EDRD 610. [6F6] – Content Literacy for English Language Learners, PK-12
3 Credits, Spring 2024
Online via Blackboard

Faculty

Name: Sujin Kim

Office Hours: By Appointment

Office Location: 2604 Thompson Hall

Email Address: skim222@gmu.edu

Prerequisites/Corequisites

Required Prerequisites: [EDCI 519](#)B- and [520](#)*B-.

* May be taken concurrently.

B- Requires minimum grade of B-.

University Catalog Course Description

Focuses on research-based instructional strategies for integrating development of English learners' academic language and literacy skills with learning of content concepts across grade levels and disciplinary areas. Emphasizes sociocultural practices that leverage ELs' social, cultural, linguistic, and knowledge capitals to strengthen academic achievement in content classrooms. Requires 15 hours of PK-12 classroom fieldwork.

Course Overview

This course provides a specific focus on content area literacy for English language learners (ELs) and other language minority (LM) students at all levels. Candidates in this course will examine literacy research and instruction related to teaching specific subject matter including social studies, science, mathematics, and the arts to ELs. Participants critically analyze and demonstrate teaching approaches for English literacy and biliteracy in content areas. An important goal for this course is promoting collaboration between grade-level teachers, as well as literacy and language personnel, to support the academic success of ELs and LM students. The cultural context of learning is also considered. Among the topics addressed are: sociocultural and sociopolitical dimensions of teaching academic content; principles for content area instruction; identity and self-concept formation; learning and collaboration across the curriculum; differentiated instruction for ELs/LM students; strategies for reading and writing for academic purposes; formative assessment in the content areas; analyzing resources and materials; dimensions of learning social studies, science, and math content; students with interrupted schooling; critical literacy; and advocacy in support of academic equity for language learners.

Course Delivery Method (Online)

This course will be delivered online (76% or more) using an asynchronous format via Blackboard Learning Management system (LMS) housed in the MyMason portal. You will log in to the Blackboard (Bb) course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on Monday, January 15, 2024.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

This online course is **not self-paced**. You will be expected to complete one module every week. Completing a module includes reading, participating in discussions with the whole class, and completing any accompanying assignments and/or activities associated with that module. You are asked to engage deeply with the subject matter, to take risks in your thinking, and to listen to and learn from your classmates.

Course Week: This course is asynchronous: Because asynchronous courses do not have a “fixed” meeting day, each weekly module will **start** on **Wednesday** and **finish** on **Tuesday**.

Absences: Candidates are expected to fully participate every week in the discussions and activities in online courses for which they registered. Students should contact the professor ahead of any non-participation online. Only approved (see Mason catalog) absences will not result in a grade penalty. Unless extreme circumstances prevail that have been communicated to the instructor, **candidates who fail to fully participate online for two weeks will be considered to have two absences in this course and will not be permitted to complete the class.**

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard’s supported browsers see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#supported-browsers
- To get a list of supported operation systems on different devices see:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support#tested-devices-and-operating-systems
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students will need a headset microphone for use with the Blackboard Collaborate web conferencing tool. [Delete this sentence if not applicable.]
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

- The following software plug-ins for PCs and Macs, respectively, are available for free download: [Add or delete options, as desire.]
 - Adobe Acrobat Reader: <https://get.adobe.com/reader/>
 - Windows Media Player: <https://windows.microsoft.com/en-us/windows/downloads/windows-media-player/>
 - Apple Quick Time Player: www.apple.com/quicktime/download/

Expectations

- **Course Week:** Because asynchronous courses do not have a “fixed” meeting day, each module will start on **Wednesday**, and finish on **Tuesday**.
- **Log-in Frequency:**
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course **materials at least 3-4 times per week**.
- **Participation:**
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:**
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:**
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:**
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:**
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:**
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

- Accommodations:
Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

1. Identify language and literacy skills critical for EL/LMS success in the content areas.
2. Plan and execute literacy activities across a range of content areas for EL/LMS.
3. Apply first and second language acquisition theory and praxis to developing literacy, especially reading /writing, for older EL/LMS in the content areas.
4. Utilize current theory and praxis in literacy and bi-literacy to analyze resources and materials for teaching middle school/secondary EL/LMS in the content areas.
5. Analyze research from newer perspectives concerning implications for teachers of older children and youth from culturally diverse and second language backgrounds.
6. Use scaffolding approaches to teach pre-reading, during-reading, and post-reading and writing strategies.
7. Model for students reading and writing strategies appropriate to various learning tasks in content area subject matter.
8. Develop performance-based assessment activities in determining the content instruction for EL/LMS.
9. Identify major pedagogical approaches to teaching reading and writing and explain applicability to teaching older English language learners of various language backgrounds and ability.

