University Catalog Course Description

Focuses on projects related to sport and/or recreation studies. Offered by School of Sport/Rec/Tour Mgmt. May be repeated within the degree for a maximum 6 credits.

Course Overview

Topics related to sport management/sport and recreation studies. In particular, seven (7) topics will be covered in class:

1. *Principles of Sports Leadership*

Leadership is a critical element to success in any field, and sports are no different. We will discuss in class the basic elements of good leadership that are exhibited by Coaches and General Managers of sports teams. We will also discuss how to develop leaders.

2. *Developing Teamwork*

In sports, it is critical for all members of the team to understand their role on the team and the importance of their ability to work together towards a common goal of winning the game. In the class, we will show how a sports team can achieve this. Also, how this can be applied to any organization.

3. *Motivation*

It is easy to say that a company will only hire “self-motivated” individuals, but that is not always the case. Furthermore, those who are “self-motivated” are human and will still need motivation at times. In sports, you likewise try to recruit only “self-motivated” individuals, but you do not always end up with an entire team of them. We will discuss how to motivate both individuals and the organization.

4. *Media Relations*

A big part of sports is media relations. Everything done in professional sports – and to some extent, college and high school sports – is covered extensively by TV, radio, Internet, and print media. It is critical in sports to be able to deal with the media on a daily basis. We will discuss in class the principles of media relations that will help the students have guidelines to deal with the media.

5. *Crisis Management*

In sports, when a crisis occurs with a team or player, it rarely escapes the news. In class, we will discuss how to deal with a crisis internally, as well as externally (with the media).

6. *Hiring and Evaluations*

We will discuss the characteristics to look for in hiring the coach/leader of an organization and how they can be evaluated.

7. *Dealing with Different Situations*

I have picked six common situations that happen in sports and will discuss how to handle each situation. These six situations are: Newly-named coach; Extended losing streak; Extended winning streak; Sustaining a winning streak; Sustaining success after a big season; and Rebounding from a poor season.

8. *Interviewing*

We will discuss how to interview for a job.

Course Delivery Method

Under no circumstances, may students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

This course will be delivered online using synchronous and asynchronous formats via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on June 1, 2021. Students must have access to a computer with word processing, Excel, PowerPoint/Google Slides, and a webcam with microphone. The synchronous component will take place M-F from 9am to 11am online, using Blackboard Collaborate.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least five times per week. Students are expected to log on each day at 9am for class, Monday through Friday from June 21 to July 2.
- Participation: Students are expected to actively engage in all course activities throughout the summer term, which includes viewing all course materials, completing course activities, attending the synchronous portion of the course, completing assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the summer term and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues and will receive a 10% late penalty.
- Workload: Please be aware that this course is not self-paced. Students are expected to meet specific deadlines and due dates listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the course schedule of topics, readings, activities and assignments due.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. The instructor may conduct these meetings via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. Be positive in your approach with others and diplomatic in selecting your words. Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- Accommodations: Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. learn about different aspects of operating a sports team;
2. apply principles of leadership exhibited by coaches and general managers;
3. gain knowledge about practical leadership and teamwork development;
4. study aspects of motivation, media relations, and crisis management;
5. identify evaluative criteria for assessing coaches and managers to be hired;
6. acquire competence in dealing with a variety of coaching/team scenarios; and
7. prepare for the professional sport interviewing process.

Professional Standards [Commission of Sport Management Accreditation (COSMA)]

Upon completion of this course, students will have met the following professional standards:

Courses offered in the Sport and Recreation Studies (SRST) graduate program are guided by the principles of COSMA. COSMA (2016, p. 1) “bases its accrediting process on principles, rather than standards.” The eight recommended principles are:

- outcomes assessment;
- strategic planning;
- curriculum;
- faculty;
- scholarly and professional activities;
- resources;
- internal and external relationships; and
- educational innovation.

For more information, please see:

Commission of Sport Management Accreditation. (2016, May). *Accreditation principles manual & guidelines for self-study preparation*. Retrieved November 30, 2016 from <http://www.cosmaweb.org/accreditation-manuals.html>

Required Texts

Readings to be provided by the instructor and posted on Blackboard.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Tk20, hard copy).

- **Assignments and/or Examinations**

Topic Papers (n=8). Topic papers: should be two to four pages (double-spaced) in length and cover each of the below listed topics:

Tentative Due Dates:

- Leadership - June 23
- Motivation - June 23
- Developing Teamwork - June 28
- Media Relations – June 28
- Crisis Management – July 1
- Newly Hired Coach – July 1
- Interviewing – July 5
- Situations – July 5

Each paper is worth 10 % of the grade.

- A. Your writing should be organized. The main point of your argument should be evident, and there is logic in going from A to B.
- B. You have justified your arguments using class material. Remember, you are trying to convince your audience as to the “correctness” of your position. They will be skeptical, and the burden is on you to show proof.
- C. You have synthesized the discussions to create your own ideas.
- D. You offer some implications of your analysis. Try to go beyond the obvious here; but remember, solutions must be critically sound, and there are often tradeoffs involved for any prescription.

- **Policy on Class Participation**

Students will be given outlines of the class lectures before the topics will be discussed online. They are to study these outlines and be prepared to discuss, in their *papers or worksheet assignments*, any of the points in the outlines, and how they relate to the sports world.

Clearly, much learning is derived from fellow students’ contributions to class discussions and a failure to fully prepare for worksheets, the papers or any online discussion opportunity should be construed as breaking a contract with them. The instructor will offer Blackboard Collaborate opportunities during the summer term; these sessions will be voluntary and every effort will be made to use a time convenient to everyone.

- **Grading**

- Worksheets – 20%
- Topic Papers – 80% [8 Papers @ 10% each]

Grading Scale

A	= 94 – 100	B+	= 88 – 89	C	= 60 – 79
