Children’s Literature for Teaching in Diverse Settings
Spring 2024
ELED 258 Section DL1
3 credits
Location: Distance Education/Blackboard
Workweek: Tuesday 12:00am – Monday 11:59pm

Instructor	Professor: Dr. Mandy Bean Office Hours: By appointment via internet/phone Office: Thompson 1460 – Fairfax Campus Office Phone: Please email Email: abean5@gmu.edu
Recommended Prerequisite:	C or better in ENGH 101
Course Description	Introduces children's literature as a tool for working with children across a range of contexts, including early childhood and elementary classrooms. Explores multiple approaches and strategies for literature use in diverse settings with an eye towards format, genre, curricular connections, and overall utility. <i>This course fulfills the Mason Core Literature requirement.</i>
Course Overview	This course broadly and deeply examines literature for children in preschool through Grade 6. The focus is on selecting and using appropriate books for children in a variety of diverse contexts including literature-based reading and content area instruction. In addition, students explore multiple instructional approaches and strategies for literature use in diverse settings.
Course Methodology And Technical Requirements	This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on Jan 11, 2024. Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication. <i>Technical Requirements</i> To participate in this course, students will need to satisfy the following technical requirements: <ul style="list-style-type: none"> • High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers

To get a list of supported operation systems on different devices see:

https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems

- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player:
<https://support.microsoft.com/en-us/help/14209/get-windows-media-player>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- Course Week: Because asynchronous courses do not have a “fixed” meeting day, our week will start on **Tuesday at 12:00 am and finish on Monday at 11:59 pm EST**. In other words, a new class will post on Tuesday at 12:00 am and all weekly assignments are due by the following Monday night by 11:59 pm.
- Log-in Frequency
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials **at least 5 times per week**.
- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions boards.
- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not self-paced**. Students are expected to meet specific deadlines and due dates listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due. Weekly course work is due during the week of the assigned lesson. It will not be accepted at the end of the semester. In addition, there are no extra-credit opportunities to make up for missed course work.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. You can meet with the instructor via telephone or web

	<p>conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.</p> <ul style="list-style-type: none"> • Netiquette: The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. <u>Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses.</u> <i>Be positive in your approach with others and diplomatic in selecting your words.</i> Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications. • Accommodations: Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services. • Artificial Intelligence: Use of Generative-AI tools should be used following the fundamental principles of the Honor Code. This includes being honest about the use of these tools for submitted work and including citations when using the work of others, whether individual people or Generative-AI tools.
<p>Learner Objectives</p>	<p>Upon completion of the course, students will be able to:</p> <ol style="list-style-type: none"> 1. Read and comprehend the content of various kinds of children’s books with attention to detail, nuance, and literary qualities and literary devices (INTASC 4) (Mason Core Literature Outcomes 1 and 3) 2. Plan for meeting the needs of diverse classroom populations including disabilities, SES, ethnicities and race, gender, and linguistic diversity. (INTASC 1, 2, 3) 3. Integrate children’s literature across content areas (INTASC 1, 4, 5, 7) 4. Describe why learning communities and motivation are important and describe the major strategies for motivating students. (INTASC 1, 3, 5) 5. Identify genres in children’s literature and collect, read, and categorize books based on these genres (INTASC 3, 4, 5, 7) 6. Engage in book discussion to deepen knowledge about and appreciation of children’s literature in conjunction with language arts content standards and the historical and cultural contexts within which the literature is situated (INTASC 4, 5, 8) (Mason Core Literature Outcome 4) 7. Plan for and use various instructional strategies including presentation, direct instruction, concept teaching, cooperative learning, problem-based learning, and classroom discussion and adapt each to meet the needs of diverse students. (INTASC 8) <p><i>This course fulfills the Mason Core Literature requirement and addresses the following learning outcomes:</i></p> <ol style="list-style-type: none"> 1. Students will be able to read for comprehension, detail, and nuance. 3. Analyze the ways specific literary devices contribute to the meaning of a text. 4. Identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced.
<p>Required textbook(s) and/or materials</p>	<p>Schneider, J. J. (2016). <i>The inside, outside, and upside downs of children’s literature</i>. Retrieved from http://scholarcommons.usf.edu/childrens_lit_textbook/</p> <p>Additional required readings will be posted on Blackboard.</p>

