ECED 401.DL1 Developmental Pathways of Diverse Learners, Birth-Adolescence
3 Credits, Spring 2023
1/23/2023–5/17/2023, Online Asynchronous

Faculty

Name: Raymond Shorter, PhD
Office Hours: By Appointment
Office Location: Thompson Hall 1200, Fairfax Campus
Office Phone: 703-993-3844
Email Address: rshorter@gmu.edu

Prerequisites/Corequisites

None

University Catalog Course Description

Examines child and adolescent development from diverse perspectives. Addresses typical and atypical physical, social and emotional, language, and intellectual development. Explores role of individual differences and culture in understanding and interpreting child and adolescent development.

Course Delivery Method

This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on January 23, 2023.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers
To get a list of supported operation systems on different devices see: https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool. [Delete this sentence if not applicable.]
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a “fixed” meeting day, our week will start on Monday and finish on Sunday.
- Log-in Frequency: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least two times per week.
- Participation: Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues: Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support: Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Describe the physical, social, emotional, speech and language, and intellectual development of diverse learners from birth through adolescence and explain how to use these understandings to guide learning experiences and relate meaningfully to students.
2. Describe the major theories of development and critically examine the theories as they apply to the lives of culturally, linguistically, ability, and socioeconomically diverse children and their families, including children with economic, social, racial, ethnic, religious, physical, and intellectual differences.
3. Examine the transactional nature of overall development in the context of the family, community, socioeconomic status, and culture.
4. Identify environmental and biological/physical/medical at-risk factors that can contribute to possible developmental disabilities, developmental issues, and atypical development across the physical, social, emotional, speech and language, and intellectual domains.
5. Discuss the etiology of and use multiple criteria to identify developmental disorders, including attention deficit disorders, developmental disorders, and giftedness.
6. Identify typical developmental milestones of diverse children from birth through adolescence and their cultural and socioeconomic variations.
7. Observe and describe overall development in the physical, intellectual, speech and language, social, and emotional domains as it occurs in natural environments and through play.
8. Exhibit standards of professionalism, ethical standards, and personal integrity in interactions with classmates, the instructor, and others.
9. Use writing as an instructional and assessment tool to generate, gather, plan, organize, and to communicate for a variety of purposes; integrate correct written conventions (i.e., grammar, usage, mechanics, and spelling); and format using current APA style.

See Class Schedule for selected Position Statements from the Division of Early Childhood Education (DEC) of the Council for Exceptional Children (CEC), the National Association for the Education of Young Children (NAEYC), and the National Association for Gifted Children (NACG).

This course also requires reading published journal articles on human development. Example journals include the following: *Early Education and Development*, *Child Development*, and *Human Development*. These and other journals are available on the Mason library website.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

- **Assignments and/or Examinations**

Considering Developmental Theories Paper (9 points)

In order that all class members leave this course with an overview of the most prominent developmental theories in the field of early childhood education and gain a critical perspective on the values and liabilities of different theories and their application, students will prepare a review of a developmental theory and associated theorists. Grand theories covered in the text include psychodynamic theories, behaviorist theories, Piaget’s constructive theory, and

Vygotsky's sociocultural theory. Modern theories covered include evolutionary theories, social learning theories, information-processing theories, and systems theories. Students will compose a two-page summary capturing the key tenants of developmental theory and how it relates to children's developmental progression.

Students will select one perspective and provide a summary of the following:

- Important theorists associated with the paradigm
- Key tenets of the theory
- How theory explains cultural differences that are apparent in development
- How theory explains variation in development, including disabilities
- Weaknesses and strengths of theory
- The impact of the theory on education

Students may select one of the following theories:

- Erikson: Social Learning Theory
- Vygotsky: Social cultural
- Piaget: Constructivism
- Behaviorism: Operant conditioning
- Behaviorism: Classical conditioning
- Bronfenbrenner: Ecological

Students will demonstrate accurate knowledge of APA formatting within the paper and begin to engage with professional journals for early childhood educators. Accordingly, students will find 1 article from *Young Children* and one article from *Young Exceptional Children* (total of two articles) that provides complementary information related to the specific developmental theory. Information from each article will be briefly included in the two-page summary and show evidence of appropriate APA citations for different writing practices including summarizing with in-text citations and using direct quotes with in-text citations.

