You will log in to the Blackboard course site using your Mason email name and email password.

Online Course Expectations

- Log-in Frequency: All students should participate live during any synchronous sessions, should they become necessary during the course of the semester. ***Students should make sure their camera is on.*** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least several times a week.
- Participation: Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and

learning from others. All faculty are similarly expected to be respectful in all communications.

Relationship of Course to Internship

Although the internship is a separate course, the Education Leadership program has integrated “embedded experiences” into course work. This means that some of the work for this class is related to the internship. Students may write about embedded experiences in their internship journal and Collective Records, but they can only count over and above the minimum 320 hours required for the internship. There is one exception. This course requires a focus group, and, as a result, this project can qualify for the required activity-“Organize and run one or more community focus groups dealing with suggestions for improving visibility and communications with the local school community. Present recommendations to administration.”
