University Catalog Course Description

Provides experience using research skills to foster systematic and thoughtful inquiry into classroom practice. Explores relevant classroom practice issues through critical writing, action, and research. Emphasizes cultural diversity, language, and gender issues in research.

Course Overview

The purpose of this course is to provide participants with: a) a foundation for implementing critically reflective, systematic, and thoughtful inquiry into classroom practice, b) a developing perspective on the cultural, linguistic, and ability diverse learner variables in 21st century classrooms, c) opportunities to understand and augment research skills, and d) emergent knowledge on how critical reflection and teacher professional knowledge and dispositions frame their classroom practice. Practitioners explore relevant classroom practice issues through writing, reflections, exploring and experimenting with action research approaches, and sharing their work in a collaborative setting. Through the critical examination of action research and experimentation with action research strategies and approaches, teachers come to recognize the value of classroom inquiry as a way to make more informed decisions about their educational practice. Participants give special attention to cultural and linguistic diversity and their own cultural backgrounds as they inform their approaches to teaching and learning, begin to explore other cultural dimensions in the consideration of research questions, puzzlements, and the conduct of research.

Course Delivery Method

This course will be delivered online (76% or more) using synchronous and asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal.

You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on 5/26/23.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. For a list of Blackboard's supported browsers see:
https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
 - GMU email is to be checked **daily**.
- Students will need a headset microphone for use with the Zoom web conferencing tool.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week:
Because asynchronous courses do not have a “fixed” meeting day, our week will start on Tuesday and finish on Monday.
We will have scheduled synchronous sessions during our semester. Attendance is required. You will be informed of the dates for synchronous meetings.
- Log-in Frequency:
Students are expected to visit our Blackboard site *at least* three times during the week: Once at the beginning of each week, once in the middle of the week, and then again at the end to read any new posts and replies. In addition, students must log-in on time for all scheduled online synchronous meetings.
- Participation:
Students are expected to actively engage in all course tasks throughout the semester, which include viewing of all course materials, completing course activities and assignments, reading/listening to weekly syntheses, completing all readings, and participating in course discussions and group interactions. It is expected that you will monitor your participation and be able to complete all tasks on-time without reminder.
 - Remember this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus.

- You should plan to spend *at least* 10 hours a week engaged in coursework (including reading).
- Students are expected to adhere to a 24-hour turnaround time for emails.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students are expected to seek assistance if they are struggling with technical components of the course. Help can be obtained via the Blackboard Help links in your course site (for Blackboard technical issues) and by contacting your instructor (for issues with other technologies utilized in the course).
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not** self-paced. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:
Our goal is to be **collaborative**, not combative. Experience shows that even an innocent remark in the online environment can be misconstrued. I suggest that you always re-read your responses carefully before you post them to encourage others from taking them as personal attacks. Be positive in your approach to others and diplomatic with your words. I will do the same. Remember, we are not competing with each other, but sharing information and learning from one another. Agreement is not mandatory, but respect and open-minded consideration are.
- Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Professional Standards

Upon completion of this course, students will have met the following professional standards: EDUC 612 is aligned with the NBPTS propositions, specifically:

- Proposition 3: Teachers are responsible for managing and monitoring student learning;
- Proposition 4: Teachers think systematically about their practice and learn from experience; and
- Proposition 5: Teachers are members of learning communities.

EDUC 612 is also aligned to the three additional principles that guide the ASTL Core:

- Principle 6: Teachers account for the needs of culturally, linguistically, and cognitively diverse learners; and
- Principle 7: Teachers are change agents, teacher leaders, and partners with colleagues
- Principle 8: Teachers use technology effectively to facilitate student learning and their own professional development.

The content of EDUC 612 additionally aligns with aspects of the International Baccalaureate (IB) Advanced Certificate in Teaching and Learning Research, with a particular focus on the following Areas of Inquiry and Domains of Knowledge:

Area of inquiry 1: Contemporary issues in IB education

- Domain A.– Identification, clarification, and articulation of contemporary issues in the IB context

Area of inquiry 2: Linking theory to practice in an IB context

- Domain D. Identification and selection of source material
- Domain E. Critical reading and reflection

Area of inquiry 3: Building capacity for practitioner research

- Domain H. Developing relevant research questions
- Area of inquiry 4: Researching practice
- Domain L. Application of planning and scoping processes in IB contexts
 - Domain M; Collection, analysis, interpreting and reporting of evidence

Required Texts

Choose a text from the *Rethinking Schools* book catalog: <https://rethinkingschools.org/books/>

Note: Select a book that has the potential to help you think about and respond to your teaching and classroom in new ways. Additionally, the book, *Planning to Change the World*, is an excellent planning tool, but should not be chosen by itself as your text for this class. It would make a powerful accompaniment if you'd like to purchase it in addition to your text for this course.