Professional Standards: TESOL Standards, InTASC (Interstate Teacher Assessment and Support Consortium) Standards and CAEP (Council for the Accreditation of Educator Preparation) Standards

Upon completion of this course, students will have met the following professional standards:

Initial TESOL Pre-K-12 Teacher Preparation Programs Standards

Standard 1: Knowledge about Language

Candidates demonstrate knowledge of English language structures, English language use, second language acquisition and development, and language processes to help English Language Learners (ELLs) acquire academic language and literacies specific to various content areas.

- 1a. Candidates demonstrate knowledge of English language structures in different discourse contexts to promote acquisition of reading, writing, speaking, and listening skills across content areas. Candidates serve as language models for ELLs.
- 1b. Candidates demonstrate knowledge of second language acquisition theory and developmental process of language to set expectations for and facilitate language learning.
- 1c. Candidates demonstrate knowledge of language processes (e.g., interlanguage and language progressions) to facilitate and monitor ELLs' language learning in English.

1d. Candidates apply knowledge of English academic language functions, learning domains, content-specific language and discourse structures, and vocabulary to promote ELLs' academic achievement across content areas.

Standard 2: ELLs in the Sociocultural Context

Candidates demonstrate and apply knowledge of the impact of dynamic academic, personal, familial, cultural, social, and sociopolitical contexts on the education and language acquisition of ELLs as supported by research and theories. Candidates investigate the academic and personal characteristics of each ELL, as well as family circumstances and literacy practices, to develop individualized, effective instructional and assessment practices for their ELLs. Candidates recognize how educator identity, role, culture, and biases impact the interpretation of ELLs' strengths and needs.

2a. Candidates demonstrate knowledge of how dynamic academic, personal, familial, cultural, and social contexts, including sociopolitical factors, impact the education of ELLs.

2b. Candidates demonstrate knowledge of research and theories of cultural and linguistic diversity and equity that promote academic and social language learning for ELLs.

2c. Candidates devise and implement methods to understand each ELL's academic characteristics, including background knowledge, educational history, and current performance data, to develop effective, individualized instructional and assessment practices for their ELLs.

2e. Candidates identify and describe the impact of his/her identity, role, cultural understandings, and personal biases and conscious knowledge of U.S. culture on his/her interpretation of the educational strengths and needs of individual ELLs and ELLs in general.

Standard 3 Planning and Implementing Instruction

Candidates plan supportive environments for ELLs, design and implement standards-based instruction using evidence-based, ELL-centered, interactive approaches. Candidates make instructional decisions by reflecting on individual ELL outcomes and adjusting instruction. Candidates demonstrate understanding of the role of collaboration with colleagues and communication with families to support their ELLs' acquisition of English language and literacies in the content areas. Candidates use and adapt relevant resources, including appropriate technology, to effectively plan, develop, implement, and communicate about instruction for ELLs.

3a. Candidates plan for culturally and linguistically relevant, supportive environments that promote ELLs' learning. Candidates design scaffolded instruction of language and literacies to support standards and curricular objectives for ELLs' in the content areas.

3d. Candidates plan strategies to collaborate with other educators, school personnel, and families in order to support their ELLs' learning of language and literacies in the content areas.

3e. Candidates use and adapt relevant materials and resources, including digital resources, to plan lessons for ELLs, support communication with other educators, school personnel, and ELLs and to foster student learning of language and literacies in the content areas.

Standard 4 Assessment and Evaluation

Candidates apply assessment principles to analyze and interpret multiple and varied assessments for ELLs, including classroom-based, standardized, and language proficiency assessments. Candidates understand how to analyze and interpret data to make informed decisions that promote

English language and content learning. Candidates understand the importance of communicating results to other educators, ELLs, and ELLs’ families.

4b. Candidates demonstrate understanding of classroom-based formative, summative, and diagnostic assessments scaffolded for both English language and content assessment. Candidates determines language and content learning goals based on assessment data.

Standard 5 Professionalism and Leadership

Candidates demonstrate professionalism and leadership by collaborating with other educators, knowing policies and legislation and the rights of ELLs, advocating for ELLs and their families, engaging in self-assessment and reflection, pursuing continuous professional development, and honing their teaching practice through supervised teaching.

