Note: This syllabus may change according to class needs. Teacher Candidates/Students will be advised of any changes immediately through George Mason e-mail and/or through Blackboard.

Prerequisite(s):
None

Co-requisite(s):
None

Course Description
Examines the characteristics of students with mild disabilities. Focuses on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support. Notes: Field experience required.

Advising Contact Information
Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All other students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).
Advising Tip
Have you met with an advisor? All students should make an appointment to meet with an advisor to outline a plan for completing coursework and non-course requirements such as testing. To make an appointment by phone or in person, go to http://gse.gmu.edu/special-education/advising/.

Course Delivery Method
Learning activities include the following:
1. Class lecture and discussion
2. Application activities
3. Small group activities and assignments
4. Video and other media supports
5. Research and presentation activities
6. Electronic supplements and activities via Blackboard

This course will be delivered online (76% or more) using a hybrid of synchronous and asynchronous format via the Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 12, 2020.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements
To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see: Browser support (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

To get a list of supported operation systems on different devices see: Tested devices and operating systems (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
• Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

• The following software plug-ins for PCs and Macs, respectively, are available for free download:
  o Adobe Acrobat Reader (https://get.adobe.com/reader/)
  o Apple Quick Time Player (www.apple.com/quicktime/download/)

Expectations

• Course Week:
  Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

• Participation:
  Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:
  Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

• Technical Issues:
  Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

• Workload:
  Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

• Instructor Support:
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

• Netiquette:
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. Be positive in your approach with others and diplomatic in selecting your words. Remember that you are not competing with
classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:**
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

### Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

1. Describe the field of learning disabilities from its origins to policies and practices of today.
2. Compare the history of education for students with emotional and behavioral disorders, students with learning disabilities students with mild intellectual disabilities.
3. Define learning disability, emotional disturbance, and mild intellectual disabilities.
4. Describe how educators and other professionals determine the difference between normal and atypical behaviors.
5. Describe characteristics of K-12 students with learning disabilities, emotional disturbances, and/or mild intellectual disabilities.
6. Compare conceptual models of behavioral deficits with three conceptual models that explain learning disabilities and/or mild intellectual disabilities.
7. Discuss the various etiologies in relation to biological, family, cultural, and school perspectives.
8. Identify various procedures and practices that motivate reluctant learners to complete class work and develop skills that build self-understanding and confidence as learners.
9. Describe and discuss a range of learning disabilities, emotional disturbances, and mild intellectual disabilities for a parent and suggest possible interventions for home and school.
10. Describe how children develop language.
11. Describe informal assessment procedures for determining knowledge and skills of children with various learning disabilities and emotional/behavioral problems.
12. Based on informal assessment procedures, design appropriate clinical teaching strategies for children with various learning disabilities and/or behavior problems.
13. Describe what an Individualized Education Program (IEP) is and how it is developed.

### Professional Standards

(Council for Exceptional Children (CEC), Interstate Teacher Assessment and Support Consortium (InTASC). Upon completion of this course, students will have met the following professional standards: CEC Standard 1: Learner development and individual learning differences (InTASC 1,2); CEC Standard 2: Learning environments (InTASC 3); CEC Standard 3: Curricular content knowledge (InTASC 4,5); CEC Standard 4: Assessment (InTASC 6); CEC Standard 5: Instructional planning and strategies (InTASC 7,8) & CEC Standard 7: Collaboration (InTASC 10).

This course contains at least on Common Assessment developed by the College of Education and Human Development to assess our candidates' performance on nationally accepted standards for beginning teachers (InTASC) and our programs' performance on national accreditation standards (CAEP).
Evidence-Based Practices
This course will incorporate the evidence-based practices (EBPs) relevant to characteristics of students with mild disabilities, etiology of mild disabilities, inclusionary practices. Evidence for the selected research-based practices is informed by meta-analysis, literature reviews/synthesis, the technical assistance networks which provide web-based resources, and the national organizations whose mission is to support students with disabilities. We address both promising and emerging practices in the field of special education. This course will provide opportunities for teacher candidates/students to take an active, decision-making role to thoughtfully select, modify, apply, and evaluate EBPs in order to improve outcomes for students with disabilities.