Additional weekly assigned articles will be available on Blackboard.

Program files, such as the Portfolio Guidelines and related articles will be housed on the ASTL Program Site. This site will be the central location for all cohort information and communication from now through the completion of your program. This is also where you will upload your ASTL Reflection Points at the conclusion of each Core course.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA/SLL, hard copy).

- **Assignments**

	<i>Points</i>
Weekly Class Engagement	30
Critical Reflection	
Teacher Beliefs Graphic & Statement (10)	25
Reflective Journal Entries (15)	
Autobiographical Study	40
ASTL Program Portfolio Reflection Point: EDUC 612	5
<i>Total Points</i>	100

Weekly Class Engagement (30 points)

Weekly class engagement includes multiple aspects of engagement in our course content, including: the weekly class experiences incorporating reflective practice, critical inquiry, posing potential research questions, and action research procedures; critical discussion of

scholarly readings with a focus on developing critical reflective capacity (includes engagement with readings through your *Dialectical Notebook*), and creation of the website for your ASTL program portfolio. In addition to being present each week and maintaining your *Dialectical Notebook*, this part of your grade also includes quality participation and investment in dialogues and professionalism in all communication with your professor and your peers (including engagement as a critical friend who supports and challenges). See Rubric.

Critical Reflections (30 points). The following reflections will serve as a scaffold for the larger Autobiographical Study, a course performance-based assessment (PBA).

- A. **Teacher Beliefs Statement (10 points).** Surfacing and understanding our beliefs about teaching and the impact of those beliefs on the educational experiences we create (or don't create) is foundational to developing as a critically reflective educator. To begin this journey, first you will construct a graphic (mindmap/bubble chart) that identifies your beliefs and your accompanying classroom actions. Then you will translate that chart into a short 3-5 page paper (your Teacher Beliefs Statement). The paper should include references; note the reference page does not count as part of the page limit. This is a course performance-based assessment (PBA). See Rubric.
- B. **Reflective Journal Entries (15 points).** Participants will maintain an online reflective journal throughout EDUC 612. This journal, which will be written to prompts, is designed to help participants develop a habit of mind of putting thoughts to paper and will scaffold course learning leading to the Autobiographical Study. Systematic and regular journaling will be used to provide evidence of growth as a reflective educator and will provide experience in reflection as a data collection source for the Autobiographical Study and forthcoming research in the Core. Each week will involve reflective writing. See Rubric. Excerpts and representations from your journals will be incorporated into the Autobiographical Study.

Autobiographical Study (40 points)

Participants will draw from their narratives, teaching, and research experiences, course materials, *Dialectical Notebook*, and focused reflections to provide the rationale and foundation for their autobiographical study. Participants will incorporate a variety of genres (e.g. narratives, poems, images, videos, audio, artifacts, etc.) within their Autobiographical Study that capture their experiences and identities as individuals, learners, and teachers. The purpose of this study is for educators to begin with Self as they provide an avenue to examine their own learning experiences and teaching practices and focus on how these and their growing understanding of new dimensions, such as culture, language, and critical reflection, relate to their teaching practices. The Autobiographical Study emphasizes and demonstrates critical reflective practice. Examples will be provided in class. See Rubric.

Electronic submission should be posted to the Blackboard Assessments link (VIA/SLL). Your Autobiographical Study will be created using a Web 2.0 tool, Prezi, or web site. [Note: Please copy the URL to a Word document before submitting to Blackboard *and* remember to include the password, if using a protected site.]

Other Requirements

ASTL Professional Portfolio Reflection Point

The **ASTL Professional Portfolio** is a program level performance-based document that provides concrete evidence of teacher learning and knowledge development throughout the Advanced Studies in Teaching and Learning Program while linking the ASTL program requirements with national, state, and institutional professional standards. Program participants begin the portfolio in EDUC 612 and develop its content across the Core and remaining Concentration coursework. In EDUC 612, the portfolio structure is created. At the conclusion of this course, you will write your first portfolio reflection point: EDUC 612. The reflection point is designed to connect knowledge attained through the Core course content and course products to the program learning outcomes and your own growth and development. It is written in response to the reflection prompt described in detail below.