5a. Candidates demonstrate knowledge of effective collaboration strategies in order to plan ways to serve as a resource for ELL instruction, support educators and school staff, and advocate for ELLs.

5b. Candidates apply knowledge of school, district, and governmental policies and legislation that impact ELLs’ educational rights in order to advocate for ELLs.

5c. Candidates practice self-assessment and reflection, make adjustments for selfimprovement, and plan for continuous professional development in the field of English language learning and teaching.

Interstate New Teacher Assessment and Support Consortium (InTASC) & International Society for Technology in Education (ISTE) Standards

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, Grade Center and VIA). **It is strongly recommended that candidates develop an organized plan for working on the major assignments throughout the semester.**

VIA Performance-Based Assessment Submission Requirement

(Philosophy of Teaching (update) and the Content Literacy Project.)

Every student registered for any Teaching Culturally, Linguistically Diverse & Exceptional Learners program course with a required performance-based assessment is required to submit this assessment and the Fieldwork Log of Hours and Evaluation Forms to VIA through Blackboard (regardless of whether the student is taking the course as an elective, a one-time course or as part of an

undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in VIA through Blackboard. Failure to submit the assessment to VIA (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required VIA submission, the IN will convert to an F nine weeks into the following semester.

Field Experience Record and Evaluation (use the Field Experience Log and Evaluation Form at the end of the syllabus)

The **field experience is a required component** of the teacher preparation program at George Mason University. All students will complete a minimum of **15 hours in field experience** for this course. Documentation of your field experience is required as well as a signed statement from your field experience teacher(s) or supervisor(s). If you are taking more than one course in a semester, you must complete 15 hours per course (e.g., two courses require 30 hours of field experience). This means you may be completing different tasks for different courses in the same placement. Materials and products used for one course cannot be used for another course (e.g., videos, lesson plans, activities, etc.)

***TCLDEL Fieldwork Log of Hours and Evaluation Forms must be uploaded to VIA and on Blackboard.** The forms are located on Blackboard in your TCLDEL organization site in the “Fieldwork” page.

In-service teachers and Instructional Assistants: Field experience can often be conducted in your own classroom if you have access to the population of students required for the PBAs and other assignments. Please consult your instructor if you have questions about the viability of your classroom for fieldwork in this class. You will need your instructor’s approval and your building administrator’s approval before you can begin to complete your hours. The deadline to submit your field experience placement to your instructor is Week 2 of class. Failure to do so will result in an unsatisfactory grade for your fieldwork assignment.

Pre-service teachers: If you are not currently working in a K-12 school, or you are substitute teacher in a K-12 school, you will need to be placed in an appropriate fieldwork setting to complete your required PBAs and fieldwork hours. You must request a fieldwork site using the online Field Experience Request Form (FERF) available here: <https://cehd.gmu.edu/endorse/ferf>.

You will check the box indicating that: “I request to be placed by the Clinical Practice Coordinator for my field experiences” - this includes observations and/or case studies. If you are site-based substitute or have a long-term substitute contract (placed in one classroom for multiple weeks), you will select “I will complete my field placement in my own classroom...” and then email the Clinical Practice Coordinator at fieldexp@gmu.edu to let them know you are a long-term sub or site-based sub. They will need to collect additional information from you.

The deadline to submit your field experience placement is Week 2 of class, but we highly recommend you submit your FERF at the end of your first week of class once you know which of your courses require field experience hours. Failure to submit a FERF request will result in an unsatisfactory grade for your fieldwork assignment. You will be required to enter the course

name/number and instructor for each of your courses that require field placement. You will only be able to submit one FERF request per semester.

Loudoun County Public School Instructional Assistants: Please contact your instructor for guidance.

Grading

At George Mason University, course work is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation or not fewer than two hours per week of laboratory work throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality. The university-wide system for grading graduate courses is as follows:

Grade	GRADING	Grade Points	Interpretation
A+	=100	4.00	Represents mastery of the subject through effort beyond basic requirements
A	94-99	4.00	
A-	90-93	3.67	
B+	85-89	3.33	Reflects an understanding of and the ability to apply theories and principles at a basic level
B	80-84	3.00	
C*	70-79	2.00	Denotes an unacceptable level of understanding and application of the basic elements of the course
F*	<70	0.00	

Note: “C” is not satisfactory for a licensure course; “F” does not meet requirements of the School of Education

Students must maintain a 3.0 average and a grade of B or higher for licensure and master’s degree. *All course assignments and field experience activities must be satisfactorily completed before the final grade is awarded.*

See the University Catalog for details: <http://catalog.gmu.edu/policies/academic/grading/>

Honor Code & Integrity of Work

Integrity of Work: TCLDEL students must adhere to the guidelines of the George Mason

University Honor Code (<https://catalog.gmu.edu/policies/honor-code-system/>). The principle of academic integrity is taken very seriously and violations are treated as such.

