EDLE 618 Supervision and Evaluation of Instruction (3:3:0)

Provides a theoretical and practical overview of the supervision and evaluation of instruction. Introduces the domains of supervision and inquiry into current issues and best practices in supervision. Uses a variety of interactive exercises to assist in the development of practical skills for using the clinical process and developmental approach to supervision.

Course Overview

This course provides a theoretical and practical application of current issues that confront school leaders in their efforts to provide effective leadership and supervision of school staff. Course participants will engage in small group discussion about educational trends and best practices that lead to high performing schools characterized by strong systems of accountability, continuous improvement, communication and collaboration.

Course Delivery Method

This course will be delivered in a HYBRID format using a **combination of face-to-face, synchronous and asynchronous**. In person meetings are Synchronous and asynchronous format delivered via Blackboard Learning Management system (LMS) housed in MyMason Portal. Face to Face locations are outlined below. All assignments throughout the semester will be via the Blackboard learning management system (LMS) housed in the MyMason portal. To access your course in Blackboard Learn: <https://mymasonportal.gmu.edu/>. You will log in to the Blackboard course site using your Mason email name (everything before “@gmu.edu”) and email password. The course site will be available by ***a week before our first class.***

Under no circumstances, may students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Cameras must be on for Zoom classes or there will be a reduction in participation points. All synchronous and face-to-face sessions require your undivided attention to course instruction.

Course Learner Outcomes or Objectives

Students enrolled in this course will understand the research on adult learning theory and how it connects with effective professional development. They will understand the five phases of clinical supervision, and how they relate to the supervisory styles and approaches. Students will observe classrooms and understand the variety of observation methodologies that can be used to collect data. Students will practice data informed decision making to improve teaching and overall student learning.

Students will understand and demonstrate the capacity to reflect on, communicate about, and cultivate professional dispositions and norms (i.e. equity, fairness, integrity, transparency, trust, collaboration, perseverance, reflection, lifelong learning, digital citizenship) and professional district and school cultures.

Relationship of EDLE 618 to Internship Requirements

Although the internship is a separate course, the Education Leadership Program has integrated “embedded experiences” into course work. This means that some of the work in this class is related to your internship. You may write about embedded experiences (such as the Clinical Supervision project and PD project) in your internship journal and reflections. Some of these may count towards the minimum 320 hours required for the internship. Please discuss with your professor and internship supervisor.

Professional Standards

Upon completion of this course, students will be able to:

1. Demonstrate the ability to identify and define effective instructional practice.
2. Engage with classroom teachers in applying the principles of clinical supervision and the developmental approach to supervision.
3. Demonstrate the ability to apply supervision consistent with adult learning theory, the characteristics of effective professional development, and the research on effective schools.
4. Articulate a working knowledge of current issues and best practices in supervision.
5. Demonstrate the capacity to promote the current and future success and well-being of each student and adult by applying the knowledge, skills, and commitments necessary to evaluate, design, cultivate, and implement coherent systems of curriculum, instruction, data systems, supports, assessment, and instructional leadership.

Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed internet access with updated browsers.
 - Blackboard Learn supported browsers:
https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support
 - Canvas supported browsers: <https://guides.instructure.com/a/720329>
- Consistent and reliable access to GMU email and the course LMS, as these are the official methods of communication for this course.
- Speakers and a microphone or a microphone-enabled headset for use with the synchronous web conferencing tools.

- Note that students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

Expectations

- **Face-to-Face sessions & Synchronous via Zoom.** See the weekly syllabus for the specifics. ***Attendance is mandatory and points will be deducted if you miss class or if your camera is not ON.***
- **Asynchronous Course Week:** asynchronous work is embedded in specific lessons & due by the following class.
- **Office hours-** see Blackboard for Zoom link by appointment or general questions can be answered before/after class.
- **Log-in Frequency:** Students must actively check the course Blackboard site and their GMU email for communications from the instructor, class discussions, and/or access to course materials at least 3 times per week.
- **Participation:** Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- **Technical Competence:** Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- **Technical Issues:** Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- **Workload:** Students are expected to meet specific deadlines and due dates listed in the Class Schedule section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- **Instructor Support:** Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- **Netiquette:** The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. ***Be positive in your approach with others and diplomatic in selecting your words.*** Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.
- **Accommodations:** Online learners who require effective accommodations to insure accessibility must be registered with George Mason University Disability Services.

NELP Standards

NELP 1.2 Candidates understand and demonstrate the capacity to lead district strategic planning and continuous improvement processes that engage diverse stakeholders in data collection, diagnosis, design, implementation, and evaluation. (overlaps with 690 and 610)

NELP 2.1 Candidate understands and demonstrates the capacity to reflect on, communicate about, and cultivate professional dispositions and norm (i.e., equity, fairness, integrity, transparency, trust, collaboration, perseverance, reflection, lifelong learning, digital citizenship) and professional district and school culture.

NELP 4.1 Candidates understand and can demonstrate the capacity to evaluate, design, and implement high-quality curricula, the use of technology, and other services and supports for academic and non-academic student programs.

NELP 4.2 Candidates understand and can demonstrate the capacity to collaboratively evaluate, design, and cultivate systems of support, coaching, and professional development for educators, educator professional, and school and district leaders, including themselves, that promote reflection, digital literacy, distributed leadership, data literacy, equity, improvement, and student success.

NELP 4.3 Candidate understand and can demonstrate the capacity to design, implement and evaluate a developmentally appropriate, accessible, and culturally responsive system of assessments and data collection, management, and analysis that support instructional improvement, equity, student learning and well-being, and instructional leadership.

