Co-requisite(s):

None

Course Description

Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers.

Advising Contact Information

Please make sure that you are being advised on a regular basis as to your status and progress in your program. Students in Special Education and Assistive Technology programs can contact the Special Education Advising Office at 703-993-3670 or speced@gmu.edu for assistance. All other

1

students should refer to their assigned program advisor or the Mason Care Network (703-993-2470).

Advising Tip

Are you ready to apply for graduation? Students completing their program can apply for graduation on Patriotweb. If you are graduating from a Masters and certificate, be sure to apply to graduate from each program. Visit http://registrar.gmu.edu/students/graduation/ for more information.

Course Delivery Method

Learning activities include the following:

- 1. Application activities
- 2. Video and other media supports
- 3. Research activities
- 4. Electronic supplements and activities via your LMS

This course will be delivered online (76% or more) using an asynchronous format via Mason's Learning Management system (LMS). You will log in to the course site using your Mason email name (everything before @masonlive.gmu.edu) and email password. The course site will be available on 08/26/24, 10:00 AM

• To access your course in Blackboard Learn: https://mymasonportal.gmu.edu/

Under no circumstances, may candidates/students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed internet access with updated browsers.
 - <u>Blackboard Learn</u> supported browsers: https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser Support
 - <u>Canvas</u> supported browsers: https://guides.instructure.com/a/720329]
- Consistent and reliable access to GMU email and the course LMS, as these are the
 official methods of communication for this course.
- Note that students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of

course requirements.

Expectations

Course Week:

Because asynchronous courses do not have a "fixed" meeting day, our week will start on Monday, and finish on Sunday.

• Log-in Frequency:

Students must actively check the course LMS site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least one time per week.

• Participation:

Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

• Technical Competence:

Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.

Technical Issues:

Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.

Workload:

Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.

• <u>Instructor Support:</u>

Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.

Netiquette:

The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words*. Remember that you are not competing with

classmates but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Learner Outcomes

Upon completion of this course, teacher candidates/students will be able to:

- 1. Identify and understand different methods of educational research suitable for different research purposes in special education.
- 2. Describe and discuss basic theories and methods of quantitative experimental and quasi-experimental research in special education.
- 3. Describe and discuss basic theories and methods of survey research in special education.
- 4. Describe and discuss basic theories and methods of single subject research in special education
- 5. Describe and discuss basic theories and methods of qualitative research in special education.
- 6. Critically evaluate education research and describe implications for educational practice.

Professional Standards

(Council for Exceptional Children [CEC] and the Interstate Teacher Assessment and Support Consortium [InTASC]). Upon completion of this course, students will have met the following professional standards: CEC Standard 5: Instructional planning and strategies (InTASC 7,8) & CEC Standard 6: Professional learning and ethical practice (InTASC 9).

Required Texts

Hott, B., Brigham, F., & Peltier, C. (2021) Research methods in special education. Thorofare, NJ:

Slack Books, ISBN 10: 1630917567

The link to the publisher for this text is:

https://www.slackbooks.com/research-methods-in-special-education-evidence-based-instruction-in-special-education/

You can get it from Amazon at:

https://www.amazon.com/Research-Methods-Special-Education-Hott/dp/1630917567/ref=sr_1_3?dchild=1&keywords=Research+Methods+in+Special+Education&qid=1629571091&sr=8-3

But, and this is the reward for reading all of this section, it appears that the library has an eversion of this book available for free! Here is what they told me:

Course: EDSE 590

Ebook title: Research methods in special education /

Link to access ebook:

http://mutex.gmu.edu/login?url=https://search.ebscohost.com/login.aspx?direct=true&scope=site&db=nlabk&AN=3045909

The license for this ebook allows for unlimited simultaneous users, so all students in the class should be able to access it.

Course Performance Evaluation

Students are expected to submit all assignments on time in the manner outlined by the instructor (e.g., LMS, VIA, hard copy).