Violations of the Honor Code include:

1. Copying a paper or part of a paper from another student (current or past);
2. Reusing work that you have already submitted for another class (unless express permission has been granted by your current professor **before** you submit the work);
3. Copying the words of an author from a textbook or any printed source (including the Internet) or closely paraphrasing without providing a citation to credit the author. For examples of what should be cited, please refer to: <https://owl.english.purdue.edu/owl/resource/589/02/>
4. You may also not “reuse” fieldwork hours. Each placement must have 15 documented hours that are solely for each course that you are in; you may be at the same site, but the same hours may not be counted towards the same course.

Late Work Policy

At the graduate level all work is expected to be of high quality and submitted on the dates due. *Work submitted late will be reduced one letter grade for every day of delay.* Because we live in uncertain times, if you have any extraordinary circumstances (think flood, earthquake, evacuation) that prevent you from submitting your work in a timely manner, it is your responsibility to contact the instructor as soon as possible after the circumstances occur and make arrangements to complete your work. *It is up to the discretion of the instructor to approve the late/makeup work.*

Course Withdrawal with Dean Approval

For graduate and non-degree students, withdrawal after the last day for dropping a course requires approval by the student's academic dean, and is permitted only for nonacademic reasons that prevent course completion (Mason catalog). *Students must contact an academic advisor* in APTDIE to withdraw after the deadline. There is no guarantee that such withdrawals will be permitted.

Online Participation/Attendance Policy

Students are expected to participate in **all** online discussions. Not participating in an online discussion module will be reflected with a zero for the week and as an absence. **Students with two or more absences will not receive credit for the course.**

Incomplete (IN)

This grade may be given to students who are in good standing, but who may be unable to complete scheduled course work for a cause beyond reasonable control. The student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 9th week. Unless an explicit written extension is filed with the Registrar's Office by the faculty deadline, the grade of IN is changed by the registrar to an F (Mason catalog). Faculty may grant an incomplete with a contract developed by the student with a reasonable time to complete the course at the discretion of the faculty member. The faculty member does not need to allow up to the following semester for the student to complete the course. A copy of the contract will be kept on file in the APTDIE office.

Course Assignment Descriptions

Each assignment is described below. Evaluation criteria for each of the Performance-Based Assessments in this course are located at the end of the syllabus. **Faculty reserves the right to alter the schedule as necessary, with notification to students.**

Class Attendance & Informed Participation (35%)

Class participation in an online asynchronous course is evidenced by thorough and thoughtful completion of **all** activities in the Weekly Modules. These activities **are opportunities for candidates to demonstrate thorough engagement with all course content (readings, videos, PowerPoints, etc.) in the Weekly Modules.** While your current knowledge as an educator is important to your understandings, demonstrating the way that engagement with the course content expands your understanding as a reflective practitioner is expected and necessary for earning full participation points. That is, candidates' work within each Weekly Module must reflect thorough preparation, which will be evidenced by critically analyzing, asking questions, making observations, and sharing reflections as well as by offering specific examples for incorporating learning from the course into their current or future teaching practice with culturally and linguistically diverse learners. **Class participation will be assessed via the rubric provided on Blackboard.**

Candidates are expected to complete an initial Discussion Board post by Sunday midnight and to respond briefly but thoughtfully to two peers' posts by Tuesday midnight. Initial Discussion Board posts must be two well-developed paragraphs, written in professional language, that synthesize candidates' thinking around the prompts for the post with insights gained through readings/videos in the Weekly Module. In other words, the questions in the prompts are meant to spark thinking and connections to candidates' experiences and to the course content rather than to be addressed question by question. Candidates should cite texts (in parenthesis) from course readings that are referred to in the post. Full citations below the post are NOT needed unless the candidate is referring to texts outside of the course. Candidates should AVOID the overuse of direct quotes in Discussion Board posts. Rather, please use your own words to paraphrase and weave together connections among texts with your own thinking. Responding to peers' posts represents an opportunity to deepen the dialog by posing thoughtful questions for peers and sharing thinking around the weekly content. Responses to peers' posts can be a few sentences to a paragraph and must be thoughtful and respectful.

