Office Hours: By Appointment
Office Location: Katherine G. Johnson Hall Suite 220, Science and Technology campus in Prince William
Office Phone: Zoom
Email Address: dkarczma@gmu.edu

Prerequisites/Corequisites

None

University Catalog Course Description

Covers biological, behavioral, and sociocultural factors in human sexual behavior.

Course Overview

This course relies, in part, on the use of explicit visual teaching aids such as slides, films and video clips. These materials may portray nudity, masturbation, and examples of sexual behavior. Every effort is made to present those materials in a mature and scientific manner. A person who would be offended by frank discussions and/or visual portrayals of human sexual behavior may not a good candidate for this class.

Students are expected to conduct themselves in a manner appropriate to a college classroom. Any student whose behavior is inappropriate or destructive to the learning environment will be asked to leave the class.

Course Delivery Method

This course will be delivered online using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course scheduled across 8 weeks. **The course site will be available on Monday, March 20, 2023 at Noon. The last day of instruction will be on Friday, May 5, 2023, followed by the final exam period of May 8 to May 9, 2023.**

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers
- To get a list of supported operation systems on different devices see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a “fixed” meeting day, please note that our week will start on Tuesday and finish on the following week’s Wednesday. Deadlines for all assignments will be clearly indicated on the course Blackboard site. The only exception is the first week when the course starts on a Monday; the deadline is still the following week’s Wednesday.
- Log-in Frequency:
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings,

activities and assignments due. Assignments will not be accepted after the posted deadline, unless otherwise indicated. Students who have an emergency during the course that impacts full participation in the course must contact the Instructor immediately.

- **Instructor Support:**

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method (phone or video call) and suggested dates/times.

- **Netiquette:**

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- **Accommodations:**

Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Describe the biological components of human sexuality (e.g., anatomical, physiological, human sexual response), including the male and female reproductive systems, and sexual dysfunctions.
2. Explain key health concepts in human sexuality across the lifespan.
3. Identify and compare the different methods of contraception, and sexually transmitted infections and diseases.
4. Analyze the biological, psychological, emotional, and sociocultural influences that shape sexual attitudes, values, and behaviors.
5. Discuss the diversity of sexual behaviors and lifestyles.
6. Identify sexual health resources available for youth and adults on diverse sexual behaviors.

Professional Standards

N/A

Required Texts

Crooks, R., Baur, K. & Widman, L. (2021). *Our Sexuality (14th edition)*. Belmont, CA: Wadsworth/Cengage Learning.

Additional required readings will be posted on Blackboard for each module.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, hard copy). Please note that all the evaluations during the course are performance based assessments and no fieldwork experience is required.

- **Assignments and/or Examinations**

Course Evaluation Criteria	
Requirement Details	Possible # of Points
Syllabus quiz (<i>1 survey total, up to 5 points</i>)	5
Introduction post (<i>1 introduction post total, up to 5 points</i>)	5
Anonymous surveys (<i>5 surveys total, up to 10 points each</i>)	50
Infographic (<i>1 infographic per student, up to 50 points</i>)	50
Group Discussion Board (<i>2 discussions total, up to 20 points each</i>)	40
Content questions (<i>25 questions in 6 modules, up to 50 points each</i>)	300
Final Exam (<i>50 multiple choice questions, 1 point each</i>)	50
Total number of possible points	500

Syllabus Quiz: In Module 1 there will be a syllabus quiz. This quiz will be a multiple-choice quiz with 10 questions based on the content of the syllabus. Students will have up to 2 attempts to complete the quiz. The highest grade will count towards the final grade in the course.

Introduction post: Each student will be asked to share a welcome post to the class during Module 1. Students are encouraged to use video or podcast tools to introduce themselves to the class and the instructor. Complete details for this assignment will be posted on Blackboard.

Anonymous surveys: These surveys will be anonymous and only the instructor will see the results. The results will not contain any identifying information. Blackboard will just indicate if the survey was completed. The instructor will then use the survey results in lectures throughout the course.

Infographic: Each student will develop an educational infographic on a topic related to human sexuality. The infographic must identify a key topic in human sexuality, share significant health information with appropriate sources cited, and offer at least one resource that can offer support of education on the issue. Complete details for this assignment will be posted on Blackboard.