VIA Performance-Based Assessment Submission Requirement

It is critical for the special education program to collect data on how our students are meeting accreditation standards. Every teacher candidate/student registered for an EDSE course with a required Performance-based Assessment (PBA) is required to upload the PBA to VIA/SLL (regardless of whether a course is an elective, a one-time course or part of an undergraduate minor). A PBA is a specific assignment, presentation, or project that best demonstrates one or more CEC, InTASC or other standard connected to the course. A PBA is evaluated in two ways. The first is for a grade, based on the instructor's grading rubric. The second is for program accreditation purposes. Your instructor will provide directions as to how to upload the PBA to VIA/SLL.

For EDSE 590: No requirement to upload a Performance-based Assessment (PBA) to VIA/SLL.

Assignments and/or Examinations

There are 15 chapters in our textbook. Each chapter is accompanied by a quiz containing between 15 and 26 items. Additionally, each student must complete the online HSRB ethics training. Details of that process are described at the end of the syllabus. There is an optional systematic review paper that can be completed for higher grades. See the *Grading* section of the syllabus and, also the "Simplified Anatomy of a Systematic Literature Review" document at the end of the syllabus for specifics.

Performance-based Assessment (VIA submission required) N/A.

College Wide Common Assessment (VIA submission required)

N/A.

Student Evaluations of Teaching:

The student evaluation of teaching, or SET, is an online course survey. You are strongly encouraged to complete this form for each course as this feedback helps instructors and administrators improve your class experiences. Towards the end of the course, you will receive email and LMS notifications when the evaluations open. Your anonymous and confidential feedback is only shared with instructors after final grades have been submitted. More information about the SET can be found on The Institute of Effectiveness and Planning website at https://oiep.gmu.edu/set/

Course Policies and Expectations

Attendance/Participation

Please refer to the previously described expectations for the course.

Late Work

Online Submission of Student Work Required. All student work must be submitted through the Blackboard class website. Due dates are posted at the end of the syllabus and, also on the blackboard site. On time submissions are required to be in the class Blackboard Assignment folder by the beginning of the class session on the due date.

Only submissions through the Blackboard Assignment folder will be accepted. Assignments sent as email attachments will be deleted without opening them. Assignments that are not in the Blackboard assignments folder at the appropriate time are late.

Other Requirements

Individual Effort

Each assignment in this course is expected to be completed by the individual student. Unless explicitly agreed to by the instructor, there is *no* group work in this course. Working as a member of the group will be considered as a violation of the student honor code and is likely to involve the sanctions described in that policy.

Grading

I am using contract grading for this course.

- **F:** Failure to complete ten or more of the chapter quizzes at a level of 90% <u>each</u> and/or missing any other single element of the class (e.g. HSRB training module).
- **C:** Completes each of the chapter quizzes and posts documentation for HSRB training module but has attained 90% accuracy fewer than 12 of the quizzes.

- **B-:** Completes each of the chapter quizzes with 90% accuracy on at least 13 of the 15 quizzes and satisfactory completion of research ethics training. See Appendix B for ethics training information.
- **B:** Completes each of the chapter quizzes with 90% accuracy on at least 14 of the 15 quizzes and satisfactory completion of research ethics training. See Appendix B for ethics training information.
- **B+:** Completes requirements for grade of B and attains 90% or higher on each of the 15 chapter quizzes.
- **A-:** Completes requirements for grade of B+ and satisfactory completion of the following literature review paper requirements:
 - 1. Introduction with at least two general references explaining the importance of the topic.
 - 2. Description of search procedures (data bases used, search terms, etc.).
 - 3. Description of search results and article selection criteria yielding at least five relevant sources.
 - 4. APA-formatted reference list.
- **A:** Completes requirements for grade of A- and satisfactory completion of the following *additional* literature review paper requirements:
 - 5. Integrated review of the selected studies.
 - 6. Summary and discussion section.
 - 7. Abstract.
 - 8. (Optional but recommended) Summary table of study participants or other relevant feature of the selected sources.

Note: The systematic review paper is an individual assignment developed with the course instructor. If you wish to do this, you must contact the instructor and negotiate your topic and the general outline of your paper. Unapproved topics and papers that do not follow the negotiated outline may not be accepted for the grades of A- or A.