Developmental Milestones (21 points, 7 points each)

Students will prepare a one-page milestone reference document for infant/toddler (6 months), preschool/early childhood (3 years), and early elementary/middle childhood (8 years). Students will identify the major milestones for each of the following domains: physical, social and emotional, speech and language acquisition, and intellectual/cognitive development. Students will identify typical developmental progressions. Students will use the text and/or other course materials for this project. All information presented needs to come from these resources. Students should see Blackboard for detailed instructions.

Students will also highlight a specific developmental theory for each of the milestone charts prepared as outlined below.

- Piaget: Constructivism (infant/toddler)
- Vygotsky: Sociocultural (preschool/prekindergarten)
- Erikson: Psychosocial (primary)
- Behaviorism: Classical conditioning (any of the 3 age levels)
- Behaviorism: Operant conditioning (any of the 3 age levels)

Adolescent Development and Development of Gifted Students Assignment (5 points)

Using a popular film about adolescents, students will complete a two-to three- page paper written assignment that shows their understanding of (a) adolescent development and (b) the development of gifted students through adolescence, including developmental issues related to gifted education and the use of multiple criteria to identify gifted students.

Multiple Influences on Young Children’s Development Paper (15 points)

To demonstrate an understanding of the ways that child development and the learning process occur in multiple contexts, including family, culture, language, community, and early learning setting, as well as in a larger societal context that includes structural inequalities. Students will develop a five- to seven-page paper that describes how the following factors may impact child development and learning:

- family/family structure,
- socioeconomic status,
- language and culture,
- school,
- community, and
- social inequities.

Students will include a connection to Bronfenbrenner’s Ecological Systems Theory to support their analysis. Students will use in-text citations from the textbook, class discussions, **and at least three professional/peer-reviewed articles, book chapters, reports, etc.** to support their discussions. Students will include a reference list in APA style.

Case Study Analysis (25 points)

To demonstrate an understanding of the developmental period of early childhood from birth through age 8 across physical, cognitive, social and emotional, and linguistic domains, including bilingual/multilingual development, students will analysis a video case study, of their choosing, from one of three age groups: Infant/Toddler, Preschool, or Early Elementary. They will view the video and then write a seven-to-nine-page paper (plus the title and reference pages) that discusses the children’s unique characteristics and needs and describe at least one developmental theory that supports their analysis of the video vignette.

Part A: Students will describe the child’s unique characteristics and needs in relation to relevant developmental milestones. They will cite specific examples observed in the video cases and support their assertions with current research from the course textbook and/or other course materials, which may be supplemented by information from external scholarly sources. They will discuss each of the following areas:

- physical development,
- intellectual development,
- social and emotional development, and
- speech and language development.

Part B: For the case study analysis, students will also identify and discuss one major developmental theory that supports their analysis of the video vignette. These include

psychodynamic theory (Freud), psychodynamic theory (Erikson), behaviorist theory (classical conditioning), behaviorist theory (operant conditioning), Piaget's constructive theory, Vygotsky's sociocultural theory, evolutionary theory, social learning theory, information processing theory, and ecological systems theory. Students will explain how developmental theory informs educators' understanding of the child's development.

Students will use in-text citations and include a reference list formatted in APA style.

- **Other Requirements**

Attendance and Participation (25 points)

Active participation and engagement are imperative for optimal learning. Therefore, students will prepare for and participate in in-class and online activities. Students will be expected to do the following:

- Attend class, arrive on time, and stay for the entire class period for all in-person and online synchronous class sessions.
- Complete all online asynchronous work by the due dates.
- Use laptops and personal devices for instructional purposes only during in-person and online synchronous class sessions.
- Complete readings and prepare for class activities prior to class as evidenced by the ability to discuss, write about, and engage in activities related to the concepts presented and examined in the texts.
- Complete participation activities across the semester that complement the scheduled course topic. *Note: Instructors will periodically collect artifacts from the activities.*
- Support the participation and learning of classmates. Students in attendance and who actively engage in the learning experience will receive credit for their efforts. Graded participation activities are not announced and are implemented at the discretion of the instructor.
- Show evidence of critical reflective thinking through in-person, online synchronous, and online asynchronous discussions, activities, and written reflections.
- Display professional dispositions at all times when interacting with the instructor, classmates, and other professionals.
- Submit an attendance and participation self-evaluation.
- Students will write a brief journal reflection (at least 10 full lines of text with appropriate formatting [see Written Assignments]) for chapters 1 (4 points) and chapters 2, 3, 4, 5, 6, 7, and 8 (3 points each) and upload the reflection to Blackboard by 11:59 pm on the last day of the week of the required chapter reading. Reflections should avoid plagiarizing material from the article explanation or discussion posts. Students are actively involved in online learning experiences as evidenced by (a) participating in all activities, (b), completing written work related to the activities, and (c) supporting the participation and learning of classmates.