Micro-Teaching Applications & Reflections (Using GoReact)

The purpose of this assignment is twofold: first, it is designed to assist you in developing a culturally and linguistically responsive teaching lesson as part of the course's PBA: Content Literacy Project; second, it aims to offer you a valuable opportunity to put theories into practice and learn from one another. Thus, for this assignment, you will progressively work on the final project, focusing on one section in multiple weeks. Starting in Week 4, you'll be responsible for preparing and teaching 3-8 minute lesson segments to a small group of English Learners (ELs) or a whole

class that includes ELs at your field site. You'll specifically concentrate on a particular section, with the recording length being determined by the content of that section. To facilitate your completion of the final assignment, especially the reflection section, you are required to write a brief self-reflection about your teaching and post it on Blackboard. While peer responses to these self-reflections are strongly encouraged, the response posts will not be graded, because you will be required to comment on GoReact. Consider this as a placeholder for your thoughts and an opportunity to share additional information with the group, helping your peers to gain a better understanding of your teaching video. Your reflection may address one or several of the following questions:

- Did this segment of your lesson proceed as you expected/planned? Please describe.
- What aspects of teaching this lesson segment went well? What aspects were challenging, if any?
- How did the ELs/MLs react to your instruction? If you were to teach this lesson segment again, what changes would you make to address challenges identified above?
- What insights have you gained about your instruction? Why is this self-awareness important?

Content Literacy Project (35%) – This is a Performance-Based Assessment (PBA)—Submit on Blackboard assignment link & VIA by midnight of the due date.

Goal: Plan collaboratively with other colleagues to improve language, literacy, and content instruction for ELL/LMS and reflect upon literacy practices across the curriculum for ELL/LMS.

Tasks

1. Create a Lesson Plan (5%)

Building upon your learning in the course, you will implement a lesson in a K-12 ESOL classroom. **For the Content Literacy Project, you must create a lesson plan.** You may use your own classroom for this project, but you will be expected to confer with other stakeholders (e.g., colleagues, parents, and other resource teachers, such as reading/literacy specialists, ESL specialists, and content area teachers), in order to plan, teach, and reflect upon a lesson with clear content and language objectives.

1. Using the assessment data and preliminary teaching plan created in your teaching context and collaboration in this course, identify the specific content you wish to teach to ELs.
2. Consider the background knowledge you may need to build to teach this lesson. Think about the prior content knowledge students will need to understand this lesson and any gaps you may need to address.
3. Consider the academic language demands of the specific content that you wish to teach and develop content and language objectives for the lesson. Ask yourself, “What do the

students need to understand or be able to do with language to engage with the content in this lesson?"

4. Select at least two instructional strategies listed in class text(s) for inclusion in the lesson plan that support the content and language goals. Think about any scaffolds you may need to include to allow ELs with developing language proficiency levels to fully participate in the lesson.
5. Plan learning activities that incorporate high levels of student-to-student interaction and require students to use academic language in authentic, contextualized ways read, write, listen, and speak about the content concept. Consider the way that ELs' L1 may be useful in supporting language and content learning in the lesson.
6. Embed formative assessments in your lesson plan so that instruction and assessment are integrated.
7. Include a digital tool(s) in the lesson plan and note any adaptive materials that would be included. Only design activities that are tailored specifically for this semester and for this course.
8. Share the draft lesson plan with class members and receive feedback from your peers.
9. Review the feedback and make changes to your lesson plan.
10. Use the lesson in your classroom and keep anecdotal notes and/or student work samples to help you recall important information about the experience.
11. Reflect on the content literacy plan and its implications for future teaching using the evidence you have collected; tie your conclusions to the research on integrating content and language instruction with ELs.

2. Implement the Lesson and Videorecord Content Literacy Lesson (10%)

Implement your content-area lesson plan with a small group of ELs OR a whole class that includes ELs in your field site. For this assignment, you will record a 20-25 minute content literacy lesson and share your video using GoReact.