Also, this is a substantial assignment that is dramatically different from most of the term papers that students have written in their educational careers. I strongly advise that you contact me by the halfway point of our course to begin planning for this assignment.

Things to know about grading:

- 1. You may repeat the quizzes an infinite number of times (within the period of the course).
- 2. I use the score of your last attempt. That is almost always the highest score.
- 3. I do not average score across the different chapter quizzes. To earn a B, you must have 90% or higher on 14 of the 15 quizzes.
- 4. The literature review is a substantive requirement. If you intend to complete one, you should begin working with me on the paper at least four weeks before the end of the class. That this statement was made in the preceding section should indicate its importance!
- 5. The information about competing a systematic review and the supporting search procedures is contained in chapters five and six in our textbook. Make sure you have

- completed the guizzes for those two chapters before starting the review.
- 6. The papers are very idiosyncratic, so I do not use an elaborate checklist rubric. However, if you inspect the numbered points for the A- and A grades, you can see what I am looking for. The elements must be there and in a manner that is representative of graduate-level academic work.
- 7. The paper must conform to the parameters of a systematic review. A simple review, discussion, or term paper will not be adequate for either the A- or the A grade.
- 8. The final product must conform to the guidelines for scholarly papers set forth in the current edition of the APA Manual for Publication.

*Note: George Mason University Academic Standards will be strictly enforced through an institutional sanctioning matrix that all colleges and departments will need to adhere to if they find there are students who are engaged in academic dishonesty. See Academic Standards (http://academicstandards.gmu.edu/) and GMU Catalog - Academic Standards (https://catalog.gmu.edu/policies/academic-standards/). Students are responsible for reading and understanding the Standards. The Office of Academic Integrity "works to promote authentic scholarship, support the institution's goal of maintaining high standards of academic excellence, and encourages continued ethical behavior of faculty and students to cultivate an educational community which values integrity and produces graduates who carry this commitment forward into professional practice." Work submitted must be your own new, original work for this course or with proper citations.

Professional Dispositions

Throughout study in the College of Education and Human Development, students are expected to demonstrate behaviors that reflect the positive dispositions of a professional. See Student Guide (https://cehd.gmu.edu/current-students/cehd-student-guide).

Use of Generative AI

Generative AI tools should follow the principles of Mason's Academic Standards. This includes being honest about the use of these tools for submitted work and including citations when using the work of others, whether individual people or Generative AI tools.

Class Schedule

*Note: Faculty reserves the right to alter the schedule as necessary, with notification to students.

The suggested class schedule appears as Appendix A.

CEHD Commitments

The College of Education and Human Development is committed to fostering collaboration and community, promoting justice and equity, and advancing research-informed practice. Students

are expected to adhere to, and contribute to, these commitments, the CEHD Mission, and Core Values of George Mason University. More information can be found here: Culture (https://cehd.gmu.edu/about/culture/)

GMU Policies and Resources for Students

Policies

- Students must adhere to Mason's Academic Standards. See <u>Academic Standards</u> (https://catalog.gmu.edu/policies/academic-standards/).
- Students must follow the university policy for Responsible Use of Computing. See Responsible Use of Computing (http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/).
- Students are responsible for the content of university communications sent to their
 Mason email account and are required to activate their account and check it regularly.
 All communication from the university, college, school, and program will be sent to
 students solely through their Mason email account.
- Students with disabilities who seek accommodations in a course must be registered with George Mason University Disability Services. Approved accommodations will begin at the time the written letter from Disability Services is received by the instructor. See <u>Disability Services</u> (https://ds.gmu.edu/).
- Students must silence all sound emitting devices during class unless otherwise authorized by the instructor.