Required Texts

Recommended Texts

Course Performance Evaluation
Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

VIA Performance-Based Assessment Submission Requirement
It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA.

For EDSE 540, the required PBA is Observation Student Profile. Please check to verify your ability to upload items to VIA before the PBA due date.
Assignments and/or Examinations
Performance-based Assessment
(VIA submission required)

The required assignment for this course is the development of an Observational Student Profile about a student with a disability who accesses the general curriculum. See Appendix A and Blackboard for specific details.

College Wide Common Assessment
(VIA submission required)

None

Performance-based Common Assignments
(No VIA submission required)

None

Field Experience Requirement
A field experience is a part of this course. A field experience includes a variety of early and ongoing field-based opportunities in which candidates may observe, assist, and/or tutor. Field experiences may occur in off-campus settings, such as schools (CAEP, 2016).

Students must be able to perform the essential functions of the practicum site assigned with or without an accommodation. Contact Disability Services (ods@gmu.edu) for questions related to accommodations.

*Please note that due to barriers with accessing field experience placements in Spring 2021 as a result of COVID-19, there will be changes to the field experience process in this course. Students will be notified by their instructors with field experience options in their course. If the instructor allows field experiences to be completed on-the-job for students working in schools, you must have administrator approval and access to all field experience-related tasks and requirements. Please note that if you are not completing your field experience on-the-job or if your worksite does not meet the necessary requirements, you will use an alternative option provided by your instructor; you may NOT arrange your own field experience placement (i.e., do NOT reach out to teachers or administrators on your own). Check your Mason email regularly for important information regarding your field experience.

Other Assignments
Characteristics Grids

Completion of the characteristics grid will provide learners with a specific understanding of identifying and supporting both the student and the student’s support team.
Explicit Instruction Lesson Plan
Learners will be provided two separate class rosters, with differing student needs and create an explicit instructional lesson plan. Lesson plans will address the six principles of effective instruction.

Eligibility Analysis
Learners will be provided student eligibility packets. Learner will read, analyze, and create an individualized education plan.

Course Policies and Expectations

Attendance/Participation
Students are expected to (a) attend all classes during the course, (b) keep their camera on during class, (c) arrive on time, (d) stay for the duration of the class time, (e) show evidence of having read/studied material, and (f) complete all in-class assignments to earn points for class participation.

Late Work
Assignments are due on the date indicated in the syllabus. If I change the due date for reasons related to student need in the course, the change will be discussed in class, posted on the Blackboard site, and confirmed in an email to all students. Late work will only be accepted in cases approved by me after discussion with the student at least one week before the assignment is due OR in cases of emergency. If you are not in class on the day an assignment is due, you are still responsible for submitting the assignment on or before the due date and time.

Grading Scale

<table>
<thead>
<tr>
<th>Grade</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93 - 100</td>
</tr>
<tr>
<td>A-</td>
<td>90 - 92</td>
</tr>
<tr>
<td>B</td>
<td>88 - 89</td>
</tr>
<tr>
<td>B</td>
<td>83 - 87</td>
</tr>
<tr>
<td>B -</td>
<td>80 - 82</td>
</tr>
<tr>
<td>C</td>
<td>70-79</td>
</tr>
<tr>
<td>F</td>
<td>&lt;70</td>
</tr>
</tbody>
</table>

Grades will be calculated by summing the total points and diving by 335. Any result at .5 or higher will be rounded up to the next whole number.

Evaluation

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Description</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lesson Plan</td>
<td>An explicit lesson plan will be created to support unique learner needs.</td>
<td>60 points (2 plans at 30 pts each)</td>
</tr>
</tbody>
</table>
Characteristics Grids | Characteristic grids will be completed to identify learner needs and instructional pedagogy | 100 points (5 grids at 20 pts each)
--- | --- | ---
Eligibility Analysis | An analysis of a student eligibility will be conducted, and an individualized educational plan will be drafted to support unique learned needs. | 50 points
Participation | 13 classes | 65 points
Observation Student Profile | Culminating assignment due at end of semester (directions and rubric in class materials) | 60 points
Total | | 335 points

*Note:* The George Mason University Honor Code will be strictly enforced. See [Academic Integrity Site](https://oai.gmu.edu/) and [Honor Code and System](https://catalog.gmu.edu/policies/honor-code-system/). Students are responsible for reading and understanding the Code. “To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University
community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.” Work submitted must be your own new, original work for this course or with proper citations.