3. Write Your Report (20%)

Part A- Introduction (2 pgs)

- Describe the students in the class (e.g., age range, grade level, language proficiency levels, language backgrounds, socioeconomic backgrounds, etc.).
- Indicate and briefly describe the purpose and basic content covered in the class.
- State the factors you considered that led you to design the lesson, such as, the need to foster skill development in a certain area or the need to support understanding of a particular content area skill or concept, in order to enhance student motivation through the innovative use of specific content area literacy strategies.
- Briefly describe how you collaborated with your colleagues and what you learned from them to develop the lesson.
- Briefly describe how you collaborated with parents or other stakeholders.
- Show why the strategies you chose are precisely relevant to your students' needs.
- *Justify your choices using the course readings.*

Part B- Analysis of Instruction after you implemented the lesson plan (3 - 4 pgs)

1. State the student content and language learning objectives and explain why you chose them (e.g., rationale for these instructional goals).
2. Document any adaptations needed in the lesson to suit individual student needs.
3. Briefly summarize how you implemented the strategies and your use of technology.
4. Describe students' reaction/behaviors in response to your instruction. Overall, did the reaction appear to be positive, neutral, or negative? Did some students appear to respond favorably while others had a different response? Was the response to instruction based on individual student differences or group differences?
5. Did you meet your goals for instruction? How do you know? Provide examples/support.
6. Did students meet the content and language objectives? How do you know? Provide examples/support.

Justify your thinking using the course readings.

Part C-Conclusions and Reflections (3-4 pgs)

1. What did you learn about the nature of language, literacy, and content area instruction for ELs by using the strategies?
2. What is the role of collaboration in planning and implementing content area literacy for ELs?
3. How can ESOL teachers work to improve teaching in the content areas to foster ELs' academic language and literacy development and increase their academic achievement inside and outside of the ESOL classroom?
4. What information do you believe is critical for content area teachers to know about academic language and literacy development to support academic achievement for ELs?
5. What additional knowledge, training, experiences do ESOL and content area teachers need to effectively support ELs' academic language and literacy development and acquisition of content?
6. How might literacy specialists/coaches work with ESOL teachers to improve the literacy skills of ELs and prepare them to meet the demands of learning across the curricula? Be sure to use course readings to support your comments in this section.
7. Document how this project expanded your understanding of ways to collaborate to build partnerships with colleagues and/or students' families and why this effort is important in strengthening ELs' academic language and literacy development and content learning.

Justify your thinking using the course readings.

Part D-References

Cite the relevant course readings and other professional theory and research on literacy, language, and/or content area instruction for ELs to justify and support your work for this project. Be sure to use APA-6 style for your references.

Philosophy of Teaching (Update) (15%) —This is a Performance-Based Assessment -- Submit on Blackboard assignment link & VIA by midnight of the due date.

Your paper must be 6-7 pages, double-spaced, using *Times New Roman 12-pt font* with one-inch margins. In this revised philosophy of teaching statement from your earlier version in EDCI 516, **you will need to incorporate new knowledge, theoretical concepts, practices, and perspectives from courses you took after EDCI 516 and reflect the way that these important concepts shape your instruction and provide a vision of your classroom with CLD learners.** In other words, your updated philosophy of teaching paper should be different from your earlier version in significant ways (the SafeAssign program will be automatically applied to assess your paper to identify whether you have significantly updated your paper. If your paper demonstrates over 50% overlap with the earlier version, it will not be acceptable as an updated paper). Importantly, you need to describe potential steps for sharing professional staff development strategies based on your own personal reflections and collaborative experiences with other colleagues, especially content-area teachers. Lastly, you need to describe how you will develop partnerships with colleagues and students' families as well as how you can be a community resource and advocate for your students.

Field Experience Log & Evaluation (S/U) – Submit on VIA by midnight of the due date (form attached at the end of syllabus)