Written Assignments

All formal written assignments will be evaluated for content and presentation. The American Psychological Association, Seventh Edition (APA) style will be followed for all written work. All written work unless otherwise noted must be completed on a word processor and should be

proofread carefully. (Use spell check!) If students are not confident of their own ability to catch errors, they should have another person proofread their work. When in doubt, they should check the APA manual. Students may consult the Writing Center for additional writing support.

Students will do the following:

1. Present ideas in a clear, concise, and organized manner. (Avoid wordiness and redundancy.)
2. Develop points coherently, definitively, and thoroughly.
3. Refer to appropriate authorities, studies, and examples to document where appropriate. (Avoid meaningless generalizations, unwarranted assumptions, and unsupported opinions.)
4. Use correct capitalization, punctuation, spelling, and grammar.
5. Type the paper with double spacing, indented paragraphs, 1-inch margins all around, and 12-point Times New Roman font.

• **Grading**

A+ = 98 – 100 A = 93 – 97 A- = 90 – 92 B+ = 87 – 89 B = 83 – 86 B- = 80 – 82
 C+ = 77 – 79 C = 70 – 76 D = 60 – 69 F = < 60

Incomplete (IN): This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control.

All CEHD students are held to the university grading policies as described in the Academic Policies section of the current catalog, which can be accessed at <http://catalog.gmu.edu>. Those students seeking Virginia initial teaching licensure must earn a C or better in all undergraduate licensure coursework.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times. See <https://cehd.gmu.edu/students/policies-procedures/>.

Class Schedule

Module	Topics	Assignments & Readings Due
Week 1 Jan 23-29	Introductions Syllabus and Assignments Review Studying Human Development <ul style="list-style-type: none"> • Historical beliefs • Grand and modern theories of development • Methods to study development 	Lightfoot et al., Chapter 1
Week 2 Jan 30 – Feb 5	Biological and Cultural Foundations of Development <ul style="list-style-type: none"> • Development in the context of culture 	Lightfoot et al., Chapters 2, 3

	<ul style="list-style-type: none"> • Development in the context of family • Biological/physical/medical factors that contribute to development <p>Prenatal Development and Birth</p> <ul style="list-style-type: none"> • The prenatal period • Maternal conditions and teratogens • Etiology of developmental disorders • The newborn 	DEC Position Statement: <i>Low Birth Weight, Prematurity, and Early Intervention</i>
Week 3 Feb 6-12	<p>Infancy: The First Three Months</p> <ul style="list-style-type: none"> • Brain development • Theories of early development 	Lightfoot et al., Chapter 4
Week 4 Feb 13-19	<p>Infancy: Physical and Cognitive/Intellectual Development</p> <ul style="list-style-type: none"> • Physical growth and brain development • Fine and gross motor development • Cognitive/intellectual development • Attention and memory • Selecting appropriate resources 	Lightfoot et al., Chapter 5 Due to Bb (2/13): Considering Developmental Theories
Week 5 Feb 20-26	<p>Infancy: Social and Emotional Development</p> <ul style="list-style-type: none"> • Infant emotions • Relationships • Communication • Guide learning experiences 	Lightfoot et al., Chapter 6
Week 6 Feb 27 – Mar 5	<p>Early Childhood: Speech and Language Acquisition</p> <ul style="list-style-type: none"> • Phonological, semantic, grammar, and pragmatic development • Theories of language acquisition 	Lightfoot et al., Chapter 7
Week 7 Mar 6-12	<p>Early Childhood: Physical and Cognitive/Intellectual Development</p> <ul style="list-style-type: none"> • Theories of development • Physical growth and health • Fine and gross motor development 	Lightfoot et al., Chapter 8 NAGC Position Statement: <i>Redefining Giftedness for a New Century: Shifting the Paradigm</i>

