University Catalog Course Description

Provides future classroom teachers with the knowledge, skills, and dispositions needed to create a healthy and active school environment and help children and youth reach the daily recommended minimum number of minutes of physical activity. Examines school health topics such as nutrition, communication, mental health, and safety promotion.

Course Overview

The course is designed to help classroom teachers create healthy and active school environment and to help children and youth reach the daily recommended minimum number of minutes of physical activity. Resources to facilitate physical activity in a classroom with little or no equipment and in limited spaces will be shared. School health topics such as nutrition, communication, mental health, and safety prevention will be examined along with ways to integrate physical activity and other content areas.

Course Delivery Method

This course will be delivered using a lecture format with integrated hands-on activities.

Learner Outcomes or Objectives

This course is designed to enable students to do the following

1. Explain the concepts of a Whole School, Whole Community, Whole Child (WSCC) and a Comprehensive School Physical Activity Program (C-SPAP).
2. Identify and explain the content areas of school health instruction.
3. Demonstrate a basic understanding of community health and advocacy.
4. Create safe and developmentally appropriate activities that integrate movement and other content areas.
5. Explain the benefits of lifetime physical activity.
6. Find resources to teach health topics that are age-appropriate.
7. Find resources to embed physical activity within a lesson.
8. Propose activities that will promote a healthy and active school environment.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, or hard copy as requested).

Assignments and Examinations^[SEP]

Participation/Preparation

25 pts

Will include work that need to be done in preparation for class including readings, online discussion boards (4 posts), and active participation in class.

Autobiographical Statement

5 pts

Students will prepare a written autobiographical statement discussing their past experiences with health and PE, and physical activity in K-12 education.

Healthy and Active Event

10 pts

Students will develop a schoolwide proposal for an event promoting a healthy and active school environment. Virtual presentation.

Peer Teaching Activity

10 pts

Students will conduct two activities, one which fosters relationships and the other reinforcing rules, routines, and expectations, while utilizing their classmates as students and conducted within standard classroom.

Physical Activity Teaching Lab

10 pts

Students will teach their peers an activity they have created or found online (or via other resources) that can be done in a restricted space (e.g. the classroom) or during recess, and that will get students moving without requiring specialized equipment and extensive organization.

Curriculum Integration Activity

10 pts

Students will develop a lesson for a self-selected content area (e.g. mathematic) and imbed in that lesson an activity that integrates physical movement to convey the content selected. They will then teach that activity to their peers.

Health Mini-lesson

10 pts

Students will design a 5-minute mini-lesson on a pre-selected health topic and teach it to their peers.

Mid-term

10 pts

Will include the material covered from the beginning of the semester until the time of the exam. The exam will be a combination of true/false, multiple choices and short answer questions.

Final

10 pts

The exam will be partially cumulative with more than the majority of the questions focused on the material covered from the mid-term until the end of the semester and the rest of the exam focused on specific content from the midterm.

The exam will be a combination of true/false, multiple choices and short answer questions.

Other Requirements^[1]_{SEP}

In accordance with the GMU Attendance Policies (University catalog, 2023-2024), “Students are expected to attend the class periods of the courses for which they register. In-class participation is important to the individual student and to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness or early departure as de facto evidence of non-participation.”. Therefore, as part of the Participation/Preparation grade, the following scale will be used:

- o One (1) absence is permitted
- o Two (2) “tardies”* = 1 absence
- o Two (2) “early departures”* = 1 absence
- o 3-4 absences = -5%
- o 5 absences or more = -10%

*Attendance is taken no later than 5 minutes of the official start time. A student will be considered late once attendance has been taken. Leaving more than 15 minutes before the end of the class will be considered an early departure.