Course Website	<p>Blackboard will be used for this course. You can access the site at ELED 258, Section DL1.</p> <p>NOTE: Username and passwords are the same as your Mason email account. You must have consistent access to an internet connection in order to complete the assignments in this course through Blackboard (http://mymason.gmu.edu). Note the technology requirements for School of Education is in your Blackboard course menu—it contains details of minimum technology requirements.</p>
Participation	<p>Learning can only happen when you are playing an active role. It is important to place more emphasis on <i>developing your insights and skills</i>, rather than transmitting information.</p> <p>Knowledge is more important than facts and definitions. It is a way of looking at the world, an ability to interpret and organize future information. An active learning approach will more likely result in long-term retention and better understanding because you make the content of what you are learning concrete and real in your mind.</p> <p>Although an active role can look different for various individuals, it is expected in this class that you will work to explore issues and ideas under the guidance of the professor and your peers. You can do this by reflecting on the content and activities of this course, asking questions, striving for answers, interpreting observations, and discussing issues with your peers.</p>
Rules and Expectations	<p>In correspondence/communication students will be expected to:</p> <ol style="list-style-type: none"> a) Be professional and respectful in correspondence; please always sign your emails with your full name, course you are in, and your G#; it is helpful for the professor. b) Make reasonable requests of the instructor. I will be happy to clarify course material and answer legitimate questions; however, please exhaust other information sources (e.g., syllabus, Blackboard) for answering your question before contacting me and remember, <i>“Poor planning on your part does not constitute an emergency on my part”</i>. <p>In regard to honesty in work students will be expected to:</p> <ol style="list-style-type: none"> a) Review the University integrity and honesty policies in the student handbook for guidelines regarding plagiarism and cheating (summarized below). I will gladly clarify my stance on any questionable or “grey area” issues you may have. b) Refrain from dishonest work as it will receive a minimum penalty of zero on the assignment and a maximum penalty of a zero for the course with a report to the Honor committee. The GMU Honor Code requires that faculty submit any suspected Honor Code violations to the Honor Committee. Therefore, any suspected offense will be submitted for adjudication. c) Please see information on Artificial Intelligence above.
Individuals with Disabilities	<p>Students with documented disabilities should contact the Office of Disability Services (703) 993-2474) to learn more about accommodations that may be available to them.</p>
Academic Integrity and Inclusivity	<p>This course embodies the perspective that we all have differing perspectives and ideas and we each deserve the opportunity to share our thoughts. Therefore, we will conduct our discussions with respect for those differences. That means, we each have the freedom to express our ideas, but we should also do so keeping in mind that our colleagues deserve to hear differing thoughts in a respectful manner, i.e. we may disagree without being disagreeable. http://oai.gmu.edu/</p>
Student Privacy Policy	<p>George Mason University strives to fully comply with FERPA by protecting the privacy of student records and judiciously evaluating requests for release of information from those records.</p>

