**University Catalog Course Description**

Enables students to participate full time in an internship in early childhood education (birth-grade 3). Links university course work to real world of working with diverse young children and their families.

**Course Overview**

This is a Mason Core course that meets the requirements for the Capstone course for the Bachelor of Science in Education (BSED) in Early Childhood Education for Diverse Learners (ECDL). This course provides teacher candidates with the opportunity to synthesize their learning across coursework and field experiences and apply this content and pedagogical knowledge in a classroom setting with culturally, linguistically, ability, and socioeconomically diverse young children and their families. In doing so, candidates develop comprehensive understandings of the complexities of teaching young children, working with families, and collaborating with other professionals.

As candidates integrate the knowledge, strategies, and skills developed across their coursework, they demonstrate they have met the Virginia Professional Studies Competencies, the Virginia Early/Primary Education PreK-3 Competencies, the Interstate Teacher Assessment and Support Consortium (InTASC) Standards, The Division of Early Childhood (DEC) Professional Preparation Standards, and the National Association for the Education of Young Children (NAEYC) Professional Standards and Competencies. In addition, ECED 490 provides opportunities for candidates to be reflective practitioners. As candidates work with diverse young children, families, and other professionals, they apply content and pedagogical knowledge, assess the effectiveness of their teaching strategies and approaches, and reflect critically on ways to enhance their practice.

Candidates will engage in two 6-credit internship placements for a total of 12 credits of

internship. Across the two internship placements, candidates will engage in 15 weeks of successful full-time student teaching under the supervision of a university supervisor (US) and mentor teacher (MT) with demonstrated effectiveness in the classroom. This summative supervised student teaching experiences for candidates seeking Early/Primary Education PreK-3 (EPK3) endorsement will be placed in prekindergarten through third-grade classroom settings with an MT who holds a Virginia license in EPK3 or Elementary Education. Candidates seeking licensure in Early Childhood Special Education (ECSE) will be placed in ECSE settings with an MT who holds a Virginia license in ECSE. This summative supervised student teaching experience will include at least 150 clock hours spent in direct teaching at the level of endorsement in a public or accredited nonpublic school.

### **Course Delivery Method**

This course will be delivered using a student teaching format and via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 24th, 2022.

**Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.**

### *Technical Requirements*

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see [https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#supported-browsers](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers)  
To get a list of supported operation systems on different devices see [https://help.blackboard.com/Learn/Student/Getting\\_Started/Browser\\_Support#tested-devices-and-operating-systems](https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems)
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:

## Expectations

- **Course Week:** Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday and finish on Sunday. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 4 times per week.
- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:** Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:** Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:** Students may schedule a one-on-one meeting to discuss course requirements, content, or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:** The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations:** Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

#### **• Grading Policies**

The Graduate School of Education (GSE) has approved the following grading policy for ECED internships:

- The grading scale will be S (Satisfactory), NC (No Credit), or IP (In Progress) in accordance with Mason policy for internships.
- Degrees of Satisfactory performance by a candidate in Early Childhood Education will be documented on the Teacher Candidate Assessment by the MT and US.
- The US shall determine the grade after consultation with MT. The US may also consult with the Clinical Practice Director especially when the candidate may receive a No Credit or an In Progress grade.
- Candidates who receive a No Credit grade will not be recommended for teacher licensure unless they repeat all or part of the internship with satisfactory performance. This may

require re-enrolling and paying tuition for additional credit hours in a subsequent semester or paying a fee for extended supervision.

- Candidates whose performance cannot be evaluated at the end of the grading period will receive a grade of IP (In Progress). An IP grade shall be changed to Satisfactory or No Credit for candidates upon completion of requirements – usually before the beginning of the next semester.
- In some cases, a grade of No Credit may be accompanied by a recommendation that the candidate not be allowed to repeat the internship. In such cases, the candidate will be counseled out of the licensure program, but not necessarily out of the program.

### Professional Dispositions

Candidates are expected to exhibit professional behaviors and dispositions at all times.

### Class Schedule

Candidates will report to their internship site daily. They will follow their internship site holidays as determined by the calendar articulated by the school. Candidates will follow the contract hours of their MT and will participate in school-sponsored events as needed. Note: Because observation opportunities are site and context specific, the focus for observations noted in the schedule below will be determined in collaboration with the candidate, US, and MT.