Campus Resources

- Support for submission of assignments to VIA should be directed to viahelp@gmu.edu or https://cehd.gmu.edu/aero/assessments.
- Questions or concerns regarding use of your LMS should be directed to:
 - o <u>Blackboard Learn</u>: <u>https://its.gmu.edu/knowledge-base/blackboard-instructional-technology-support-for-students/</u>
 - o Canvas: https://its.gmu.edu/service/canvas/
- For information about <u>student support resources</u> on campus, see: https://ctfe.gmu.edu/teaching/student-support-resources-on-campus
 - o <u>TimelyCare</u>: https://caps.gmu.edu/timelycare-services/
 - o Writing Center: https://writingcenter.gmu.edu/

Notice of mandatory reporting of sexual assault, sexual harassment, interpersonal violence, and stalking:

As a faculty member, I am designated as a "Non-Confidential Employee," and must report all disclosures of sexual assault, sexual harassment, interpersonal violence, and stalking to Mason's Title IX Coordinator per <u>University Policy 1202</u>. If you wish to speak with someone confidentially, please contact one of Mason's confidential resources, such as the <u>Student Support and Advocacy Center (SSAC)</u> at 703-380-1434 or <u>Counseling and Psychological Services (CAPS)</u> at 703-993-2380. You may also seek assistance or support measures from Mason's Title IX Coordinator by calling 703-993-8730, or emailing <u>titleix@gmu.edu</u>.

For additional information on the College of Education and Human Development, please visit our website College of Education and Human Development (http://cehd.gmu.edu/).

Land Acknowledgement Statement

Land acknowledgment engages all present in an ongoing indigenous protocol to enact meaningful, reciprocal relationships with ancestors and contemporary tribal nations. As a state university, we have a responsibility to include and support indigenous communities and sovereign tribes in our work.

At the place George Mason University occupies, we give greetings and thanksgivings to these Potomac River life sources, to the Doeg ancestors, who Virginia annihilated in violent campaigns while ripping their lands apart with the brutal system of African American enslavement, to the recognized Virginia tribes who have lovingly stewarded these lands for millennia, including the Rappahannock, Pamunkey, Upper Mattaponi, Chickahominy, Eastern Chickahominy, Nansemond, Monacan, Mattaponi, Patawomeck, and Nottaway, past, present, and future, and to the Piscataway tribes, who have lived on both sides of the river from time immemorial.

Appendix A Tentative Class Schedule

Week	Week	Торіс		Activities Due
	of:	(what to read)		(what to complete)
1	8/26	(Ch. 1) Evidence-Based Practices in Special Education	0	Getting to Know You responses
2	09/02	(Ch. 2) Research in Special Education	0	EBP responses
3	09/09	(Ch. 3) Research in Applied Settings	0	Research in Sp. Education Responses
4	09/16	(Ch. 4) Ethics in Research	0	Applied Settings Responses

	11/11	(Ch. 12) Qualitative Research	0	Survey Responses
	11/18	(Ch. 13) Mixed Methods Research	0	Qualitative Responses
	11/25	Take a break and have a restful Thanksgiving!		
	12/02	(Ch. 14) Program Evaluation	0	Mixed Method Responses
	12/09	(Ch. 15) Research to Practice	0	Program Evaluation Responses
	12/16		0	Research to Practice Responses
	12/18	Everything needs to be loaded by this day if it is to be considered	0	Individual Research Project (if you
		for the grade.		want to be considered for the grades
				of A- or A)

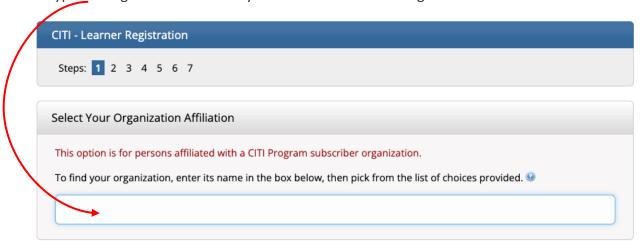

⁺ These chapters explain how to do a systematic literature review.

Refer back to the grading for literature review requirements for a grade of A- or a grade of A.