EDRD 610: Content Literacy Project Rubric

	Category	TESOL Standard	Score			
			1	2	3	4
			Does Not Meet Standard	Approaches Standard	Meets Standard	Exceeds Standard
1	Understand and apply cultural values and beliefs in the context of teaching and learning to develop appropriate unit lesson plan	2a	Candidates may note that cultural values have an effect on ELL learning but not address this effect in content lesson plan.	Candidates plan instruction that reflects their knowledge of students' culture and how it impacts student learning.	Candidates design a unit lesson plan that allows students to make cultural connections to meet learning objectives with some inaccuracies or missed opportunities.	Candidates design a unit lesson plan that allows students to apply and share relevant cultural perspectives appropriately to meet learning objectives.
2	Engage in collaboration with parents, content-area teachers, resource teachers, and other colleagues to design lesson plan	3d	Candidates may note the value of collaboration but not demonstrate meaningful engagement.	Candidates collaborate with few stakeholders to design lesson plans that integrate language and content area learning.	Candidates provide some evidence of collaboration for planning and teaching that supports content-area and language skills in the lesson plan.	Candidates provide clear evidence of collaboration at various levels for planning and teaching that effectively supports content-area and language skills instruction throughout the lesson plan.
3	Demonstrate knowledge of current language teaching methods and the field of ESL to design effective ELL instruction	1b	Candidates are familiar with well-established teaching methodologies but provide no references to field of ESL	Candidates use limited knowledge of the field of ESL to provide instruction but make few references to assigned and/or optional readings.	Candidates use their knowledge of the field of ESL, including referencing assigned readings and best teaching practices, to make instructional and assessment decisions and design instruction for students	Candidates use their knowledge of the field of ESL, including referencing assigned and optional readings and best teaching practices, to make appropriate instructional and assessment decisions and design effective instruction for students

4	Plan standards based ESL and content instruction that creates a supportive and accepting classroom environment	3a	Candidates are aware of standards-based ESL and content instruction but do not address learning needs individually within the unit	Candidates plan and implement standards-based ESL and content instruction that uses some instructional models appropriate to individual student needs but does not allow for student collaboration	Candidates design standards-based ESL and content instruction that is occasionally student-centered and allows students to work collaboratively to meet learning objectives	Candidates effectively design standards-based ESL and content instruction that is consistently student-centered and requires students to work collaboratively to meet learning objectives
5	Provide for instruction that embeds assessment, includes scaffolding, and provides reteaching when necessary for student to successfully meet learning objectives	4b	Candidates note the importance of assessments to measure students' degree of mastery of learning objectives but do not use them to monitor instruction	Candidates plan lessons that link prior knowledge to learning objectives but use few or inappropriate assessments to monitor students' progress toward those objectives	Candidates plan lessons that integrate instruction and assessment, include scaffolding, and provide reteaching where necessary to help students meet learning objectives.	Candidates plan lessons that integrate instruction and assessment, are scaffolded appropriate to students' language proficiency levels, and provide reteaching where necessary to help students meet learning objectives.
6	Provide a variety of activities and materials that integrate listening, speaking, writing, and reading and develop authentic uses of language as students learn academic vocabulary and content area material	3e	Candidates note that integrated learning activities build meaning through practice and the need for authentic uses of academic language in content-area learning but do not incorporate these into the lesson plan.	Candidates provide few learning activities integrating language and content, or design activities that focus on either language or content, and miss opportunities to develop authentic and academic language.	Candidates design activities that integrate some language skills and content areas and develop authentic uses of academic language but may miss some opportunities to develop authentic or academic language.	Candidates design a variety of activities that consistently and effectively integrate language skills and content areas through authentic uses of academic language as students' access content-area learning material.
7	Select materials and other resources, including technological resources, that are appropriate to students' developing language and content-area abilities, including appropriate use of L1	3e	Candidates note differences between content-area materials for ELLs and those for native speakers and ways that technology can enhance language learning but do not use appropriate materials in lesson.	Candidates select few materials and resources or use them ineffectively to adapt instruction.	Candidates select some materials and resources, including technological resources, that integrate ESL and content areas, but some may not be appropriate to students' language proficiency levels.	Candidates develop and select a variety of materials and resources, including technological resources that effectively integrate ESL and content areas and are appropriate to students' language proficiency levels and uses of L1.

8	Clearly and professionally communicate detailed self-reflection and analysis of the unit lesson planning process	5c	Candidate did not provide description and critical reflection of unit lesson planning process and made no connections to overall teaching practice. Numerous major errors in writing obscure professional communication	Candidate provides minimal self-reflection with more description than critical analysis and provides few connections between unit lesson planning and overall teaching. Some major errors in writing limit professional communication	Candidate provides self-reflection with some description and analysis, makes some connections to teaching practice, and shares this knowledge with larger community of colleagues to enhance teaching and learning in a broader context. Minor errors in writing allow professional communication	Candidate provides well-written and detailed self-reflection and critical analysis, makes extensive connections to overall teaching practice, and shares this knowledge with larger community of colleagues to enhance teaching and learning in a broader context. Few language errors promote professional communication