NELP 4.4 Program completers understand and demonstrate the capacity to design, implement, and evaluate district-wide use of coherent systems of curriculum, instruction, assessment, student services, technology, and instructional resources that support the needs of each student in the district.

Course Performance and Evaluation Criteria

Every student registered for any EDLE course with a requirement performance-based assessment is required to submit these assessments: The Professional Development Project and the Clinical Supervision Project to VIA through Blackboard (regardless of whether a course is an elective, a onetime course or part of an undergraduate minor). Evaluation of the performance-

based assessment by the course instructor will also be completed in VIA through Blackboard. Failure to submit the assessment to VIA (through Blackboard) will result in the course instructor reporting the grade as Incomplete (IN). Unless the IN grade is changed upon completion of the VIA submission, the IN will convert to an F nine weeks into the following semester.

Students can earn a total of **500 points** in this course.

General Expectations

Consistent with expectations of a master's level course in the Education Leadership Program, grading is based heavily on student performance on written assignments. Overall, written work will be assessed using the following broad criteria:

1. Application of concepts reflected in class discussion and readings
2. Original thinking and persuasiveness
3. The ability to write in a clear, concise, and organized fashion.

Additionally, a portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of various performances are as follows:

Additionally, due to the nature of this course, a significant portion of the class grade will be based on participation and the contribution you make to class discussions. The overall weights of various performances are as follows:

Class Participation, Activities, and Attendance (125 points)

To maximize learning and engagement in the online environment, students are expected to participate actively in asynchronous class discussions, asynchronous and synchronous group activities, and serve as critical friends to other students. In this course, participation points are given by unit, rather than per learning activity. Below is a list of all required learning activities, by unit, which will count toward your overall participation grade. There is a rubric for class participation in this syllabus. **Attendance is mandatory in face-to-face/Zoom classes (attendance & activity points).**

Written Assignments (375 points)

VIA Performance-Based Assessment Submission Requirement

Course Policies

Assignments are due by 11:59 p.m. on the dates listed on the syllabus. Late assignments will not be accepted except in emergency situations that have been discussed and approved by the instructor in advance of the due date. Please take advantage of instructor availability to get assistance prior to assignment deadlines.

Professional Dispositions

Students are expected to exhibit professional behaviors and dispositions at all times.

See: <https://cehd.gmu.edu/students/polices-procedures/>

Use of Generative AI

Use of Generative AI tools should be used following the fundamental principles of Mason's Academic Standards. This includes being honest about the use of these tools for submitted work and including citations when using the work of others, whether individual people or Generative AI tools.

Professional Dispositions (CEHD Student Guide)

Throughout study in the College of Education and Human Development, students are expected to demonstrate behaviors that reflect the positive dispositions of a professional. See

<https://cehd.gmu.edu/current-students/cehd-student-guide>.

[Additional course or program-specific language may be added.]

CEHD Commitments

The College of Education and Human Development is committed to fostering collaboration and community, promoting justice and equity, and advancing research-informed practice. Students are expected to adhere to, and contribute to, these commitments, the CEHD Mission, and Core Values of George Mason University. More information can be found here:

Other reminders:

GMU Add/Drop Policy: The last day to drop this class without any penalty is provided on the GMU academic calendar page <http://registrar.gmu.edu/calendar/>. It is the student’s

responsibility to check to verify that they are properly enrolled, as no credit will be awarded to students who are not.

Plagiarism Statement: Plagiarism means using the exact words, opinions, or factual information from another person without giving that person credit. Writers give credit through accepted documentation styles, such as parenthetical citation, footnotes, or endnotes; a simple listing of books and articles is not sufficient. Plagiarism is the equivalent of intellectual robbery and cannot be tolerated in an academic setting (Statement of English Department at George Mason University).

Plagiarism and the Internet: Copyright rules also apply to users of the Internet who cite from Internet sources. Information and graphics accessed electronically must also be cited, giving credit to the sources. This material includes but is not limited to e-mail (don't cite or forward someone else's e-mail without permission), newsgroup material, information from Web sites, including graphics. Even if you give credit, you must get permission from the original source to put any graphic that you did not create on your web page. Shareware graphics are not free. Freeware clipart is available for you to freely use. If the material does not say "free," assume it is not. Putting someone else's Internet material on your web page is stealing intellectual property. Making links to a site is, at this time, okay, but getting permission is strongly advised, since many Web sites have their own requirements for linking to their material.

If you have questions about when the contributions of others to your work must be acknowledged and appropriate ways to cite those contributions, please talk with the professor or utilize the GMU Writing Center.

Academic Integrity & Inclusivity: This course embodies the perspective that we all have differing perspectives and ideas and we each deserve the opportunity to share our thoughts. Therefore, we will conduct our discussions with respect for those differences, meaning we each have the freedom to express our ideas, but we should also do so keeping in mind that our colleagues deserve to hear differing thoughts in a respectful manner, i.e. we may disagree without being disagreeable. <http://integrity.gmu.edu/>

Diversity, Religious Holiday: Please refer to George Mason University's calendar of religious holidays and observations (<http://ulife.gmu.edu/calendar/religious-holiday-calendar/>). It is the student's responsibility to speak to the instructor in advance should their religious observances impact their participation in class activities and assignments.

Student Privacy Policy: George Mason University strives to fully comply with FERPA by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. Please see George Mason University's student privacy policy <https://registrar.gmu.edu/students/privacy/>

Other Concerns: If you have concerns or issues relating to the content or conduct of the class, please talk with me directly. Although the specifics of these conversations are entirely confidential, they may provide me with useful suggestions that may be shared indirectly with the class to improve the learning experience for all students. As a matter of policy, I do not respond to anonymous e-mails.