**Professional Dispositions**
Students are expected to exhibit professional behaviors and dispositions at all times. See Policies and Procedures (https://cehd.gmu.edu/students/policies-procedures/). Students are expected to exhibit professional behaviors and dispositions at all times. In the College of Education and Human Development, dispositions are formally and separately evaluated in at least two points in each student’s program – a self-evaluation at the start of their program, and a university supervisor’s evaluation during internship. In special education licensure programs, the self-evaluation is an online survey distributed via email upon program entry for graduate students and within initial courses (EDSE 241, EDSE 361, and EDSE 311) for undergraduate students. When dispositions are assessed, it is important that for areas where a positive disposition is ‘occasionally evident’ or ‘rarely evident,’ the student takes steps to grow as an educator. See https://cehd.gmu.edu/epo/candidate-dispositions.

**Class Schedule**
*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.*

## Core Values Commitment
The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: See [Core Values](http://cehd.gmu.edu/values/).

## GMU Policies and Resources for Students
### Policies
- Students must adhere to the guidelines of the Mason Honor Code. See [Honor Code and System](https://catalog.gmu.edu/policies/honor-code-system/).
- Students must follow the university policy for Responsible Use of Computing. See [Responsible Use of Computing](http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with

George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See Disability Services (https://ds.gmu.edu/).

- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

**Campus Resources**

- Support for submission of assignments to either Tk20 or VIA should be directed to https://cehd.gmu.edu/aero/assessments/

- Questions or concerns regarding use of Blackboard should be directed to Blackboard Instructional Technology Support for Students (https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/).

**Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:**

- As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing the Title IX Coordinator (titleix@gmu.edu).

- For information on student support resources on campus, see Student Support Resources on Campus (https://ctfe.gmu.edu/teaching/student-support-resources-on-campus).

- For additional information on the College of Education and Human Development, please visit our website College of Education and Human Development (http://cehd.gmu.edu/).
GUIDELINES FOR THE OBSERVATION STUDENT PROFILE

The observation student profile provides you with the opportunity to get an in-depth understanding of a student with exceptionalities who accesses the general curriculum. You will examine his or her educational history, current school performance, and IEP goals and synthesize the information gathered, relating it to the content of the course. The purpose of the student profile is to help you understand the complexity of each individual case of a student with exceptional learning needs. This student profile assignment has five major sections. Each section should be labeled with the heading given below. The paper should be formatted using APA style with related documents and samples in the Appendix.

Candidates will receive a case study with materials about a student with a disability who accesses the general curriculum. Read the case study and materials carefully to complete this assignment.

Part I: Demographic and Background Information
  Provide a thorough description of your student, including
  A. demographic information,
  B. disability diagnosis and etiology,
  C. any medical conditions that exist,
  D. psychological and social-emotional characteristics, and any other information relevant to the student’s academic achievement (e.g., has moved repeatedly, has significant family changes). Do not include the student’s educational history. That is included in Part II.

Part II: Educational History, Goals, Objectives, and Accommodations
  A. Describe your student’s educational history, including
     a. schools attended,
     b. reason for initial referral,
     c. pre-referral interventions (if available),
     d. results of multidisciplinary evaluation,
     e. special education classification,
     f. description and location of educational service provision, and
     g. related services provided.
  B. Identify and provide examples of the skills and characteristics of your student that are (a) similar to the his/her peers (typical growth and development) and (b) those skills and characteristics that are dissimilar (atypical).
  C. Identify the educational implications of the characteristics identified in B.
  D. Describe the impact of your student’s academic and social abilities, attitudes, interests, and values on career development. Does your student’s disability have an impact on auditory and information processing skills? If so, describe.
  E. From the student’s IEP, summarize or state the educational goals and objectives and identify the classroom accommodations.
  F. Evaluate how the levels of support correspond to the needs of the individual.