	Please see George Mason University's student privacy policy: https://registrar.gmu.edu/students/privacy/																												
E-Mail Policy	Mason uses electronic mail to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly.																												
Course Grading & Evaluation	<p>Students are expected to submit all assignments on time in the manner outlined by the instructor. Blackboard will be used for uploading assignments. Late assignments will automatically lose 1 point per day.</p> <p>Please be aware of the due dates on Mondays by 11:59pm. This includes larger assignments*, weekly assignments, and the discussion board responses and replies (*unless specified in the syllabus).</p> <table border="1" data-bbox="370 701 1076 1360"> <thead> <tr> <th>Grade</th> <th>Grading</th> <th>Interpretation</th> </tr> </thead> <tbody> <tr> <td>A+</td> <td>97-100</td> <td rowspan="3"><i>Represents mastery of the subject through effort beyond basic requirements</i></td> </tr> <tr> <td>A</td> <td>93-96</td> </tr> <tr> <td>A-</td> <td>90-92</td> </tr> <tr> <td>B+</td> <td>87-89</td> <td rowspan="5"><i>Reflects an understanding of and the ability to apply theories and principles at a basic level</i></td> </tr> <tr> <td>B</td> <td>83-86</td> </tr> <tr> <td>B-</td> <td>80-82</td> </tr> <tr> <td>C+</td> <td>77 – 79</td> </tr> <tr> <td>C</td> <td>73 – 76</td> </tr> <tr> <td>C-</td> <td>70-72</td> <td rowspan="3"><i>Denotes an unacceptable level of understanding and application of the basic elements of the course. Assignment Due Dates	<p>Unless otherwise stated, all assignments are due by the end of the work week in which they are assigned. For the purposes of this course, a week is defined as beginning at 12:00 am each Tuesday EST, and ending at 11:59 pm on the following Monday EST.</p> <p>Late assignments will automatically lose 1 point per day.</p>																												
Discussion Board Assignment (3 pts each): 42% of final grade	Your challenge is to immerse yourself in the topics and perspectives presented in the course. You will want to be able to comment on the discussion topics with authority. You are encouraged to make notes on your own thoughts about the various concepts and issues, and consider possible issues/outcomes. Your posts should be to the point and include sufficient technical detail for others to respond. You should present your opinions, but justify them with facts and proper sources. <i>What did you agree/disagree with and why?</i>																												

There will be 3 student groups: **Group A**, **Group B** and **Group C**. You will be placed in a group during the first week of class and begin posting according to the groups during the second week. You will use written words or videos to post. I note which is expected each week.

You will take turns being **LEADERS** and **RESPONDERS**. There will be a rotation each week.

PLEASE PAY CLOSE ATTENTION TO THE DAYS/TIMES. It is vital for the community that each person adheres to the schedule. This allows for *productive* conversation to occur on the discussion board.

Exceptions: *There are two weeks where EVERYONE posts by Thursday night: Week 1 and 12. You will have an original post (video or written words) and respond to at least THREE classmates on those weeks (you can respond by video or written words). See the Discussion Board for information for those weeks.*

Weeks 2-11 and Weeks 13-15:

LEADERS: Write an original post with own thread by Thursday night at 11:59 pm. (Ergo, you have, from Tuesday 12:00am – Thursday 11:59pm to make this post.)

Please post an appropriate response to the prompts. This post should be 250-300 words in either written or video format. Please provide a response with a clear, well-formulated thesis; sentence structure, grammar, punctuation, and spelling count when in written form. Support ALL posts with ideas from readings and/or videos – a lack of these will be a deduction of points. Also please write or speak in a way that encourages others to respond to your post. **I encourage you to ask prompting questions to motivate peers to respond to your post.**

RESPONDERS: Write a response to at least **THREE** leader threads by Sunday at 11:59pm (Ergo, from Friday 12:00am – Sunday 11:59pm to respond to three posts.)

Responses to *at least* three classmates' postings should be approximately 50-200 words and should be thoughtful, substantial, polite and more extensive than a simple "well done" phrase or "I agree." Refer to the **Discussion Board ideas: Effectively responding to a Peer's Post** document located on Blackboard. Consider points of agreement, disagreement, assumptions, and value judgments. You may respond directly to the leaders' prompt or to another responders' post.

