Office Hours: By appointment in person, via phone or email.
Course Term: Spring 2023

Course Description

This course provides candidates in the Education Leadership Program with an intensive and extensive set of field experiences in a variety of school settings. In the first semester, candidates plan the internship experience, and over the next year enact their internship, reflect, and document internship experiences, and prepare a culminating online portfolio that summarizes their accomplishments.

Course Delivery

This is delivered in a **hybrid** format, with face-to-face sessions and synchronous and asynchronous delivery format when online.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox is required (note: Opera and Safari are not compatible with Blackboard).
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Internship Requirements

All candidates seeking state licensure in *PK-12 Administration & Supervision* are required by both the state and other accrediting agencies to complete a standards-based internship. The internship provides opportunities to apply theory to practice within a broad range of leadership and administrative tasks. The central focus of the internship is on planning, experiencing, and reflecting on major responsibilities in school administration and supervision. The internship focuses on the development of skills in the seven areas defined within the NELP Standards for Building Leaders.

Students registered for EDLE 791 should be taking EDLE 690 – Using Research to Lead School Improvement or should have already completed this class. (As a culminating activity in the EDLE 690 class, students develop a plan for implementing an internship improvement project that becomes the capstone field experience within their internship.)

Students complete a set of required activities that scaffold to each of the NELP standards, representing approximately half of the internship activities. One of the distinctive features of the internship within the EDLE program is that the remaining portion of the internship is designed based on a self-assessment of leadership competencies and career objectives. Your internship plan is based on dialogue with your university supervisor (the instructor for this class) and site supervisor (a licensed administrator you choose, typically from your home school), and your assessment of the leadership experiences that best demonstrate your knowledge and ability to perform the leadership proficiencies embodied in the NELP standards.

Other reminders:

Plagiarism Statement: Plagiarism means using the exact words, opinions, or factual information from another person without giving that person credit. Writers give credit through accepted documentation styles, such as parenthetical citation, footnotes, or endnotes; a simple listing of books and articles is not sufficient. Plagiarism is the equivalent of intellectual robbery and cannot be tolerated in an academic setting (Statement of English Department at George Mason University).

Plagiarism and the Internet: Copyright rules also apply to users of the Internet who cite from Internet sources. Information and graphics accessed electronically must also be cited, giving credit to the sources. This material includes but is not limited to e-mail (do not cite or forward someone else's e-mail without permission), newsgroup material, information from websites, including graphics. Even if you give credit, you must get permission from the original source to put any graphic that you did not create on your web page. Shareware graphics are not free. Freeware clipart is available for you to freely use. If the material does not say "free," assume it is not. Putting someone else's Internet material on your web page is stealing intellectual property. Making links to a site is, at this time, okay, but getting permission is strongly advised, since many Web sites have their own requirements for linking to their material.

Academic Integrity & Inclusivity: This course embodies the perspective that we all have differing perspectives and ideas and we each deserve the opportunity to share our thoughts. Therefore, we will conduct our discussions with respect for those differences, meaning we each have the freedom to express our ideas, but we should also do so keeping in mind that our colleagues deserve to hear differing thoughts in a respectful manner, i.e., we may disagree without being disagreeable. <http://integrity.gmu.edu/>