Group discussion board: There will be 2 discussion board activities during the course. The discussions will be prompted by brief videos that students will watch. Video lengths will vary from 15 minutes to about 60 minutes. Depending on class size, the instructor will determine the size of the discussion groups to create a meaningful learning experience. Students will be expected to respond to questions provided by the instructor. Since this is a discussion board assignment, it is expected that group members communicate with each about their comments and thoughts on the video. It is expected that posts on discussion boards are made **throughout the week**. Specific deadlines are provided in the class schedule. Students who post responses after the posted deadlines will not receive full points for their contributions. Complete details for this assignment will be posted on Blackboard.

Content questions: There will be a lot of material covered in the course. Material will be presented from a wide variety of sources including, but not limited to, the textbook, video clips, websites, magazines, newspaper and journals. In 6 of the modules, there will be up to 25 questions that will be asked about the content. There will be short answer and multiple choice questions.

Final exam: The final exam in the course will be an opportunity to demonstrate understanding of key concepts from the course. The exam will be delivered online through Blackboard. The exam will consist of 50 multiple choice questions. Each student is expected to complete the exam independently with access to the textbook, internet and resources from the class.

- **Other Requirements**

Active participation will help to make this class more valuable. Each student has an important contribution to make in the class, so please share information appropriately as it relates to the course material and professional development of fellow classmates.

All assignments must be submitted through Blackboard. It is also the responsibility of students to submit the work in a file that can be opened. Files that cannot be opened may be subject to a deduction in points until a file is received that can be opened.

Type, spell check and proofread all work submitted. A deduction in points will occur for work that contains grammatical and spelling errors.

- **Grading**

Grading Scale:

A 100-94%	B+ 89-88%	C+ 79-78%	D 69-60%
A- 93-90%	B 87-84%	C 77-74%	F 59-0
	B- 83-80%	C- 73-70%	

All grades and comments on work submitted will be posted on Blackboard. The final grade for the course will be determined based on the total number of points earned using the grading scale. The point scale breakdown for the final course grade will be as follows:

Final Course Grade (based on total number of points earned):

A 500 – 466 points	B+ 445 - 436 points	C+ 395 - 386 points	D 345 -296 points
A- 465 – 446 points	B 435 - 416 points	C 385 - 366 points	F 295 -0 points
	B- 415 -396 points	C- 365 - 346 points

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).

- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to Tk20 should be directed to tk20help@gmu.edu or <https://cehd.gmu.edu/aero/tk20>. Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

Notice of mandatory reporting of sexual assault, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Responsible Employee,” and must report all disclosures of sexual assault, interpersonal violence, and stalking to Mason’s Title IX Coordinator per University Policy 1202. If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as Student Support and Advocacy Center (SSAC) at 703-380-1434 or Counseling and Psychological Services (CAPS) at 703-993-2380. You may also seek assistance from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.

Mason is now partnered with TimelyMD to deliver **TimelyCare** – a new virtual mental health and well-being platform for students. The service provides 24/7 access to virtual care at no cost and augments the in-person and virtual mental health services that remain available to Mason students through Counseling and Psychological Services (CAPS) and Student Health Services (SHS).

How can students access TimelyCare?

Students can go to timelycare.com/gmu or directly download the **TimelyCare** app from the app store to register with their school email address. Students can then start visits from any web-enabled device – smartphone, tablet, laptop, or desktop – anywhere in the United States.

Who can use TimelyCare? Any enrolled Mason student.

What services are available?

- **Talk Now:** Unlimited on-demand mental health support 24/7, available to all Mason students throughout the world!
- **Health Coaching:** Unlimited access to health coaching, available to all Mason students throughout the world.
- **Scheduled counseling sessions:** Limited to 12 sessions per academic year, available to all Mason students throughout the United States. Students can choose the day, time, and mental health provider of their choice.
- **Psychiatry sessions:** Available to all Mason students throughout the United States by referral from CAPS, Student Health Services, or a **TimelyCare** counselor.
- **Self-Care Content:** Yoga and meditation sessions and group conversations

How much does a **TimelyCare visit cost?**

TimelyCare services are available at no cost to students.
