not adhere to APA-Style format (0)
Abstract	Conveys clearly and sequentially the content of paper (2)	Gives a general overview of paper topic, but no sequential elaboration of contents (1)	Key information is not included in the summary, or abstract does not provide a clear representation of paper contents (0)
Analysis and discussion of the studies	Creatively analyzes empirical research and relates it to the construct of intelligence. Analyzes studies as part of a specified framework on culture and intelligence (9-15)	Restates findings from empirical research without creative analysis. Fails to analyze the studies' claims within a specified framework on culture and intelligence (7-8)	Primarily repeats material in the studies without analysis, critique or interpretation (1-6)
Writing	Paper flows coherently, language is concise, thesis and discussion are well-structured, purpose of the paper is evident (5)	Paper conveys the main points of the topic (3-4)	Errors in style format make it difficult to appreciate the content of this paper (1-2)
Interpretation	Insightful, original synthesis, goes beyond the scope of the literature (5)	Analytical, draws logical conclusions based upon evidence from literature (4)	Paper primarily repeats interpretations/ conclusions of others (1-3)

**ASSESSMENT RUBRIC FOR GROUP SLIDE CONTENT [20 points]**

<b>Criteria</b>	<b>Excellent: up to 20</b>	<b>Adequate: up to 16</b>	<b>Needs Significant Changes: up to 10</b>
Group slides consisting of individual contributions, with an integration of the various perspectives.	<p>Clearly makes the case for each perspective's value for understanding culture and intelligence. [up to 10]</p> <p>The integration of the members' perspective makes a convincing holistic case that cogently critiques standard theories of intelligence. [up to 10]</p>	<p>The case for including the individual perspectives is acceptable but somewhat superficial. [up to 8]</p> <p>The integration of the individual perspectives makes a plausible case for a critique of culture and intelligence; however, the substantive impact of the integration is only moderately persuasive. [up to 8]</p>	<p>The case for including the individual perspectives is weak and underdeveloped [up to 5]</p> <p>The integration of the perspectives is superficial. The combined impact of the perspectives is unpersuasive. [up to 5]</p>

**ASSESSMENT RUBRIC FOR GROUP PRESENTATION (10)**

<b>Criteria</b>	<b>Excellent (10)</b>	<b>Satisfactory (7)</b>	<b>Inadequate (5)</b>
Time	Clearly addresses content within time limit (2)	Ends within time limit, but presentation not fully finished (1)	Overly short or overly long (time limit not adequately considered) (0-1)
Content and creative analysis	Central points of the paper are covered cogently, creatively and insightfully; cultural analysis is compelling (4)	Most points covered, but content does not extend creatively beyond the studies reviewed (3)	Poorly selected points or failure to address creative and cultural insights about the construct of intelligence (0-2)
Organization	Clear and coherent, easy to follow; individual contributions add to a satisfactory whole presentation (2)	Reasonably well organized, but order does work well in the time limit; weak individual work (2)	Disorganized, confusing to the audience and instructor (0-1)

Oral presentation	Articulate, professional, engaging (2)	Professional presentation, but delivery detracts from its impact (1)	Poor communication skills that detract significantly from the presentation (0-1)
-------------------	--	--	--

### ASSESSMENT RUBRIC FOR PARTICIPATION AND ATTENDANCE (10)

Element	Level of Performance			
	Distinguished 10	Proficient 8	Basic 5-7	Unsatisfactory 1-4
Attendance & Participation 10 points. Possible	The student attends all online classes, is on time, is prepared and follows outlined procedures in case of absence, the student actively participates and supports the members of the learning group and of the class. The student participates in all online Blackboard activities and discussions and provides reflective feedback to peers online.	The student attends all classes, is on time, is prepared and follows outlined procedures in case of absence; the student makes active contributions to the learning group and class. The student participates in online activities and discussions.	The student is on time, prepared for class, and participates in group and class discussions. The student attends all classes and if an absence occurs, the procedure outlined in this section of the syllabus is followed. The student does not participate in some online activities and discussions.	The student is late for class. Absences are not documented by following the procedures outlined in this section of the syllabus. The student is not prepared for class and does not actively participate in class discussions or online discussions.
