The course site will be available on May 13, 2023, at 12:00 am.

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed Internet access with standard up-to-date browsers. To get a list of Blackboard's supported browsers see: [Browser support \(https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support\)](https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support)
- Students must maintain consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course.
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.
- The following software plug-ins for PCs and Macs, respectively, are available for free download:
 - [Adobe Acrobat Reader: https://get.adobe.com/reader/](https://get.adobe.com/reader/)
 - [Windows Media Player: https://support.microsoft.com/en-us/help/14209/get-windows-media-player](https://support.microsoft.com/en-us/help/14209/get-windows-media-player)
 - [Apple Quick Time Player: www.apple.com/quicktime/download/](http://www.apple.com/quicktime/download/)

Expectations

- Course Week:

Because asynchronous courses do not have a “fixed” meeting day, our week will start on Mondays at 12:00am, and finish on Sundays at 11:59pm. Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.

- **Log-in Frequency:**
Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.
- **Participation:**
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:**
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:**
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:**
Please be aware that this course is not self-paced. Students are expected to meet *specific deadlines and due dates* listed in the Class Schedule section of this syllabus. It is the student’s responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:**
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:**
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations:**
Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Service.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

VIA Performance-Based Assessment Submission Requirement

There is no required performance-based assessment for this course.

Assignments and/or Examinations

Format: Learning a language on an online setting requires dedication, discipline, organization, and as much work (or more!) as learning in a face-to-face class. This course is a 4-credit course spread out to 15 weeks during the Fall/Spring semesters. For summer courses, it is more intensive as the same information will be condensed into 5 weeks. You should expect to have to work on this class for at least 4-8 hours a week to complete all assignments on a timely basis.

Vocabulary: Students will watch and learn the new vocabulary on Blackboard and refer to their textbook for any additional definitions. Students are expected to practice signing the new vocabulary as they watch the videos.

Vocabulary Quizzes: Students will have weekly quizzes administered via Blackboard. There is a time limit for quizzes, automatically submitted when they expire. All answers will be typed. Students can check the My Grades tab in Blackboard for points for each quiz which will tell how many signs are on the quiz.

Ex: Vocabulary Quiz #1 is worth 20 points = 20 vocabulary signs

Lessons and Assignments: Students will complete the weekly modules on **Blackboard**.

1. **Reading** – some assignments require you to read and find the answers in your textbook.
2. **Lesson/Assignment Question Formats**
 - a. **Multiple Choice** – select an answer.
 - b. **Multiple Answers** – select more than one answer total points indicates how many answers.
 - i. **Multiple Answer: Which of the following pronouns would...** Points: 2
(Multiple answer question – 2 points = 2 answers)
 - c. **True/False** - type the full word, not T/F.
 - d. **Hotspot** - click on the answer on the picture shown.
 - e. **Jumbled Sentences** - pick an answer from the drop-down list.
 - f. **Matching** - select the correct answer that matches the information given.
 - g. **Ordering** - put the answers in the correct order.

h. Fill in the Blank Questions

- i. Numbers** – enter the number (2, 9, 12, etc.)
 - ii. 1-word answers** – most questions require 1-word answers
 - iii. 2 or 3-word answers** - If you see (2-words) or (3-words) next to the question, enter the answer a space between the words.
 - iv. Parenthesis** – pick an answer given in parenthesis.
 - 1.** (bored/excited) – type one of the two answers
 - 2.** Example: (1st, 2nd, 3rd ...) – enter the answer in the given format. The ... means to infinity (4th, 5th, etc.)
 - v. Spelling** – will be deducted if not spelled correctly (use Google to double check your spelling)
 - vi. Abbreviations** – are not allowed except for ASL (American Sign Language)
 - vii. Capitalization** – is not required.
- 3. Answer Key** – correct answers will be shown/available after the due dates.
 - 4. My Grades Tab** – Check my grades tab in Blackboard for the assignment due dates.

Video Assignments: Students will complete video assignments using Flip links posted in the modules. Rubrics are posted on Blackboard to be used as a guide.

Note: For large classes, the instructor will assign students into two groups. An email will be sent with your assigned group and link.

1. GMU email address is required.
2. Use the link provided on Blackboard to sign up.
3. Instructions will be given on Blackboard and Flip.
4. Rubrics are posted on Blackboard with the Flip links.
5. Everyone will see each other's videos except for the Final Exam
6. Rephrasing – for some video assignments, students will be expected to rephrase what their classmate signed. Students will rephrase, **not copy** what is being signed.

Note: The purpose of this video is to **showcase the student's signing ability** and students will create either a **real or fake** situation based on the required criteria.

Utilize the vocabulary you have learned from the unit. Students will need to **rehearse** until they no longer need notes. Students are expected to look directly at the camera, can look away briefly at notes.

Editing ASL Videos: Students are required to edit their ASL videos.

1. Ensure the computer or tablet is on a firm surface (a desk or table). The video should remain stable – no movements.
2. Make sure the video is centered and visible where the instructor can see the top of the student's head and the bottom of the student's chest area as shown below.

3. If students use their phone, follow the format below:

4. Make sure your eyes are facing the camera, not looking to the side, above or below. Brief glances are acceptable for notes.
5. Make sure that the background is clean (one-colored wall) and free of “visual noise” (people, books, television, animals appearing, etc.).
6. The color of the student’s shirt should contrast their skin tone. Avoid red, yellow, and orange shades. If students have tattoos on their arms, they should wear long-sleeved shirts. Tank tops and string shirts are not allowed.
7. Remove hats and excessive jewelry. Wedding rings and small earrings are ok.
8. All videos must be submitted on Flip as one. Multiple edited/short clips are not allowed.
9. Review the quality of the videos before submitting.

Tests: The course objectives focus on the receptive use of ASL. There will be a test at the end of each unit. This course will cover units 1-4. It will be administered via Blackboard.

Note: The format of the test is similar to the format of the assignments in the weekly modules. The difference is the entire page of questions are shown for assignments, while the questions will be shown one at a time in random order for tests. There is a time limit for tests, automatically submitted when they expire.

Final Exam: The final exam is a comprehensive exam, which focuses on both the production and receptive use of ASL. Students will create a video post in Blackboard by the instructor with a time limit. They will need to respond to the instructor’s questions using Flip. A rubric will be provided.

Final Exam Waiver: If a student earns above 84% (B) in class after submitting all the required work, the Final Exam will be waived.

Note: Students who earn below 84% (B) are required to take the final exam.

Student Evaluations of Teaching:

The student evaluation of teaching, or SET, is an online course survey. You are strongly encouraged to complete this form for each course as this feedback helps instructors and administrators improve your class experiences. Towards the end of the course, you will receive email and Blackboard notifications when the evaluations open. Your anonymous and confidential feedback is only shared with instructors after final grades have been submitted. More information about the SET can be found on The Institute of Effectiveness and Planning website at <https://oiep.gmu.edu/set/>