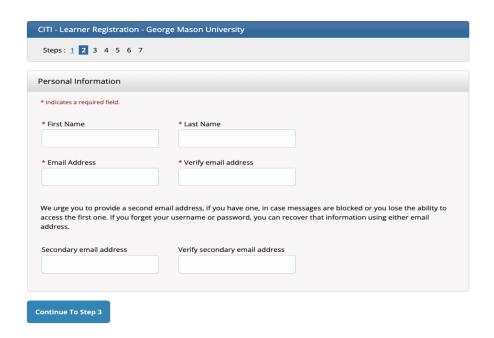

Appendix B Research Ethics Training

How to Register and Access the CITI Training Program

- To begin the CITI program go to http://www.citiprogram.org
- The first time you access the site, click "Register Here" to create an account.
 - Type "George Mason University" from the Select Your Organization affiliation box.

Complete all enrollment information.

There are a few more screens but I cannot get to them because I already have an account and the system won't let me create a "dummy" account to be ab le to walk you through it.

Click the Submit button.

Curriculum Selection:

- Select "I am interested in Human Subjects Research Courses" click next
- Select "I need to enroll in a Basic course" or "I need to enroll in a Refresher course" –
 click next
- Select the appropriate human subjects course (Group 1 or Group 2) that is relevant to your discipline and research area click next
- If enrolling in the Basic course, select "I have not previously completed an approved Basic course"
- Affiliate with another institution if applicable, if not, select "No"
- Click the submit button

Basic Course Instructions

Prior to conducting any research at Mason using human subjects, you must complete the Basic Human Subjects Research Course, which consists of several user modules. You must take the modules in the order they are shown and complete a short quiz following each one. You will not be allowed to move to the next module until you have completed each one. You do not have to complete all modules at one time. You may return to the program as many times as you need to complete the course.

You do not need to do the additional modules for EDSE 590.

When you have completed the basic course, and any applicable optional modules, you will receive a Completion Report. ORIA staff will also receive notification that you have completed the course. Please print a copy of the completion report for your records and submit a copy of it with your <u>Human Subjects Application</u>. (For EDSE 590, just upload the document to the appropriate place in the Blackboard site.)

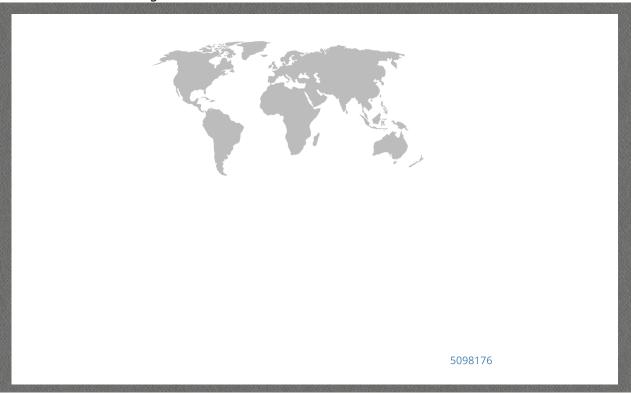

The National Institutes of Health (NIH) requires education on the protection of human research participants for all key personnel submitting NIH applications for grants or proposals for contracts or receiving new or non-competing awards for projects involving human research participants. The training is required for both exempt and nonexempt research involving human subjects. Mason faculty, staff and students who are key personnel for NIH funded human subjects research can fulfill the NIH training requirement by completing the CITI training.

For Questions about CITI Training

Contact irb@gmu.edu with any questions about on-line training.

Complete the training and then have the documentation sent to me by the program or download it to your computer and send it to me. I suggest downloading it and sending from your computer.

It should look something like this:

Appendix C

Simplified Anatomy of a Systematic Literature Review

This document gives the basic instructions for completing the systematic literature review requirement of Dr. Brigham's (Rick's) EDSE 590 class. Before beginning the review, I won't require it, but I strongly recommend that you spend some time with me narrowing the topic and refining the search procedures. In past semesters, students who did this on their own were often less successful in meeting the requirements of this assignment.

This is *only the first page* of the assignment.

The full guide appears in the *Assignment* folder and then in the *Systematic Review: Individual Project* folder.

The guide contains instructions for creating headers and installing pagination. These instructions and their illustrating examples interfere with the formatting of the CEHD-required syllabus template, so I loaded the guide separately rather than tacking it on to the end of the syllabus.

If the any of the features of the guide are problematic for text-readers and other supports, please call me so that we can make any necessary adjustments to the document.
