University Catalog Course Description

Analyzes sport from educational, political, economic, and cultural perspectives.

Course Overview

This course examines the role of sport in contemporary American society. Through the utilization of scholarly interpretations, students examine the way sport is linked to the structure and dynamics of social life. Particular attention is devoted to an analysis of the interrelationship between sport, society, social organization, and social change.

Course Delivery Method

This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 22, 2019.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://windows.microsoft.com/en-us/windows/downloads/windows-media-player/>

Expectations

- Course Week:
Because asynchronous courses do not have a “fixed” meeting day, our week will **start** on Monday morning at midnight, and **finish** on Sunday at 11:59 p.m.
Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least **five** times per week.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the

instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

- Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:

Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Evaluation of Assignments

This can be an analysis on a sport figure (Michael Jordan), a specific sport (history of the NFL) or a sport organization (New York Yankees).

This can be on topics such as youth sports, the history of basketball, the history of the NFL, the impact of sports in the United States today, student-athletes today, etc.

Midterm and Final Exam – The midterm and final exam will consist of questions we’ve discussed in class based on the chapters and supplemental materials. Both exams will be essay format.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

Participation/Attendance (Discussion Boards)

Because of the structure of this online class, it is important for you to come prepared to participate in class activities and assignments. Although this isn’t a face-to-face class, it’s still highly important for you to treat attendance as an impact on your final grade and overall performance in the course. Group work is also important as we will take time every class and go over assigned readings with the activity that we are currently working on.

Discussion Boards: Each week, students will take part in discussion board responses that elicit thought, critical thinking and assessment of the topics being covered.

Students will be required to respond to the initial forum post Wednesday by midnight and student responses Sunday by midnight. Some weeks there will be two discussion forums and the same requirements will apply in terms of initial postings and student responses.

Students will be required to have at least **two** “thoughtful” responses to each of the weekly discussion questions. However, it is recommended that students take part in more to get the full online interaction between students. The total point distribution of the discussion forum throughout the semester is 285 total points (19 forums x 15 points each).

The responses should be a paragraph long and in full sentence form. The idea of discussion boards is to highlight with other students the discussion question and any other ideas/concepts that may come up from other students. You will be asked to use APA format when using citations and there will also be a rubric to assess your quality of work.