	<ul style="list-style-type: none"> • Cognitive/intellectual development, including students with disabilities/disorders and those who are gifted 	Due to Bb (3/6): Developmental Milestones (Infant/Toddlers)
Week 8 Mar 13-19	Spring break, no class	
Week 9 Mar 20-26	<p>Early Childhood: Social and Emotional Development</p> <ul style="list-style-type: none"> • Identity and moral development • Developmentally appropriate expectations for self-regulation and behavior • Nurturing social and emotional development, including children with disabilities/disorders and those who are gifted <p>Applying Development to Learning Experiences</p> <ul style="list-style-type: none"> • Meeting the needs of culturally, linguistically, and socioeconomically diverse and ability-diverse children and their families • Selecting culturally and linguistically appropriate resources • Guiding learning experiences and making them meaningful to students, including students with developmental disabilities/disorders and those who are gifted 	<p>Lightfoot et al., Chapter 9</p> <p>NAGC Position Statement: <i>Nurturing Social and Emotional Development of Gifted Children</i></p> <p>NAEYC Position Statement: <i>Developmentally Appropriate Practice in Early Childhood Programs Serving Children From Birth Through Age 8</i></p>
Week 10 Mar 27 – Apr 2	<p>Family, Cultural, and Community Contexts of Development</p> <ul style="list-style-type: none"> • Parenting and development • Communities and culture influence on development • The role of media on early development • Intersectionality and social identity • Structural racism 	<p>Lightfoot et al., Chapter 10</p> <p>Due to Bb (3/27): Developmental Milestones (Preschool/Early Childhood)</p>
Week 11 Apr 3-9	<p>Middle Childhood: School as a Context for Development</p>	<p>Lightfoot et al., Chapter 12</p>

	<ul style="list-style-type: none"> • School readiness <p>Addressing developmental disabilities/disorders, giftedness, and developmental differences in schools</p>	
Week 12 Apr 10-16	<p>Middle Childhood: Physical and Cognitive/Intellectual Development</p> <ul style="list-style-type: none"> • Theories of development • Individual differences, including disabilities/disorders and giftedness • Using multiple criteria to identify gifted students, including measuring IQ 	<p>Lightfoot et al., Chapter 11 NAGC Position Statement: <i>Identifying and Serving Culturally and Linguistically Diverse Gifted Students</i></p>
Week 13 Apr 17-23	<p>Middle Childhood: Social & Emotional Development</p> <ul style="list-style-type: none"> • Theories of development • Moral development • Parental and peer influence 	<p>Lightfoot et al., Chapter 13</p> <p>Due to Bb (4/17): Multiple Influences on Young Children’s Development Paper</p>
Week 14 Apr 24-30	<p>Adolescence: Physical and Cognitive/Intellectual Development</p> <ul style="list-style-type: none"> • Theories of development • Puberty and physical development • Moral development <p>Adolescence: Social and Emotional Development</p> <ul style="list-style-type: none"> • Regulating emotions • Parent and peer relationships • Identity 	<p>Lightfoot et al., Chapters 14, 15</p> <p>Due to Bb (4/24): Developmental Milestones (Early Elementary/Middle Childhood)</p>
Week 15 May 1-7		<p>Due to Bb (5/5): Attendance and Participation Self-Evaluation</p> <p>Due to Bb (5/7): Adolescent Development and Development of Gifted Students Assignment</p>
Reading Days May 8-9	No Class	
Finals Week May 10-17		Due to Bb (5/15): Case Study Analysis

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <http://ds.gmu.edu/>).
- Students must follow the university policy stating that all sound emitting devices shall be silenced during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to viahelp@gmu.edu or <https://cehd.gmu.edu/aero/assessments>. Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>.

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking: As a faculty member, I am designated as a “Non-Confidential Employee,” and must report all disclosures of sexual assault, sexual harassment interpersonal violence, and stalking to Mason’s Title IX Coordinator per [University Policy 1202](#). If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as [Student Support and Advocacy Center](#) (SSAC) at 703-380-1434 or [Counseling and Psychological Services \(CAPS\)](#) at 703-993-2380. You may also seek assistance or support measures from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website: <http://cehd.gmu.edu>.
