

George Mason University
College of Education and Human Development
Educational Psychology

EDRS 620.001/P01 – Quantitative Inquiry in Education (3 Credits)
Spring 2024
Mondays 4:30 p.m. - 7:10 p.m. Aquia Building 213 (Fairfax Campus)

Faculty

Name: Marvin Powell, Ph.D.
Office Hours: Mondays 2-4pm or By Appointment
Office Location: West Building, 2105, Fairfax Campus
Office Phone: (703) 993-1723
Email Address: mpowell11@gmu.edu
Zoom: <https://gmu.zoom.us/j/3739189483>
Course Assistant: Zikun Li | zli35@gmu.edu

Required Prerequisite: (EDRS 590^B).

^B Requires minimum grade of B.

University Catalog Course Description

Examines fundamental concepts and methods of statistics as applied to education problems, including descriptive and inferential statistics. Offered by the Graduate School of Education. May not be repeated for credit.

Course Overview

This course examines fundamental concepts and methods of statistics as applied to educational problems including descriptive and inferential statistics. The course explores hypothesis testing, correlational techniques, t-tests, analysis of variance, post-hoc comparison, factorial designs, regression, and non-parametric statistics.

Course Delivery Method

This course will be delivered in-person using a combination of lecture and lab format.

Learner Outcomes or Objectives

This course is designed to enable students to do the following:

- (1) Understand basic concepts, terminology, and assumptions pertinent to statistical analyses;
- (2) Identify the type of statistic appropriate for a given research question;
- (3) Use basic inferential statistics to test hypotheses;
- (3) Interpret statistical findings;
- (4) Compute, by hand and computer, basic statistical analyses;
- (5) Design the basic components of a small-scale quantitative research study;
- (6) Write clearly and coherently about the conceptual framework, research questions and methods used in a study;
- (7) Report statistical results in correct APA format.

Required Texts

- (1) Privitera, G. J. (2019). *Essential statistics for the behavioral sciences (2nd ed.)*. Sage.
- (2) Access to SPSS software. There are computer labs on campus that provide access to SPSS. You can access SPSS software through GMU's virtual computer library at <https://its.gmu.edu/service/citrix-virtual-lab/> It is the student's responsibility to ensure access to SPSS for class time and outside of class time to complete required assignments.
- (3) A simple nonprogrammable calculator that has a square root function.

Recommend Resource:

American Psychological Association. (2020). *Concise guide to APA style (7th ed.)*. *The standard version of the publication manual is also acceptable.

Statistics Study Tips:

1. Read widely; then read some more.
2. 'Google' difficult concepts. There is lots of helpful statistical information on the web.
3. Check for understanding frequently. This means that when a formula is presented, take time to see if you can explain how the formula works. If Greek letters are difficult for you, write out what each letter means.
4. Complete as many questions/problems as possible at the end of the chapters.
5. Develop examples of research questions and hypotheses that are appropriate for each statistical technique.
6. Form a study group.
7. Start the homework as soon as possible after class; waiting until the night before it is due does not help you process the material.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., Blackboard, VIA, hard copy).

- **Assignments and/or Examinations**

Online Quizzes (10%): Each week there will be a short quiz posted on Blackboard. The quizzes are composed of short answer and multiple choice items which will cover the basic concepts presented in class and in the textbook. Quizzes are timed (usually 60 minutes) and must be completed during the specified time period. These quizzes are designed to provide you (and me) with feedback about your course progress. Your quiz score cannot lower your overall course grade (unless you have received 0's on quizzes due to failure to complete them). You must complete the online quiz by midnight the day before class meets. *You are encouraged to take the quizzes soon after the class meeting; the purpose of the quiz is to help you to isolate key concepts from the class period and to focus your study time.*

Homework Assignments (20%): Assignments will be posted weekly on Blackboard. Each week's assignment will include problems that are recommended as well as problems that will be graded. The graded problems will be collected periodically (see course schedule). All assignments need to be completed by the beginning of the class on the due date. Some questions will ask you to explain statistical concepts, some will ask you to work out problems, and others will require you to run analyses using SPSS and interpret results. You must **show all of your work** for any problem that you complete and include appropriate computer printouts (**please cut and paste from SPSS to Word**). You may work together on your assignments; however, students submit their own independent write-up of results.