Part III: School and Placement Information
A. From one of the local school divisions, choose a school that your student might attend. Using data from the division and from the Virginia Department of Education Report Card data, give a description of your student’s school, including
   a. Demographics of students,
   b. Staffing
   c. Continuum of services for students with exceptional learning needs,
   d. Performance of students with disabilities on state assessments for the most recent year reported.
B. From your student’s IEP, describe the educational placement. What special education and general education services are provided? How are these services described?
C. Evaluate how this placement matches your understanding of the Least Restrictive Environment specifically for the student’s specific skills and characteristics, as described in Part I

Part IV: Family Engagement
This part of the assignment includes two components: (1) participate in a Parent Education Training Center training through PEATC (link on Blackboard) and (2) reflect on that training by writing a reflection on the following:
   A. Identify and describe three takeaways or new learning you have from the PEATC training; post these to our collaborative Word Doc (see link in Blackboard).
   B. Explain how you could engage your student’s family in IEP development and progress monitoring throughout the year.

Part V: Summary, Synthesis and Recommendations
A. Summary Write a brief, one paragraph summary (referring to relevant pages in your case study as necessary) of your student including all pertinent information obtained throughout the observations, interviews and background information review. Provide enough detail that a stranger could walk into the classroom and identify your student from your summary alone.
B. Synthesis Compare your student’s characteristics with those described in the textbook or other course readings for a student with that specific exceptional learning need. How are they similar and different? Are the described implications similar or different? How do your student’s characteristics compare to typical development? Provide specific examples.
C. Recommendations Given the information you have compiled about your student and your learning from the course,
   a. Do you think your student is receiving the services and supports he or she needs? Provide a rationale for your response.
   b. 2. If you could provide recommendations to the IEP team about effective instruction to match the characteristics of your student, what would they be?

**Summary, Synthesis and Reflection & Additional Recommendations**

CEC/IGC Standard 3, 6

Candidate uses knowledge of general and specialized curricula to individualize learning for individuals with exceptionalities. Candidate uses foundational knowledge of the field and his/her ethical principles and practice standards to inform special education practice, to engage in lifelong learning, and to advance the profession.

- Candidate provides an incomplete summary that does not include information from all components of the student profile.
- Candidate provides incomplete recommendations, educational accommodations, and modifications for the learner with exceptional learning needs by EITHER not addressing recommendations, educational accommodations, or modifications OR by not linking student characteristics to these recommendations, accommodations, or modifications.

- Candidate provides recommendations, accommodations, and/or modifications that identify and prioritize areas of the general curriculum and accommodations for the learner with exceptionalities.
- The candidate demonstrates, by integrating student characteristics and recommendations, their commitment to developing the highest education and quality-of-life potential of individuals with exceptionalities.
- Candidate summarizes all pertinent information inclusive of observations, interviews and background information and shows competence and sound judgment by offering a comprehensive synthesis of:
  - their learner’s characteristics as compared with typical and atypical learners,
  - the social and educational implications of these characteristics and
  - the effect the exceptionality has on the learner’s life.

- Candidate provides elaboration on the school and classroom setting and its impact on learners with exceptionalities to include evidence of scholarly work (e.g., use of texts or other research).
- Candidate provides recommendations, educational accommodations, and/or modifications for the learner with mild to moderate exceptional learning needs.
- The candidate demonstrates, through their recommendations, their ability to serve as an advocate for appropriate services for individuals with exceptional learning needs and a high level of commitment to developing the highest education and quality-of-life potential of individuals with exceptional learning needs.
- Candidate summarizes all pertinent information inclusive of observations, interviews and background information and offers a comprehensive synthesis of:
  - their learner’s characteristics as compared with typical and atypical learners,
  - the social and educational implications of these characteristics and
  - the effect the exceptionality has on the learner’s life.
- Candidate analyzes how his/her own cultural biases and differences affected his/her interactions with students and their families.
- Candidate provides elaboration in the synthesis to include evidence of scholarly work (e.g., use of texts or other research).