LEADERS: Respond to posts from peers on your thread with 25-200 words by Monday 11:59PM. There are 24 hours to respond to a post, but you can do this as soon as someone posts – no need to wait! It will make for a livelier discussion board 😊

DUE:

Leaders will make at least one original post by **Thursday 11:59 PM, EST.** **Responders** will post by **Sunday 11:59 PM, EST.** **Leaders** will close out thread by **Monday 11:59 PM EST.**

Notes:

- *You are always welcome to respond with a video – it makes the discussion board quite interactive and more of a community when we are talking back and forth! Ultimately, threads should have lots of posts with lots of ideas, thoughts and opinions! I will chime in occasionally – but this is YOUR class – and your TIME to engage! 😊 Call out classmates if you want someone's opinion or ask probing questions!*
- **Once a new discussion thread is provided every Tuesday at 12:00am: you can no longer earn points on the previous week's discussion board.** Ergo, it is your

	<p><i>responsibility to respond to posts during the active week. Missed discussion boards cannot be made up. Once they are over, you can longer earn points.</i></p>

hasn't already been chosen by more than one other person. *Only two people may choose the same author.*

- You will research your selected children's book author (who has written at least 5 books).
- You will closely read the author's works (at least 3 texts) and analyze them for themes, content, and literary elements, comparing titles through a critical literacy lens in order to examine:
 - Variations of themes/content and literary elements in books (use the chart of literary elements as you analyze each of the books you read)
 - How the author's craft has evolved over time
 - The author's unique contribution to children's literature
- Include: a discussion of the contribution of the author's use of specific literary devices to contribute to the text's meaning and a discussion of the social, political, historical, and cultural contexts in which the author's work is produced. Use the Anti-Bias Checklist in your analysis of the author's books.
- You will write a 3-4-page essay describing your findings.
- Your paper should include a strong thesis and summary statement, biographical background information on the author, an analysis of the works you read (minimum 3 texts must be read and analyzed), and a discussion of the author's contributions to children's literature. Include a reference list of the books included and sources cited in the analysis. PLEASE NOTE: You **MUST** include at least three references of course materials.
- **In the case of author-illustrators such as Mo Willems, you will need to analyze how illustrations and text work together to convey meaning, (noting artistic style, craft, techniques.)

DUE: End of Week 14 on MONDAY MAY 5th

Professional Dispositions	Students are expected to exhibit professional behaviors and dispositions at all times. See https://cehd.gmu.edu/students/policies-procedures/
Mason Honor Code	The complete Honor Code is as follows: <i>To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code: Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work. (catalog.gmu.edu)</i>
Cheating Policy	Any form of cheating on an activity, post, or project will result in zero points earned. "Cheating" includes, but is not limited to, the following: reviewing others' papers, having ANY resources utilized when not allowed, collaborating with another student during an individual assignment, presenting information about texts that comes directly from another source that is not referenced. If you have questions about when the contributions of others to your work must be acknowledged and appropriate ways to cite those contributions, please talk with the professor or utilize the GMU writing center.
Plagiarism and the Internet	Copyright rules also apply to users of the Internet who cite from Internet sources. Information and graphics accessed electronically must also be cited, giving credit to the sources. This material includes but is not limited to e-mail (don't cite or forward someone else's e-mail without permission), newsgroup material, information from Web sites, including graphics. Even if you give credit, you must get permission from the original source to put any graphic that you did not create on your web page. Shareware graphics are not free. Freeware clipart is available for you to freely use. If the material does not say "free," assume it is not. Putting someone else's Internet material on your web page is stealing intellectual property. Making links to a site is, at this time, okay, but getting permission is strongly advised, since many Web sites have their own requirements for linking to their material. Review the Honor Code here.

Unless otherwise stated, all assignments are due by the end of the week in which they are assigned. For the purposes of this course, a week is defined as **beginning at 12:00 am each Tuesday EST, and ending at 11:59 pm on the following Tuesday EST.**

To help you manage your schedule and time to complete the assignments in this course, please follow the recommended timeline below. If you have a question or concern or encounter a problem about an assignment, please contact Dr. Bean **immediately** so we can discuss and work out a resolution.

All assignments and lessons are subject to change.