PROMPT FOR ASTL PORTFOLIO REFLECTION POINT: EDUC 612

Teacher as Critical Reflective Educator

In this reflective narrative, you will focus on how coursework, related readings, and products in EDUC 612 have led you to think more deeply about critical reflective practice and who you are as a learner and educator.

First, reflect on your learning and your perceived growth and change at this point in the Core.

Then, construct a written reflection that captures the following:

I used to think...

Now I think...

What this means for me

In your reflection, connect to any of the applicable eight program learning outcomes and the ways in which the performance assessments in this course provide evidence of your knowledge. Also, within your reflection identify program experiences that have most impacted your thinking and your teaching practices (including selected PBAs, course readings, activities, and other learning experiences).

Required course products to be used as evidence of knowledge:

- Autobiographical Study (EDUC 612)
- Teacher Beliefs Statement (EDUC 612)

Other suggested products for inclusion:

- Written reflections, as selected by individual (such as excerpts from journals)

Guidelines and suggested format for each of the Reflection Points

Length: Aim to limit your response to two well written single-spaced pages

Focus: Each Reflection Point should include a short description, but will focus on *interpretation* and *analysis* of learning by synthesizing knowledge attained from that learning component of the Core coursework.

Format: Each reflection point *describes*, *interprets*, and *examines* why and how the course product(s) provide evidence of the ASTL principles addressed in that learning module. Here you should also discuss the impact of this course/learning module on your teaching practice *and* its impact on P-12 student learning.

- **General Requirements**

- A. Please note that this online course is **not self-paced**. You will be expected to complete one learning module every week. It is critical for each student to complete all readings and activities on a weekly basis. Class ‘attendance’ is both important and **required**. If, due to an emergency, you will not be participating in course activities on time, you must contact your instructor prior to their due time.
- B. All assignments are due no later than **11:59 PM EDT** of the date indicated in each week’s assignments published in the **COURSE SCHEDULE AND TOPICS** section of this Syllabus. Due dates are also posted on our Bb course site.
 - a. **Grades for assignments date-stamped in Blackboard after the due date will be reduced by 10%, unless prior approval from instructor has been granted. No late submissions will be accepted after the course end date.**
 - b. Assignments earning less than a passing grade may be rewritten and resubmitted so that the assignment is satisfactorily completed. In fact, because learning is the goal, I may *require* you to redo an assignment that is far below expectations.
- C. Please adhere to the assignment submission instructions listed in this Syllabus. Only assignments submitted as indicated will be graded; incorrect submissions will result in a grade of zero for those assignments.
 - a. All assignments submitted should have the filename format LASTNAME-ASSIGNMENT TITLE. Do not upload written assignments in PDF format. Other editable formats are acceptable (i.e., .doc, .docx, .rtf, .ppt, .pptx, .xlsx, .xlxs). **ONLY** supporting documents for assignments can be in PDF format.
- D. *All written work* should be carefully edited for standard grammar and punctuation, as well as clarity of thought. All submitted work should be prepared through word processing and reflect **APA style (7th edition)**, as well as **double-spaced, with 1” margins, and 12-point font** (Times New Roman, Calibri, or Arial).

- **Instructor Role**

- Although I will be monitoring online discussion forums, my participation within them will be limited as I want discussions to be authentic between members. **Please note that during this time, I will be noting the quality and extent of your participation.**
- In order to link your work with that of your peers and with the weekly topic, I will make weekly synthesis posts that capture the big ideas shared across discussions that week. Students are expected to read/listen to the synthesis posts to aid the transition into the next week.
- I will adhere to a 24-hour turnaround time for emails during the week and 48-hours on weekends and holidays.

- **Grading**

| 95-100=A | 90-94=A- | 86-89=B+ | 83-85=B | 80-82=B- | 70-79=C | Below 70=F |

Professional Dispositions

See <https://cehd.gmu.edu/students/policies-procedures/>

Students are expected to exhibit professional behaviors and dispositions at all times. ASTL will distribute the program’s Statement of Dispositions at the outset of the program, which all participants are expected to sign as an indication of their commitment as professionals.

Class Schedule

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.
