Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see: Browser support (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)

To get a list of supported operation systems on different devices see: Tested devices and operating systems (https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
  - The following software plug-ins for PCs and Macs, respectively, are available for free download: Adobe Acrobat Reader (https://get.adobe.com/reader/)
  - Apple Quick Time Player (www.apple.com/quicktime/download/)
**Expectations**

- **Log-in Frequency:**
  Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 2 times per week. In addition, students must log-in for all scheduled online synchronous meetings.

- **Participation:**
  Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- **Technical Competence:**
  Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

- **Technical Issues:**
  Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

- **Workload:**
  Please be aware that this course is not self-paced. Students are expected to meet *specific deadlines and due dates* listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- **Instructor Support:**
  Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- **Netiquette:**
  The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:**
  Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Course Policies and Expectations

**Attendance/Participation**
For a satisfactory grade in the course, students are expected to attend all classes, arrive on time, demonstrate professional behavior in the classroom (see Professional Disposition Criteria), and complete all assignments with professional quality in a timely manner. When absence from class is unavoidable, students are responsible for getting all class information (e.g., handouts, announcements, notes) from another class member prior to the class meeting that follows the absence. Be aware that points earned for participation activities during a time of absence will not be earned and typically cannot be reclaimed.

**Late Work**
Points will be deducted for work submitted late (up to 10% per day). This includes any items that are not submitted upon request due to class absence or tardiness. This includes items initiated or modified during class as well as those listed in the syllabus. All work must be turned in within 48 hours of the final class session to be reviewed for a grade.

Other Requirements

**APA Style**
The standard format for any written work in the College of Education and Human Development is APA. If you are unfamiliar with APA, it would benefit you to purchase the Publication Manual of the American Psychological Association (7th ed.) or to access one of the internet sites that provides a summary of this information. All work produced outside of class must be typed in APA style unless otherwise noted.

**Academic Integrity**
Students in this course are expected to exhibit academic integrity at all times. Be aware that plagiarism is presenting someone else's work as your own. Whether the act is
deliberate or unintentional is irrelevant. You must take great care to give credit to an author when you use either exact words or paraphrased ideas. Generally, if you use 4 or more words in a row you should use quotation marks and a proper citation. Evidence of plagiarism or any other form of cheating in this class will result in a zero on that assignment and a report of the incident to the registrar and Dean’s office. Remember that plagiarism is a very serious offense and can result in dismissal from the University. The instructor reserves the right to submit your work to plagiarism detection services for an integrity assessment as needed.

Electronic Media.
The use of electronic devices that record class or photograph individuals or materials may not be used without instructor permission.

Workload Expectation.
For each in-class hour devoted to this course content, students are expected to spend at least 3 hours outside of class on course-related assignments, which is a typical in-class to out-of-class ratio for graduate level coursework. Exemplary work should be considered for presentation or publication opportunities.
