University Catalog Course Description

Examines current and emerging issues and trends impacting education to include: demographic shifts; globalization; technology; data-based decision-making; inclusion of diverse learners in American schools; and recent research on student achievement when influenced by race, gender, and poverty.

Course Overview

This course is intended as one of two culminating courses in the Master's in Education Leadership Program. Course content focuses on key contemporary issues in public education, which hold important implications for education leadership, policy, and practice in the 21st century. At the conclusion of the course, students will be expected to demonstrate the knowledge, skills, and dispositions needed to increase their effectiveness in working with multiple school and community stakeholders in increasingly diverse and complex education contexts.

Course Delivery Method

This course will be delivered using the **blended model** with a combination of asynchronous (**6 classes**), **synchronous (2 classes)**, and **face-to-face (5 classes)** [BBCU] format. You will log in to the course site using your Mason email name (everything before @gmu.edu) and email password. The course site will be available on September 3, 2024.

- To access your course in Blackboard Learn: <https://mymasonportal.gmu.edu/>

A variety of instructional methods are used to cover the subject matter and create a dynamic, interactive learning environment. These methods *may* include large and small group discussions, case studies, media, Internet assignments, group Blog submissions, lecture, guest practitioners, group presentations, interviews, collaborative learning and reflection. There is some out-of-class work (research) expected. The challenge is to become a community of learners.

Under no circumstances, may students participate in online class sessions (either by phone or Internet) while operating motor vehicles. Further, as expected in a face-to-face class meeting, such online participation requires undivided attention to course content and communication.

Accommodations:

Online learners who require effective accommodations to ensure accessibility must be registered with George Mason University Disability Services.

Learner Outcomes or Objectives:

This course is designed to enable students to:

1. Analyze contemporary issues and major trends in education and their implications for society at large and schools, communities and school districts in particular;
2. Define characteristics and skills of future-focused leaders and learn strategies to address the implications for leadership in education systems and individual schools.
3. Evaluate how student diversity can help teachers and administrators develop curriculum that includes global literacy with a significant effect on economic, cultural, and political matters, with particular attention on how culture influences learning;
4. Synthesize recent research relative to student achievement in diverse school settings, with particular attention to the relationships between student achievement, gender, race, poverty, and ability;
5. Identify various strategies to maximize the effective use of data to improve student achievement and effective ways to communicate results to various community stakeholders and groups;
6. Defend educational decisions using data rather than personal opinion.
7. Describe rights, regulations, philosophies, and methods used in educating diverse groups such as Limited English Proficient and Students with Disabilities.
8. Utilize various data sources to predict future issues/trends in education and to improve student achievement.
9. Work independently and interdependently to successfully accomplish group projects.
10. Listen to multiple perspectives, consider suggestions, seek common ground, and maintain objectivity.

Professional Standards

In relationship to professional organization competencies, participants in this course will demonstrate proficiency in appropriate VA DOE competencies and Professional Standards for Educational Leaders. VA DOE: 1-d, 1-e, 2-c, 2-d, 3-g, 4-a, 5-c, 6-e, 6-f. Technical Requirements

To participate in this course, students will need to satisfy the following technical requirements:

- High-speed internet access with updated browsers.
 - Blackboard Learn supported browsers:
https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support
 - Canvas supported browsers: <https://guides.instructure.com/a/720329>
- Consistent and reliable access to GMU email and the course LMS, as these are the official methods of communication for this course.
- Speakers and a microphone or a microphone-enabled headset for use with the synchronous web conferencing tools.
- Note that students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of course requirements.

Required Resources Due to the nature of this course, the online publications listed below will be used to provide students with the most current issues and information in the field. Students are required to sign up for the publication prior to the start of the course. The publications will be used as a regular part of every class.

ASCD SmartBrief <https://www.smartbrief.com/ascd/>

SmartBrief on Special Education

https://www.smartbrief.com/signupSystem/subscribe.action?pageSequence=1&briefName=speciald&campaign=in_brief_signup_link&utm_source=brief

Students will sign up to receive these online newsletters which provide a daily (ASCD), current snapshot of the education community with news from Education Week, The Washington Post and other leading sources written by experts in summary form. Each class will start with a brief report out on a current trend or issue from this resource.

Blackboard Site- Research articles, briefs and reports will be posted to the Blackboard site related to discussion topics for specific class sessions. Students will be required to check the site daily for articles posted and be prepared for class discussions on the topic.

Expectations

- Participation:
Students are expected to actively engage in all course activities throughout the semester, which includes viewing all course materials, completing course activities and assignments, and participating in course discussions and group interactions.

- Technical Competence:
Students are expected to demonstrate competence in the use of all course technology. Students who are struggling with technical components of the course are expected to seek assistance from the instructor and/or College or University technical services.
- Technical Issues:
Students should anticipate some technical difficulties during the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload:
Please be aware that this course is **not** self-paced. Students are expected to meet *specific deadlines* and *due dates* listed in the **Class Schedule** section of this syllabus. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Instructor Support:
Students may schedule a one-on-one meeting to discuss course requirements, content or other course-related issues. Those unable to come to a Mason campus can meet with the instructor via telephone or web conference. Students should email the instructor to schedule a one-on-one session, including their preferred meeting method and suggested dates/times.
- Netiquette:
The course environment is a collaborative space. Experience shows that even an innocent remark typed in the online environment can be misconstrued. Students must always re-read their responses carefully before posting them, so as others do not consider them as personal offenses. *Be positive in your approach with others and diplomatic in selecting your words.* Remember that you are not competing with classmates, but sharing information and learning from others. All faculty are similarly expected to be respectful in all communications.

Use of Generative AI tools should be used following the fundamental principles of Mason's Academic Standards. This includes being honest about the use of these tools for submitted work and including citations when using the work of others, whether individual people or Generative AI tools.

Diversity and Inclusion Statement

The College of Education and Human Development, an intentionally inclusive community, promotes and maintains an equitable and just work and learning environment. We welcome and value individuals and their differences including race, economic/class status, gender expression and identity, sex, sexual orientation, ethnicity, national origin, first language, religion, age, and ability status, among other characteristics.

- We value our diverse student body and desire to increase the diversity of our faculty and staff.
- We commit to supporting students, faculty and staff who have been the victims of bias and discrimination.
- We promote continuous learning and improvement to create an environment that values diverse points of view and life experiences.

- We believe that faculty, staff, and students play a role in creating an environment that engages diverse points of view.
- We believe that by fostering their willingness to hear and learn from a variety of sources and viewpoints, our students will gain competence in communication, critical thinking and global understanding, and become aware of their biases and how they affect their interactions with others and the world.

Use of Generative AI

Use of Generative AI tools should be used following the fundamental principles of Mason's Academic Standards. This includes being honest about the use of these tools for submitted work and including citations when using the work of others, whether individual people or Generative AI tools.

Professional Dispositions (CEHD Student Guide)