Exams (50%): The two exams will cover the material from the class and textbook and include multiple choice and short answer questions as well as interpretation of SPSS output. The midterm exam is worth 25% and the final exam is worth 25%.

Article Summaries (10% each—20% total): Students will complete two article summaries with a particular emphasis on the research questions, methods, analysis, and results. For the first article summary, students will respond to a series of questions using an article that has been selected by the instructor. For the second article summary, each student may select from options provided by the instructor or identify an empirical journal in the student's area of interest that includes the required statistical tests. Students will read the entire article, identify key components of the methods/analysis and write a short commentary/critique (3 pages maximum) of the Methods & Analysis section.

- **Other Requirements**

Class Attendance & Participation: It is expected that all students will read assigned materials before coming to class, come to class on time, participate in class discussions/activities, and complete in-class assignments. Each class session will include: questions and answers on previous content, going over key components of new material, and lab work to practice the material. The lab portion of the class will include time for hands-on computer work that is directly related to the homework and course goals.

- **Grading**

Grades will be assigned based on the following:

A+ 98-100%	A 93-100%	A- 90-92%
B+ 88-89%	B 83-87%	B- 80-82%
C 70-79%	F below 70%	

Professional Dispositions

See <https://cehd.gmu.edu/students/polices-procedures/>

Class Schedule

Week	Date	Topic	Reading/ Assignment Due
1	Jan 22	Course Info Intro to Statistics & Frequency Distributions Intro to SPSS Central Tendency	Ch. 1 -3 Appendix A: Basic Math Review
2	Jan 29	Variability Probability & Standard Distributions Z-scores: location	Ch. 4 & 5
3	Feb 5	Distributions of Sample Means Standard Error	Ch. 6 HW #1 (week 1 & 2)
4	Feb 12	Hypothesis Testing & Power	Ch. 7
5	Feb 19	The t distribution Single Sample t-Tests	Ch. 8 HW #2 (week 3 & 4)
6	Feb 26	Independent and Dependent t-Tests	Ch. 9 & 10
	Mar 4	NO CLASS – Spring Recess	
7	Mar 11	Catch-up/Review	HW #3 (week 5 & 6)
8	Mar 18	Midterm Exam	
9	Mar 25	ANOVA: One-way	Ch. 11 Article Summary #1
10	Apr 1	ANOVA: Post hocs and within subjects	Ch. 11 continued
11	Apr 8	Correlation and Regression	Ch. 13 HW #4 (week 9 & 10)
12	Apr 15	Chi-Square	Ch. 14
13	Apr 22	ANOVA: Two way	Ch. 12 HW #5 (week 11 & 12)
14	Apr 29	Review	Article Summary #2
15	May 6	FINAL EXAM	

Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

Core Values Commitment

The College of Education and Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles: <http://cehd.gmu.edu/values/>.

GMU Policies and Resources for Students

Policies

- Students must adhere to the guidelines of the Mason Honor Code (see <https://catalog.gmu.edu/policies/honor-code-system/>).
- Students must follow the university policy for Responsible Use of Computing (see <https://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>).
- Students are responsible for the content of university communications sent to their Mason email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students **solely** through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor (see <https://ds.gmu.edu/>).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to viahelp@gmu.edu or <https://cehd.gmu.edu/aero/assessments> . Questions or concerns regarding use of Blackboard should be directed to <https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/>.
- For information on student support resources on campus, see <https://ctfe.gmu.edu/teaching/student-support-resources-on-campus>

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a “Non-Confidential Employee,” and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason’s Title IX Coordinator per [University Policy 1202](#). If you wish to speak with someone confidentially, please contact one of Mason’s confidential resources, such as [Student Support and Advocacy Center](#) (SSAC) at 703-380-1434 or [Counseling and Psychological Services](#) (CAPS) at 703-993-2380. You may also seek assistance or support measures from Mason’s Title IX Coordinator by calling 703-993-8730, or emailing titleix@gmu.edu.

For additional information on the College of Education and Human Development, please visit our website <https://cehd.gmu.edu/students/>.
